OVERVIEW

Greenline 48 Fly Hybrid Powered Yacht

The Greenline 48 Fly Hybrid Powered Yacht stands as more than a vessel; it is a contemporary emblem of ingenuity, refinement, and ecological stewardship. This hybrid electric flybridge motor yacht marries cutting edge propulsion with serene onboard comfort, offering an inspired choice for owners who expect grace, reliable performance, and hushed cruising. Every passage unfolds with the quiet assurance of advanced hybrid drive technology, while thoughtful interior and exterior arrangements deliver the ease of a premium motor yacht.

Building on a legacy of more than 800 yachts delivered since 2008, Greenline has set the standard in hybrid yachting by demonstrating that sustainable boating can be both elegant and functional. The 48 Fly embodies that philosophy wholly—integrating sophisticated hybrid systems, intelligent energy management, and meticulous craftsmanship so you may travel farther, cleaner, and more peacefully without compromising speed, range, or onboard amenities. It is at once a luxury flybridge cruiser and an eco minded yacht, conceived for relaxed family cruising and assured passagemaking, where considered design converges with top tier efficiency and the pleasures of a high end motor yacht remain front and center.

DETAILED DESCRIPTION

Description

Available now, the Greenline 48 Fly Hybrid Powered Yacht is a compelling fusion of innovation, luxury, and eco-conscious design. For buyers in Washington State, new Greenline Hybrid Powered Yachts qualify for no sales tax under RCW 82.08-996, making this the ideal moment to step aboard a flagship of responsible yachting. With more than 800 yachts built and sold since 2008, Greenline has set the benchmark for hybrid cruising by turning sustainable technology into real-world comfort, reliability, and style. The result is a yacht that prioritizes efficiency and environmental stewardship while delivering the performance, refinement, and sheer pleasure discerning owners expect. Her state-of-the-art hybrid propulsion allows you to glide in near-silence under electric power or seamlessly transition to traditional diesel for longer passages, reducing your carbon footprint without compromising capability. The spacious, thoughtfully planned layout invites effortless living: an open-plan salon flows to a generous flybridge and beautifully finished cabins, while the yacht's energy-forward design integrates solar panels into the roof to power onboard amenities and extend your time off the grid. Every surface and line speaks to superior craftsmanship, from the sleek exterior profile to a refined interior in Golden Teak wood with Rugana designer fabric and a convertible dinette. A comprehensive suite of amenities elevates life aboard: a full entertainment package with pop-up TVs in the salon and master and speakers throughout; an expansive flybridge crowned by a bimini top and equipped with a BBQ galley, refrigerator, sink, icemaker, and seating for eight; an induction cooktop paired with a Bosch conventional oven and microwave; Fisher & Paykel dishwasher and a Magic Chef washer/dryer. The accommodations are equally impressive with a master island queen berth and

two double guest staterooms featuring side by side berths, plus two large heads with stall showers. For confident passagemaking and navigation, she includes an autopilot, plotter, and a 4 kW radar with AIS, along with a searchlight and air horn mounted on the radar mast. Power resilience comes via two x 660 watt solar panels with a PV charge controller, and an optional solar hard top with four additional panels is available for even greater autonomy. Choose the Greenline 48 Fly Hybrid if you want more than a yacht—choose it if you want an elegant, efficient platform that thoughtfully reduces environmental impact while surrounding you with true luxury and long range capability. Whether you're planning a weekend escape or an extended voyage, this yacht is engineered to anticipate your needs with grace and ease. With the Greenline 48 Fly Hybrid, you're not just investing in a yacht; you're investing in the future of yachting.

Other details

Manufacturer provided description: the largest yacht in the Greenline Hybrid range advances the line beyond the Greenline Hybrid 33 and Greenline Hybrid 39 with a fresh interior design, the NextGen Hybrid system, a comfortable flybridge, a one master plus two guest cabin layout, a hydraulic platform, a utility compartment beneath the salon, and much more. Greenline Hybrid technology enables electric propulsion for up to 20 nautical miles, harvesting and storing free, sustainable solar energy for use at any time. On diesel power the Greenline Hybrid 48 is remarkably efficient, with a potential range of 900 nautical miles, allowing you to enjoy the yachting lifestyle with ease and comfort while protecting the marine environment and your operating budget. Greenline Hybrid respects the sea and the best traditions of boating. The Greenline 48 presents the latest and finest thinking from the brand: a new interior concept, the NextGen Hybrid system, a comfortable flybridge, a forward owner's cabin and two guest cabins, utility storage beneath the salon,

and a huge utility room in lieu of captain's quarters, all wrapped in a sophisticated new Contemporary Look. With its hybrid propulsion system (protected), solar roof panels, seaworthy, low drag Superdisplacement hull (protected), and unparalleled onboard comfort, the Greenline Hybrid 48 is ready to meet any challenge and carry you to the world's most attractive cruising grounds—at sea, on lakes, or along inland waterways. Electric propulsion is specified at 60 V with two x 23 kW Kolektor motors, supported by two x 13 kW Kolektor generators, delivering an electric maximum speed of 6 kts, an electric cruising speed of 4 kts, and an electric range of 20 nm from a 720 amp/hr Lithium Poly battery bank. For conventional power, propulsion is by two x Yanmar 8LV 370 HP diesel engines. Disclaimer: the company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor the condition of the vessel. A buyer should instruct his agents or surveyors to investigate any details the buyer wishes to validate. This vessel is offered subject to prior sale, price change, or withdrawal without notice.

Propulsion

Twin Yanmar Hybrid 8LV-370 engines provide authoritative diesel performance alongside the yacht's electric capability. Each engine, model year 2024, produces 370 hp and shows just 5 hours, with inboard installation and a V-drive for compact, efficient packaging. Power is delivered to the water through 4 blade bronze propellers, and both engines run on diesel fuel, harmonizing long range confidence with hybrid serenity.

Specifications

The Greenline 48 Fly Hybrid balances efficiency and pace with a cruising speed of 7 kn, a maximum speed of 22 kn, and an approximate range of 900 nm. Her

footprint on the water is confident yet manageable, with a length overall of 49.17 ft, a beam of 15.75 ft, and a max draft of 3.08 ft. Deck handling is effortless with an electric windlass. Capacity is generous and thoughtfully engineered: fresh water is carried in one x 174 gal stainless steel tank, fuel in one x 396 gal stainless steel tank, and waste in two x 21 gal stainless steel holding tanks. Accommodations comprise three cabins and three heads, delivering a refined balance of privacy and conviviality for owners and guests.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
