OVERVIEW

2023 Pershing 5X POLAR embodies Pershing's signature blend of athleticism and refinement, presented as a low hours 2023 motor yacht that combines twin Volvo Penta D11 IPS propulsion with a specification designed for owners who demand far more than a simple passage from A to B. She arrives with dramatic intent: sleek metallic paintwork, an electric convertible hardtop and a taut, performance driven silhouette that reads as motion even when moored, announcing presence with confidence and style.

Crafted for Mediterranean life, POLAR is an open hardtop sports cruiser made for early departures, spirited island hops and days spent afloat. The exterior layout favours sociable, sea facing living with expansive bow and aft sunpads, an alfresco dining area and generous teak underfoot across cockpit and sidedecks. A hydraulic bathing platform, teak cockpit, cockpit shower and easy swim access turn spontaneous swims and toy operations into effortless pleasures, while practical features such as a hydraulic passerelle, tender garage, swimming ladder, underwater lights and full exterior covers enhance usability and protection without compromising aesthetics. The safe walk around deck and fluid, open plan make entertaining intuitive and relaxed.

Underway, the Pershing DNA is unmistakable. Twin Volvo Penta D11 engines with IPS and joystick control give POLAR crisp throttle response and exceptional manoeuvrability, particularly valuable in tight marinas and when precise docking is required. With only 232 engine hours recorded, this example represents a lightly used opportunity to own contemporary high performance capability. The planing hull geometry, substantial power and Pershing's characteristic handling deliver a fast, agile and highly refined ride for owners who prize both excitement and composure at sea.

Comfort aboard is treated as seriously as performance. A Seakeeper

gyroscopic stabiliser partnered with Humphree active stabilisation markedly improves comfort both sleeping and anchored, transforming lively seas into calm, enjoyable moments for family and guests. Systems that support autonomy and longer cruises include air conditioning to all cabins, heating, a watermaker, inverter, generator and shore power connection, allowing extended stays away from port without sacrificing convenience.

The interior continues the sporty, contemporary language of the exterior with high quality finishes and a practical layout that balances privacy with sociability. Accommodation comprises two guest cabins, two heads and a dedicated crew cabin, suited to weekend escapes or longer cruises.

Entertaining is made flexible by a convertible dining table, electric blinds, an onboard TV with Bluetooth audio, Wi-Fi connectivity and a wine cellar for cherished bottles, while the galley is comprehensively equipped with fridge, freezer, cooking hob and an ice maker to keep days seamless from sunrise swims to candlelit dinners.

The helm is ergonomically appointed for confident passages, featuring Volvo IPS joystick docking and a Garmin navigation suite that eases route planning and situational awareness. An electric opening hardtop welcomes daylight into the salon and invites sea breezes after sunset, while underwater lights cast a striking ambience at anchor. Attention to detail is evident throughout: teak provides secure, warm underfoot surfaces; well-placed grab rails, full exterior covers and a cockpit arranged for both movement and conversation demonstrate a thoughtful owner's layout.

Every aspect of POLAR reinforces her sporty express character and Pershing pedigree. Razor-sharp handling sits alongside real-world practicality—joystick docking for stress-free berthing, a hydraulic bathing platform for effortless water access, stabilisation for family comfort and a garage for toys—making her an exceptionally capable Mediterranean cruiser. She transitions with ease from energetic morning runs to languid afternoons on the hook and poised,

glamorous arrivals at dusk.

In short, this 2023 Pershing 5X is a highly desirable embodiment of Italian design and performance, presented with very low engine hours, Volvo Penta IPS propulsion, Seakeeper gyroscopic stabilisation and a top tier specification. POLAR is for owners who expect every departure to promise something special, every anchorage to provide a stage, and every arrival to be worthy of attention.

DETAILED DESCRIPTION

Features

With just 232 engine hours, this yacht is powered by twin Volvo Penta D11 diesel engines coupled to Volvo IPS propulsion and precise Volvo IPS joystick control, with an electric bow thruster making tight manoeuvres effortless. Seakeeper gyroscopic stabiliser technology, paired with Humphree stabilisers, ensures exceptional steadiness both while underway and at anchor. An electric convertible hardtop transforms the main deck into an open-air salon, while a hydraulic bathing platform and hydraulic passerelle simplify access to the water and the quay, and a tender garage keeps auxiliary craft and equipment neatly tucked away. The teak cockpit and teak sidedecks frame a safe walk-around deck arrangement that features both a bow sunbed and an aft sunbed, an exterior dining table, sumptuous cockpit cushions, a refreshing cockpit shower, a convenient swimming ladder, dramatic underwater lights and full exterior covers with sun screens for privacy and protection. Comfort systems include air conditioning in all cabins and heating, supported by a generator, inverter and shore power inlet, with a watermaker for extended autonomy; onboard utilities comprise an electric vacuum system, an automatic fire extinguisher system, a water pump and a fire pump. Culinary and entertaining facilities are comprehensive, with a fridge, freezer, cooking top, ice maker and wine cellar complemented by a convertible interior dining table and electric blinds for versatile dining and ambiance control. Entertainment flows seamlessly between interior and exterior via a Bluetooth audio system with cockpit speakers and a Fusion-style entertainment setup, alongside a TV with a flat-screen display. Navigation and communications are fully equipped with Garmin electronic cartography, Garmin VHF, GPS, plotter, radar, autopilot, a depthsounder/ecosounder, log-speedometer and compass, with Wi-Fi

connectivity and Active Captain integration. Accommodation is arranged as two guest cabins served by two guest heads plus one crew cabin, all within a sturdy fiberglass/GRP hull certified to CE Category A and rated to carry up to twelve passengers.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
