OVERVIEW

The 2018 Cruisers 50 arrives in near-showroom condition, a superbly equipped 50' yacht offered at an attractive value and prepared for immediate ownership. Meticulously maintained, her machinery space gleams and all systems are up to date; she has been laid up and not used until transfer, presenting a truly turnkey opportunity for a new owner. The seller is highly motivated and prefers an expeditious sale.

Power comes from twin Volvo Penta IPS 600 pod drives with approximately 610 hours, delivering intuitive joystick control, well-established reliability, and economical cruising. Comfort and seakeeping are elevated by a Kohler 15 kW diesel generator and a SeaKeeper 6 gyro stabilizer, which together ensure a refined ride whether underway or at anchor.

This express-coupe blends luxury and utility with an extensive option list: SeaKeeper 6 gyro stabilization, a hydraulic swim platform for effortless tender launch, and a hydraulic aft garage to stow equipment neatly. Entertaining is effortless with a cockpit grill, an aft docking station to simplify arrivals, a dedicated aft-deck refrigerator for chilled refreshments, and an electric cockpit sunshade that expands living space at the touch of a button—features that define a premium sport yacht and family cruiser.

Accommodation follows the desirable three-stateroom, two-head layout ideally suited to coastal cruising and extended weekends. A full-beam primary suite offers a generous berth with an ensuite head and separate shower; the forward VIP stateroom provides a large berth with private access to its own head and shower; and a starboard guest cabin supplies practical bunks for children or crew—thoughtful sleeping arrangements rarely achieved in this class of coupe and express motor yachts.

Navigation and systems are handled confidently by a complete Garmin electronics package: dual multifunction displays, radar, GPS, a color video

depth sounder, VHF, digital engine instrumentation, and a comprehensive vessel monitoring system—precisely the suite that owners expect on a modern IPS-driven yacht.

Notable onboard systems enhance autonomy and safety: solar panels to support house loads, dual ProNautic charging systems, an inverter/charger for quiet shore-independent power, an engine room blower for ventilation, and an automatic fire suppression system for added protection. Shore power management is simplified with a Cablemaster, while anchoring is made easy by a stainless-steel anchor on an all-chain rode and a robust windlass—premium touches that reinforce her luxury-cruiser pedigree.

Outdoor living spaces invite relaxation and sociability: an aft-deck lounge surrounding a teak table perfect for sunset cocktails, a generous bow sun lounge that becomes a private retreat, and a convivial cockpit that makes the yacht live larger on the water. Inside, the galley is well-appointed with dual under-counter refrigerators, a freezer drawer, microwave, smooth-top stove, abundant storage, and a comfortable dinette. Rich cherry cabinetry, wood soles on the main deck, and plush carpeting in the guest cabins create a warm, upscale ambiance befitting the finest sport yachts and coupe cruisers.

Easily shown and conveniently located minutes from Fort Lauderdale International Airport. Trades considered.
