## OVERVIEW

---

2019, 50-foot semi-displacement luxury motor yacht — United States

Graceful and purposeful, this 2019, 50-foot luxury motor yacht combines modern refinement with genuine cruising capability. Built in advanced fiberglass composite with a thoughtfully engineered semi-displacement hull, she offers the steady demeanor of a bluewater cruiser while retaining the lithe manners of an express vessel—equally suited to slipping along coastal shorelines or making confident, longer passages.

The onboard experience is quiet, dry, and composed. A generous 14-foot beam provides notable stability and abundant interior volume, while a deep, offshore-ready draft of just over ten feet underpins a seakindly, measured motion. Propulsion comes from twin Volvo Penta diesel inboards, chosen for their dependable, economical performance and smooth, predictable response that experienced captains appreciate—ideal for relaxed coastal runs or brisk sport-yacht hops between ports.

Decks are laid out with thoughtful ergonomics and clean sightlines, encouraging effortless flow from a forward lounging area to an aft cockpit arranged for alfresco dining and evening cocktails. The transom promotes waterline living with easy boarding, straightforward tender handling, and seamless access for a morning swim or an afternoon paddle. Composite decks offer surefooted traction and a low-maintenance, elegant finish underfoot. Interior spaces are flooded with daylight through panoramic windows and appointed with rich, contemporary materials that feel timeless. The salon invites unhurried gatherings—perfect for meals, conversation, and quiet hours at anchor—while a well-equipped galley keeps provisions and service within easy reach for comfortable entertaining. Specified for a discerning couple, the private owner's suite affords restful seclusion, generous storage, and a serene, spa-inspired head. Every area reflects intelligent volume management and a

calm modern aesthetic that enhances life aboard.

Range and autonomy are inherent to this design. With generous fuel capacity and ample freshwater reserves, she supports extended itineraries without compromise—weekend escapes, prolonged coastal exploration, or a refined liveaboard routine. The semi-displacement form rewards steady passages with excellent efficiency and an easy, long-legged stride.

For owners seeking a sophisticated motor yacht that marries the agility of an express cruiser with the endurance of a coastal cruiser—and the bluewater poise often associated with premium trawler designs—this 2019 build is an invitation to travel beautifully: an elegant sport yacht for everyday pleasure and a confident cruiser when the horizon calls.

## Boat highlights

---

Price recently reduced. TCB, a Palm Beach Motor Yachts GT50, delivers an unparalleled boating experience; the way she rides simply has to be felt to be understood. Her blue steel metallic hull turns heads in every marina while backing up the attention with exceptional seaworthiness. If you prefer to slip into a new destination unnoticed, this is not your boat—she becomes the talk of the dock, drawing in curious yachtsmen eager to learn her every detail. Built as she is, she is exceptionally rare. Power comes from twin Volvo IPS 800 engines rated at 600 hp each, and her joystick piloting is a genuine game changer, making precision control, effortless maneuvering, and easy docking second nature. The upgraded Dynamic Positioning System holds the vessel in place at the touch of a button while you wait on a bridge, pause at a fuel dock for clearance, or simply take a breath between maneuvers. One of only two in the world built with the open cockpit, TCB is specified to delight. Upgrades include Starlink installed in March 2024, two blue Aqualuma Gen 4 12 Series underwater lights, a custom bimini top with removable side curtains, a sun awning in Weathermax Mist that removes in moments, aft cockpit sunbeds to port and starboard, a cockpit sunshade formed by two Finbrella wind stable umbrellas in oyster white, a full bow rail, and an acoustic engine sound shield. Below, she offers two berths and one head with a separate shower, a well appointed galley, and abundant lockers and drawers that elevate life aboard. On deck, enjoy two distinct seating areas: a raised helm deck with secure, sheltered bench seats, and an open cockpit lounge with plush seating and a built in bar—perfect for effortless entertaining. Her low profile, minimalist styling and mirror finish E glass hull make her as visually arresting as she is functional. The helm is anchored by Volvo Penta

EVC E (Electronic Vessel Control) with IPS joystick and Dynamic Positioning System, complemented by a 17 inch Garmin GPS Map 8617, a Garmin GPS Map 7607, and a Garmin AIS 600. An engine room camera is interfaced with the multifunctional navigation displays. In the galley, a portable two burner Kenyon induction stove with touch control and a ceramic glass cooktop expands your culinary repertoire. We believe her service is up to date and she is ready to cruise today. Oil, oil filters, fuel filters, the impeller, and the fuel water separator were changed on both engines and the genset in October 2024, and oil was changed on the stern drive in October 2024. Contact us today to schedule a private viewing or request additional details. Have a trade? We will consider it—call us to discuss.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
