OVERVIEW

Sleek and assured, this 51-foot motor yacht, launched in 2020 and lying in the United States, marries contemporary silhouette with blue water composure and welcoming comfort. It presents a poised blend of style and substance, tailored for cruising couples and families who value refined workmanship and uncomplicated ownership.

Built with hand-laid fiberglass (GRP) and matching fiberglass decks, the hull offers quiet, predictable passages and long-lasting strength. Propelled by a single Volvo Penta diesel, the yacht delivers dependable, economical performance and the reassuring simplicity of single engine operation, allowing confident cruising from a composed helm with impressively low sound levels. Thoughtful engineering and tidy installations prioritize access and serviceability, making routine maintenance straightforward and providing lasting peace of mind.

From the dock the profile speaks of intention: a purposeful bow, generous glazing, and flowing deck lines that lead aft to a broad cockpit crafted for entertaining and everyday ease. That cockpit flows to a wide swim platform ideal for watersports, tender handling, or twilight drinks just above the waterline. Secure handholds and safe side decks encourage forward movement to the foredeck, where sunning, reading, or quiet anchoring moments find a private setting.

Inside, the yacht is arranged around light and liveability. Expansive windows bathe the salon in daylight, enriching warm textures and elegant finishes. A sociable seating plan frames the views while a well equipped galley keeps conversation at the heart of onboard life. Below decks, inviting cabins offer restful privacy for owners and guests, complemented by clever storage, fine joinery, and a serene, contemporary palette. Climate control, a modern navigation suite at the helm, and entertainment ready spaces complete an

onboard environment that feels as effortless as it is refined.

Equally suited to a long weekend or an extended coastal journey, this 51-foot 2020 build wears its years lightly and offers a turnkey route to the water, benefitting from the integrity of fiberglass construction and the trusted muscle of Volvo Penta power. For those seeking a yacht that blends sophistication with simplicity, this vessel occupies the sweet spot—balanced, polished, and ready to make every mile memorable.
