OVERVIEW

Indulge in the perfect union of refined comfort and seaworthy power aboard this exquisitely maintained 2000 Sea Ray 480 Sedan Bridge, currently berthed in Miami, Florida. Recently given a complete repower, the yacht's twin Caterpillar 3196 TA turbocharged, aftercooled diesel engines — each producing around 640 horsepower — show just 300 hours since that overhaul, promising many miles of reliable performance beneath a graceful profile.

Step inside to a luminous salon where wraparound seating and expansive windows invite natural light, while a fully equipped entertainment center provides refined diversion for guests. The thoughtful interior layout includes three staterooms and two heads, offering generous accommodations for family and friends on overnight passages or longer cruises.

The full-sized galley is appointed for serious provisioning, with upgraded appliances, ample storage, and a comfortable dinette that makes meal preparation and dining effortless. Above, the fully enclosed flybridge serves as an oasis for socializing and navigation, featuring a helm station, abundant seating and a wet bar that together create an ideal vantage for watching the horizon.

A capacious cockpit opens to the swim platform, facilitating effortless water access and providing a relaxed setting for al fresco entertaining. After dusk, the boat's premium Lumitec underwater lights cast a memorable glow beneath the hull, while an upgraded JL Audio system fills the interior and decks with rich sound for every occasion.

Navigation and safety are supported by modern electronics and navigation systems, and climate comfort is assured by multiple air conditioning zones throughout the vessel. A dependable generator supplies the electrical demands of onboard systems whether underway or at anchor.

Professionally maintained with meticulous care, this Sea Ray includes recent

upgrades and comprehensive service records available upon request, making it an exceptional candidate for exploring the Florida coastline, the Bahamas, or destinations further afield. Combining elegant styling, solid construction, and impressive propulsion, this 480 Sedan Bridge is a distinguished offering in today's market.
