OVERVIEW

The 2025 OKEAN 52 appeals to owners who prize generous volume, nimble handling, and onboard comfort; propulsion is provided by twin Volvo Penta D8-IPS 600-hp pods and an Onan 17 kVA genset, delivering efficient cruising and precise maneuverability. Sunlit, open-plan accommodation houses three guest staterooms to maximize liveability, while approximately 1,080 sq ft of usable area unfolds through the builder's signature fold-out bulwarks and side balconies, blurring the line between cockpit and sea for effortless entertaining. Fitted with SeaKeeper NG06 gyro stabilization, a hydraulic swim platform for easy water access, and a hardtop flybridge that becomes an elevated lounge, this flybridge yacht and sport cruiser marries calm, convenience, and sociable deck spaces.

DETAILED DESCRIPTION

Engine & performance

Twin Volvo D8-IPS 2025 diesel engines rated at 600 hp with IPS pod drive deliver commanding acceleration, long-legged efficiency, and remarkably precise handling, while intuitive joystick control and a bow thruster make close-quarters maneuvers effortlessly exact. Underway, the SeaKeeper NG06 gyrostabilizer calms the sea's energy into a poised, quiet ride, transforming every passage into a composed expression of power and grace.

Electrical system

An Onan 17 kVA 60 Hz generator anchors a robust onboard power plant, complemented by a shore power inlet for seamless dockside connectivity and an electric bilge pump that works quietly and efficiently in the background. As day turns to night, underwater lights ignite the waterline in a radiant glow, extending the yacht's elegance well beyond sunset.

Electronics

The helm is a study in intuitive technology: an autopilot holds your course with quiet assurance, cockpit speakers bring rich sound to the open air, and a compass and depthsounder keep you informed with classic clarity. Entertainment arrives via a flatscreen TV, while navigation is elevated by Garmin screens—two 10-inch and two 12-inch—working in concert with GPS, a log-speedometer, a fully integrated navigation center, powerful radar, and dependable VHF communications.

Inside equipment

Designed for effortless comfort on extended voyages, the interior features climate-controlled air conditioning and a battery charger that keeps ship's systems at the ready, while a deep freezer and refrigerator preserve provisions in perfect condition. Hot water is always on tap, a manual bilge pump adds an extra layer of security, and the marine head, microwave oven, and washing machine complete a suite of thoughtful amenities that make life aboard feel naturally refined.

Accommodation

Three guest cabins welcome parties of family or friends in serene style, offering restful privacy and easy storage, while two guest heads ensure unhurried mornings and unruffled evenings. Together they comfortably sleep six, turning every cruise into an unforced celebration of space, light, and unbroken horizon.

Outside equipment/extras

Life flows naturally on deck with plush cockpit cushions and a refreshing cockpit shower framing leisurely afternoons around a beautifully finished cockpit table beneath a protective cockpit cover. An electric grill and sink basin pair perfectly with an outdoor refrigerator to host effortless alfresco dining, while Fusion stereo with DS18 amps sets the soundtrack to open-water days. Gyroscopic stabilizers preserve poise at sea, a hard top adds shelter and style, and the hydraulic swim step with swimming ladder lowers you gently to the water. Safe movement is assured by confident walkarounds, inviting you to explore every part of the yacht with ease.
