OVERVIEW

On view at the Palm Beach International Boat Show, March 25–29.

Permanent Vacation represents the finest example of the 2022 Vanquish 52 Hardtop under 58 feet — a luxury motor yacht and express cruiser that marries sleek performance with refined elegance. Carefully overseen by a hands-on owner throughout its construction, her custom finishes and immaculate condition are apparent the instant you step aboard, every join and surface reflecting bespoke craftsmanship.

Configured for effortless entertaining yet ready for spirited exploration, the social cockpit flows under a sculpted hardtop fitted with an opening skyroof, while a true overnight cabin with a full-size berth welcomes leisurely weekend retreats. Equally at home as a sport yacht dayboat, a performance cruiser, or a superyacht chase boat, she delivers versatility without compromise.

Her propulsion is upgraded to Volvo Penta IPS 950s, providing assured pace, nimble handling, and simplified docking; underway and at rest she benefits from Volvo DPS Skyhook station-keeping and a Seakeeper 6 gyro that maintains exceptional stability at anchor. Routine upkeep was addressed recently — bottom paint and a comprehensive engine service were completed on 2/10/26 — and an HD ultrasonic antifouling system further enhances efficiency while minimizing maintenance demands.

Extended-range and safety features are integrated discreetly: FLIR thermal vision supports confident night passages, a Fischer Panda diesel generator supplies quiet power to twin air-conditioning units, and an immersive 21-speaker audio system lifts onboard entertainment. Provisions are managed in style with seven refrigerated units, a list of practical luxuries that reads like the wish list of any discerning yachtsman and places this Vanquish at the pinnacle of premium motor yachts, express cruisers, and hardtop sport yachts. A rare chance to own a fast, striking Dutch-built 52 that fuses arresting design,

thoughtful customization, and true liveaboard comfort — ideal for unforgettable days on the water and elegant island escapes.

DETAILED DESCRIPTION

Engine room

Engineered for authority and refinement, the engine room is driven by twin Volvo IPS950 diesel engines on IPS pod drives, cocooned in Mast coat two-component acoustic isolation to lower noise and vibration. A generous 1200 liters (396 gal) of fuel capacity extends your range, while hydraulically actuated automatic hatches, efficient air intake fans, and De Bug diesel filters streamline access, cooling, and fuel quality. Shipwide power is supported by a Fischer Pana diesel generator and two Victron Energy Isolation Transformer 7000 units, and HD Ultrasonic antifouling safeguards underwater surfaces with cutting edge, maintenance reducing protection.

Instruments and electric systems

Command comes naturally at the helm with a 7 inch Volvo engine management screen, intuitive digital yacht control via a Raymarine demotic system, power steering with autopilot, and a responsive joystick. Entertainment is rich and immersive thanks to a Fusion stereo with iPad/iPhone connectivity and a subwoofer, while climate is precisely managed by air conditioning and heating in the saloon and master cabin, complete with compressor for the Mediterranean A/C main unit. A robust 24 V electrical system anchors reliability, complemented by a 40 L hot water boiler and a Raymarine VHF with AIS for confident communication and awareness.

Hull and deck

Strength meets sophistication in a complete hull built from stiff marine aluminum and finished in an AWL Grip superyacht mica color (nonmetallic)

paint system. The walk around deck in Flexiteak integrates a self draining system for all weather poise, with pop up cleats ready on demand and a fender set, shore lines, and lifejackets housed neatly beneath automatic hatches. After dark, LED floor lighting set in stainless steel housings guides every step, while Lopo light navigation lights declare your presence with authority. Practical luxury continues with a 100 L service refrigerator and a warm water deck shower for effortless refreshment between swims.

Toilet and bathroom

The bathroom pampers with an electric flush toilet and a separate shower cabin crowned by a soothing rain shower. A refined washbasin set into a Corian sink delivers both warm and cold water, framed by a design mirror and sustained by a discreet ventilation fan for fresh, dry comfort at all times.

Saloon with pantry

A welcoming saloon invites conversation with plush sofa seating beside a beautifully appointed pantry featuring a Corian sink with warm and cold water washbasin, a microwave grill oven, and a convenient refrigerator drawer, all surrounded by thoughtful storage. Ceiling spotlights and a crisp mirror elevate the ambience, while, when it's time to unwind, a king size bed awaits. Ship services are delivered on 110 V 60 Hz for seamless compatibility where required.

Lounge table and walk around

Forward, a serene lounge area with a dining table becomes the social heart of the yacht, where sea breezes and conversation flow with ease. The walk around is 75 cm from floor level to the highest point of the hull,

combining reassuring depth with effortless circulation for guests moving from bow to stern.

Safety

Peace of mind comes standard with a full complement of 12 life vests and an automatic fire extinguishing system serving the engine room. A 3 compartment automatic bilge pump system adds yet another layer of security, quietly protecting the yacht when it matters most.

Anchor system

Anchoring is effortless with an automatic submarine anchor and an automatic anchor winch connected to 40 m of 8 mm stainless steel chain and a 25 kg balanced anchor, all controlled cleanly from both the bow and the dashboard for fingertip precision.

Options vq52 t top

This VQ52 elevates every moment on board with Volvo DPS Skyhook station keeping; a compressed air hose connection beside the deck shower complete with an electric air pump; a sun shade cover over the forward dining table supported by carbon awnings; a T Top with elegant flush grey glass; and a Raymarine radar system mounted on a design spoiler support frame. Sonic indulgence arrives via a high end, custom made audio system, while comfort expands with a Bimini extension sun shade on carbon awning poles and the Besenzoni SP607 hydraulic automatic passerelle/swim ladder. The specification is finished with metallic paint, a total boat cover, one 16 inch Raymarine screen, two cleats in the swim platform for watersports, a remote controlled search light on the T Top spoiler, FLIR night vision, a sun screen at the bow

with carbon awnings, a sun screen at the stern with carbon awnings, an AC outlet on the dashboard, and a split L bench that unlocks an open deck layout.

Disclaimer

The details of this yacht are offered in good faith, but neither the accuracy of the information nor the condition of the boat is guaranteed or warranted. This yacht is offered subject to prior sale, price change, or withdrawal without notice. It is presented as a convenience by the yacht broker to its clients and is not intended to convey direct representation of a specific yacht for sale.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
