DETAILED DESCRIPTION

Manufacturer provided description

Three sumptuous and spacious double cabins, an enormously accommodating cockpit for relaxing and entertaining in style, and up to thirty six exhilarating knots on tap: the Targa 52 is a luxury long range sports cruiser guaranteed to turn heads as you power effortlessly past. Naturally, pace, space and luxury are to be expected on board any Fairline, yet this model elevates the experience as an award winning GRAN TURISMO, featuring the fabulous retractable powered hardtop that won international acclaim. At the flick of a switch, the smooth, beautifully engineered sliding roof swiftly transforms the airy, class leading cockpit into a cozy deck saloon, delivering open air freedom and refined shelter on demand.

Accommodations

Three staterooms make this a perfect family cruiser, beginning with the forward master that features a centerline queen berth, private en suite head with separate shower, a flat screen TV, upholstered headboard, quilted bedspread, twin wardrobes, dressing tables with vanity storage, a hatch to the forward deck, a full length mirror, two stainless portlights, and generous storage beneath the bed. Symmetrical port and starboard guest staterooms offer twin full length berths with bedspreads, a bedside table with locker, large wardrobe lockers, a full length mirror, stainless portlights, and a flat screen TV in the starboard guest room. A private day head with shower sits just forward of the port side galley for convenient access. All cabins and the bridge deck are served by reverse cycle air conditioning and heat for year round comfort.

Galley

A spacious, full galley delivers abundant countertop space and every amenity, including a full size refrigerator and freezer, a three burner glass cooktop, a built in microwave oven, and ample drawers and cabinets for provisions and tableware. Stainless steel portlights above the sink bring in natural light and ventilation, while a central galley island artfully delineates the galley from the salon to keep cooking social and effortless.

Electronics

A new Garmin electronic package installed in 2017 equips the helm with confidence and clarity, comprising a Garmin 7610 XSV, a dual GT41M THP transducer, a Garmin GMR 24 XHD radar, a Garmin GPS Antenna 19x, and a Garmin GMI 20 Marine Instrument Display. Integration extends with a Raymarine ST8002 Seatalk autopilot control head and a FLIR Thermal Imagine night vision camera with M324XP controller. Entertainment is equally well considered with KVH TracVision satellite TV, a Bose home entertainment center, a large Sharp flat screen TV in the salon, flat screen TVs in the master stateroom and in the starboard guest stateroom, plus a 12V Clarion CD/FM/AM stereo with multi disc changer and Sirius satellite radio.

Electrical

Robust onboard power begins with 240 VAC shore power, delivered via two fifty amp shore power cables with Cablemaster auto coiling. Ship's systems run on both 24 VDC and 12 VDC, managed through panels with breakers, and supported by a Mastervolt converter/charger. For autonomous operation, an Onan 17 kW generator with sound shield provides quiet, reliable energy underway or at anchor.

Hull and deck

Designed for alfresco living, the deck plan features cockpit air conditioning and heat, plus an entertaining suite with grill, refrigerator, ice maker and sink. The hardtop with an electric retracting roof pairs with port and starboard opening windows to tailor the breeze, while abundant seating invites conversation. Port and starboard aft sunning lounges and a bow sunning lounge extend the relaxation, and a tender garage keeps the water toy choreography seamless. Practicality is equally assured with dedicated access to the engine room, teak decking underfoot, and underwater lights for evening ambiance. Ground tackle and close quarters control are first rate with a Lewmar electric windlass complete with anchor and rode and a Side Power bow thruster.
