OVERVIEW

The 2022 Prestige 520 Fly presents an elegant three cabin layout with an additional captain's berth and is driven by twin Volvo Penta IPS 650 units with 473 hours on the engines. Stability and onboard comfort are enhanced by a Seakeeper 9, while a comprehensive 2025/26 refit delivered a 3M metallic hull wrap, Starlink connectivity, ZipWake interceptors and new AGM battery banks. Offered fully turn key and maintained to exacting standards, the yacht has been meticulously serviced and prepared for immediate cruising. This vessel is available for co-brokerage, with the seller agreeing to pay a buyer's broker 3% of the final agreed contract price. Contact us to arrange a private viewing and discover the refinement and performance of this exceptional flybridge motor yacht.

DETAILED DESCRIPTION

Features

Equipped with Seakeeper stabilization and powered by twin IPS 650 propulsion, this yacht marries serene onboard comfort with capable, responsive performance; accommodation is equally impressive, featuring a full-beam master suite alongside dedicated skipper's quarters, while a custom 3M metallic hull wrap gives the vessel a distinctive and eye-catching presence. The craft has been meticulously maintained to the highest standard, reflecting exacting care and attention to detail.

Description

The 2022 Prestige 520 Flybridge, Emotional Rescue 9, is distinguished by an extraordinary regimen of upkeep and a series of high-end improvements that set her apart from other 520 Fly examples available. She wears a striking 3M White Aluminum Metallic hull wrap and features bespoke black paintwork on the radar and spotlight, while mechanical and comfort systems have been elevated with Seakeeper and ZipWake stabilization, SpotZero water treatment, ElectroSea corrosion control, and a custom-built vanity in the owner's suite. Her knowledgeable owners, true yachtsmen, have methodically upgraded every major system over the past eighteen months, resulting in a vessel that looks and performs at a level beyond her years.

The Prestige 520 Flybridge has earned acclaim across Europe for two defining qualities: outstanding sea-keeping and an interior appointed to rival much larger yachts. Emotional Rescue 9 delivers a composed, comfortable offshore ride and a refined three-stateroom arrangement, with the uncommon addition of skipper quarters, offering a level of accommodation and livability rare in this

class.

For those who demand both elegant styling and uncompromising substance in their cruising platform, Emotional Rescue 9 presents an impeccable choice; we believe she is the finest example of the Prestige 520 Fly available on the market today.

Listing highlights

Built in 2022, this yacht offers a versatile layout with three cabins and two heads, plus a dedicated skipper's cabin with its own head, crafted for comfortable extended cruising. Propulsion is provided by twin Volvo IPS 650 units delivering 480 hp apiece, while onboard seakeeping is enhanced by a Seakeeper 6 gyroscopic stabilizer and ZipWake E600 high-speed trim tabs to ensure composed, efficient passages. Shipboard systems include a Cummins Onan 13.5 kW generator and Chiller air conditioning, and a hydraulic swim platform with adjustable stainless steel chocks facilitates effortless tender handling and water access. Key dimensions list a 52' LOA, 14'7" beam, 3'5" draft, and a 345-gallon fuel capacity. A comprehensive 2025–2026 refit refreshed the yacht's appearance with new Awlgrip paint on the hardtop and a custom 3M White Aluminum Metallic hull wrap, protected with a ceramic coating.

Propulsion & handling

Driven by twin Volvo IPS 650 pod units with 473 recorded hours, the yacht marries economical performance with the precise, instinctive joystick control synonymous with contemporary pod systems. A professional, comprehensive mechanical service covering the engines, drives, generator and air conditioning was completed in June 2025, ensuring truly turn key reliability. Onboard stabilization is handled by a Seakeeper 6 gyro, markedly reducing roll both at

anchor and underway, while a newly fitted ZipWake E600 dynamic trim tab system sharpens running attitude and responsiveness at speed. For effortless low speed positioning in marinas and confined channels, a bow thruster provides fine, confident control.

Electronics & navigation

The helm is fitted with a contemporary Garmin navigation suite engineered for confident offshore use, centered on twin twelve-inch multifunction chartplotters at the interior helm and a corresponding pair on the flybridge, all fully integrated with autopilot and VHF. A forward-facing night-vision camera, a dedicated Garmin engine-room camera and radar extend situational awareness around the clock, delivering clear operational intelligence by day or night. Connectivity has been upgraded with Starlink satellite internet, installed in July 2025, providing high-speed coverage throughout the vessel and enabling uninterrupted streaming across all three onboard televisions. Practical refinements added during the refit include a Quick chain counter and a new horn.

Electrical & comfort systems

Every component of the onboard comfort and power suite has been carefully specified to deliver a refined experience in any climate. Electrical support is provided by a Cummins Onan 13.5 kW generator with 886 hours, while climate management relies on a 60,000 BTU chilled-water air-conditioning installation, protected by an ElectroSea system that inhibits marine growth in the A/C piping to maintain consistent cooling performance. Energy distribution is further smoothed by a 3600W inverter and a new bank of AGM batteries installed in November 2025, offering substantial reserve capacity and reliable changeover. Routine upkeep is simplified thanks to an ElectroSea AC strainer

cleaner and a SpotZero washdown system that keeps exterior finishes immaculate and reduces maintenance effort. For added liveaboard convenience during extended passages, a Splendide washer/dryer combo is thoughtfully positioned below the stairs to the forward cabins.

Galley, salon, interior helm and accommodations

Flooded with daylight through sweeping windows, the interior reveals an open-plan salon that feels airy and welcoming. The chef's galley is equipped with a Siemens three-zone induction cooktop, a Miele oven, a Danby dishwasher and Vitrifrigo refrigeration, while service is elevated with Villeroy & Bosch cutlery, glassware and dinnerware. Leisure is equally well appointed: a 32" Samsung retractable TV in the salon is complemented by a DVD player, and a three-zone JL/Fusion audio system—upgraded with three amplifiers, three subwoofers and high-performance speakers—delivers pristine sound to the salon, cockpit and flybridge. The full-beam master suite is located midships, reached via a private stair from the salon, and features a bespoke vanity and an ensuite head with exceptional comfort and headroom. Two forward guest cabins share the second head, and all three guest and owner staterooms are fitted with custom bedding. An additional skipper's cabin with its own head, accessed directly from the cockpit, brings the layout to four cabins and three heads in total. Everyday convenience is enhanced by an electrically adjustable dining table in the salon, and the interior helm offers convertible seating that faces forward for piloting or pivots aft to join guests; the helm itself is fitted with a Garmin navigation suite and a starboard-side door adjacent to the station simplifies docking operations.

Exterior, deck, and cockpit

The yacht's exterior is conceived for effortless entertaining, with premium

finishes and generous seating throughout. The flybridge elevates open air living with an exterior helm station complete with full electronics, Flexiteak 3 decking and an entertainment focused wet bar equipped with a grill, refrigerator and a high gloss varnished teak table. Below, the cockpit laid in natural teak becomes an expansive sociable area fitted with a brand new ice maker and a retractable sun awning, while also providing direct access to the skipper cabin. For confident close quarters handling a third joystick controller is installed to starboard in the aft cockpit to simplify docking. A hydraulic submersible swim platform with adjustable stainless steel chocks streamlines tender launching and retrieval, and the foredeck is arranged for relaxation with lounging cushions featuring adjustable backrests beneath a bespoke canvas awning mounted on a stainless steel frame for superior sun protection. The hull is protected by a 3M metallic wrap and ceramic coating, with bottom paint and zincs renewed in November 2025, and after dusk four underwater lights enhance the atmosphere and accentuate the yacht's sleek profile.

Safety & anchoring

The vessel's safety systems are contemporary and seamlessly integrated to instill confidence in both captain and crew, while the substantial ground tackle is anchored by a Lewmar windlass, 300 feet of galvanized chain and a stainless-steel Lewmar anchor. Onboard safety equipment includes a fully stocked first aid kit, carbon monoxide detectors, fire extinguishers and current flares. For added peace of mind on offshore runs, the yacht is delivered with an extensive inventory of spare parts, ideally suited to your next passage to the Bahamas.

Remarks

Emotional Rescue 9 is an exceptional find that pairs the Prestige 520 Fly platform with a comprehensive program of recent technical and aesthetic upgrades. Impeccable maintenance history is evident throughout, accentuated by a bespoke hull wrap and a sophisticated stabilization system, and with every element carefully refined this yacht is ready for immediate cruising while offering outstanding value compared with new builds or typical brokerage listings for the discerning next owner.

Specifications

Emotional Rescue 9 is a 2022 pre-owned power yacht with an overall length of 52 feet 10 inches (16.10 meters), a beam of 14 feet 7 inches and a maximum draft of 3 feet 5 inches. Built on a robust fiberglass hull and driven by diesel propulsion, she offers three cabins and two heads alongside a dedicated captain's quarters. Interior comfort is assured by full air conditioning, while seakeeping is improved through advanced stabilization, including an onboard SeaKeeper system—the Seakeeper 6—and bow thrusters give confident control in tight spaces. With a dry weight of 34,346, this imported vessel combines solid construction, efficient performance and refined cruising capability.

Engines

Propulsion is provided by twin Volvo Penta IPS 650 units, model year 2022, each mated to its own pod drive to deliver nimble handling and precise maneuverability. Each engine produces 480.00 hp (357.94 kW), combining assured acceleration with efficient cruising capabilities. Both engine one and engine two read 473.00 hours as of 06-01-2026.

Generators

This Cummins Onan installation supplies refined, dependable onboard electrical power, rated at 13.50 kW and displaying 886 hours on the meter, ensuring uninterrupted, consistent performance throughout every voyage.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
