OVERVIEW

Located in Ibiza, this 2022 Vanquish VQ52 is a bespoke, one-off luxury performance open yacht and express cruiser fitted with France Helios surface drives in lieu of the factory IPS pods, delivering a rare combination of efficiency, pace and a clean underwater profile. Offered in the uncommon full hardtop layout with an extended swim platform, she is EU VAT paid, flies the German flag and presents only 375 engine hours, having been in the hands of a single private owner since new and never chartered.

Propulsion is provided by twin Volvo Penta D13s (2 x 1000 hp), producing an effortless cruising range of 34–38 knots and a top speed approaching 46 knots, true to Vanquish's reputation for nimble handling and confident seakeeping. The specially engineered France Helios installation underwent extensive sea trials before delivery and was selected as a cleaner, lower-maintenance alternative to both IPS and traditional surface drives; with the majority of hydraulics located within the hull, underwater growth is significantly reduced, improving hydrodynamic efficiency and cutting haul-out frequency—an ideal solution for a high-performance Mediterranean dayboat.

Built in aluminium, this sleek sports cruiser combines a spacious aft cockpit with a foredeck sunpad sheltered beneath the full hardtop, creating a highly versatile open-class platform for Balearic day trips and short cruises.

Accommodation comprises two guest cabins and a single bathroom, while the day layout comfortably accommodates up to 12 guests, perfect for hopping between Ibiza beach clubs or enjoying relaxed passages around the islands. The yacht is turnkey in Ibiza, benefitting from convenient summer connections across Europe for immediate use.

Impeccably maintained since delivery, this unique VQ52 was conceived as a dedicated France Helios project rather than a standard IPS build and has benefitted from meticulous commissioning and fine-tuning. The present

orange hull can be professionally repainted in any single-color finish for approximately €50,000, giving the next owner the opportunity to personalise the yacht's appearance. The current berth at Marina Botafoch can be transferred to the buyer if required, providing an enviable Ibiza base for a high-end chase boat, superyacht tender or stand-alone open yacht.

When measured against vessels such as the Wajer 55 or 38S, Otam 58, Pardo 50 or GT52, Fjord 53 XL or 52 Open, Solaris Power 52 Open, Pershing 5X, VanDutch 56, Evo R6, Tesoro T50 or Magnum 50 Bestia, this Vanquish VQ52 stands apart through its aluminium construction, the rare full hardtop specification, its France Helios surface propulsion and the highly sought-after Ibiza berth. A comprehensive photo and video dossier is available on request.
