OVERVIEW

FELICITA pairs striking European lines with unapashed American muscle to deliver a singular luxury motor-yacht experience. Propelled by four Mercury Verado 600s, she offers precise, responsive handling via Mercury joystick control, complemented by a Seakeeper 6 gyro for stabilization and a Side-Power bow thruster for effortless close-quarters maneuvering.

Below deck, a refined two-cabin, one-head layout centers on a full-beam midship owner's suite, while a clever split shower and head arrangement maximizes privacy and functionality. The salon is appointed with natural oak soles, a U-shaped ultra-leather settee, a hi/lo dinette that converts to a berth, and a retractable sunroof that bathes the interior in natural light.

Deck life is designed for entertaining and relaxation, featuring a forward sun pad with bench seating, an aft sun pad with integrated stowage, twin hi/lo cockpit dining tables, and a hydraulic swim platform with boarding steps for easy water access. Distinctive finishing touches include Bentley Blue topsides, Sunbrella cushions, Flexiteek decking, and adjustable quad-bolster helm seats. Equipped for extended cruising, the DA 53 carries a Northern Lights 10 kW generator, a Mastervolt inverter, Webasto 30,000 BTU climate control, and a fully appointed galley with an induction cooktop and full-height refrigerator, all navigated with state-of-the-art Garmin electronics. The 2025 Dutch American DA 53 embodies a thoughtful balance of performance, sumptuous comfort, and progressive design throughout.

DETAILED DESCRIPTION

Key features & equipment

U.S. duty paid and built in Holland by Steeler Yachts, this yacht is fashioned from premium Dutch aluminum and reflects the refined craftsmanship of its renowned builder; for further information on the marque visit steeleryachts.com, the official Steeler Yachts site. Propulsion is delivered by four Mercury Verado outboards rated at 600 HP each, showing approximately 100 hours, and is complemented by Mercury Joystick Piloting along with the AutoDock System and the Skyhook Dynamic Positioning System, plus an automatic freshwater engine flush system for effortless maintenance. Reliability and owner peace of mind are supported by a Brunswick Passport Premier Extended Warranty through 2030, while onboard comfort and seakeeping are enhanced by a Seakeeper 6 gyro stabilizer with only approximately 14 hours and a Northern Lights generator with approximately 400 hours. Connectivity and situational awareness are elevated by the Starlink Maritime System and a SIONYX night vision camera, and onboard entertainment is delivered through a Fusion entertainment system paired with JL Audio speakers. Additional lifestyle features include an underwater lighting package with four lights, an electric sunroof, Isotherm refrigeration, and a hydraulic swim platform. Safety is addressed with a Fireboy SEA-FIRE FM200 fire suppression system, vessel certifications are available upon request, and bottom paint was completed in March 2026.
