## OVERVIEW

---

This 2024 PARDO 52 is a painstakingly specified example, fitted with an extensive array of upgrades, premium equipment, and the refined hallmarks of Italian design. Blending lively performance with lavish comfort, she offers generous al fresco lounging, a sleek contemporary interior and the capability for confident long-distance cruising, equally suited to glamorous day excursions or relaxed weekend escapes. The comprehensive package of extras meaningfully enhances onboard livability and practicality, setting her apart from standard-spec vessels and making her an especially attractive proposition on the current market. With elegant lines, a strong specification and a renowned performance pedigree, this premium luxury walkaround motor yacht and open express cruiser presents a turnkey opportunity for the discerning owner.

# DETAILED DESCRIPTION

---

## Detailed specifications

---

The hull is finished in a high-temperature, post-cured, non-metallic paint chosen from an elevated palette and may be accented with waterline stripes painted to the owner's selected color instead of the standard black, or seamlessly matched when the yacht is fully painted; the same premium, high-temperature, post-cured non-metallic paint graces the deck, while natural teak on the bathing platform and running deck provides tactile warmth and timeless elegance. Boarding is simplified by an electric retractable gangway and a superstructure painted in the owner's preferred tone, and an electrically operated opening sunroof with integrated sunshade brings abundant daylight into the interior at the touch of a button. The bathing platform incorporates an electric lift extension with an integrated ladder, accompanied by a second comfortable bathing ladder with handholds, and two retractable cleats on the platform make securing a dinghy or jet ski straightforward. Alfresco dining revolves around an electric telescopic table with additional cushions and reclining backrests, an ice maker is discreetly positioned beneath the aft seats and two refrigerators are built into the aft seat bench, while exterior upholstery in Eden is available in a curated selection of colors. Shade options include a forward sun awning with poles and an electric cockpit bimini for instant cover, and a Harken retractable mooring winch at the bow assists with precise mooring operations.

Inside, a dedicated skipper's cabin supports extended passages and the internal layout has been thoughtfully reimagined to offer a lower-deck galley in place of a lower lounge, two guest cabins for restful accommodation, and an expansive main-deck lounge ideal for refined entertaining. The main-deck interior floor is laid in treated natural teak and the joinery is finished in

contemporary grey oak, while the saloon benefits from fresh air and panoramic views through two sliding windows—one on the helm side and one on the sofa side. The galley is appointed with a two-burner induction Ceran stove at 220 V replacing the standard cooktop, together with a microwave, dishwasher and a wine cooler. Comfort and soft furnishings include a complete bed sheets kit—sheets, fitted sheets, pillow covers and blankets—and a sumptuous towel set, and designer-selected appointments elevate every surface from teak gratings and shower seats to grey technical marble sink tops, teak bathroom floors and leather-upholstered wall panels. Propulsion comes from twin Volvo IPS 800 units rated at 600 hp, protected by Racor pre-filters with water alarms, and handling is refined by the Volvo Interceptor System which provides auto trim, a single lever, cruise control, joystick drive and a low-speed mode for effortless maneuvering. A 19K gyroscopic stabilizer delivers superior comfort both underway and at rest, while the Volvo Dynamic Positioning System maintains the yacht's position with precision.

The electrical and utility package is engineered for autonomy and ease: an upgraded battery bank of two 140 Ah units is supported by an 80 Ah battery charger, backed by a 2500 W inverter and a Kohler 9 kW generator. Fresh water autonomy is assured by a 100 l/h water maker, courtesy LED lighting illuminates decks and walkways, underwater LED lights create a striking nocturnal presence and dimmable LED fixtures allow mood control throughout the interior. Climate systems comprise tropical air conditioning with both cold and hot modes, and smart domotics centrally manage lights and A/C. An electric searchlight specified for the Pardo Yachts 52 GT - 152 ensures confident illumination when required.

Navigation and entertainment are anchored by two Volvo Glass Cockpit multifunction 16-inch displays and a Garmin Fantom 18X 50 W 48 NM Radome Radar Antenna mounted on a support mast; the electronics suite is enhanced

with additional painting for the TV antenna, a Garmin VHF 315i, Garmin AIS 800 Rx/Tx, a radar array finished in sleek black and Volvo Autopilot. Satellite reception and entertainment are completed with two TV satellite antenna covers, a 24-inch Smart TV with antenna in the owner's cabin, a 50-inch Smart TV on an electric lift in the saloon, and a 24-inch Smart TV paired with a Fusion MS-SRX400 in the guest cabin, all configured for the Pardo Yachts 52 GT - 152. On-deck convenience features an electric anchor system equipped with a 20 kg Trefoil anchor and 50 m of chain with a dedicated camera feed displayed on the chartplotter, eight fenders with covers and mooring lines, a stainless steel aft side gate, a chain counter and an aft sitting area canopy, while a robust rub rail on the transom specified for the Pardo Yachts 52 GT - 152 adds durable protection.

Bespoke enhancements complete the specification: the Atsel finalized package introduces seven RGB lights for tailored ambiance, an aft-facing superstructure camera that can be viewed from the helm displays and the owner's cabin TV, an Ultra High Premium Sound System for concert-quality audio throughout the yacht, and two OceanLED Eyes HD underwater cameras to capture the world beneath the surface.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
