OVERVIEW

Presenting the 2024 Luxury Yacht: A Pinnacle of Style and Performance

Embark on a journey of maritime elegance with this magnificent 52-foot yacht, currently available for purchase in the United States. Crafted in 2023, this remarkable vessel exemplifies cutting-edge design and engineering prowess, promising an unmatched experience on the open sea.

Boasting a sleek and modern silhouette, this yacht is designed to captivate. Its hull, constructed from fiberglass and plastic, paired with a robust fiberglass deck, offers both durability and sophistication. The yacht's impressive 14-foot beam provides generous space for leisure and socializing, while the 12.303-foot draft ensures smooth sailing across diverse waters.

Equipped with twin MAN diesel engines, this yacht achieves an impressive cruising speed of 33 knots and can accelerate to an exhilarating top speed of 44 knots. Whether you're gliding along the shoreline or embarking on a high-speed escapade, this vessel delivers outstanding performance and fuel efficiency.

Inside, the yacht is a haven of luxury and comfort. The interior, while not attributed to a specific designer, radiates refined elegance. The spacious configuration includes a well-equipped head, offering convenience and privacy for you and your guests. With a water capacity of 106 gallons and a fuel capacity of 1057 gallons, this yacht is ready for extended journeys without compromise.

This yacht is more than just a vessel; it's a lifestyle choice. Whether you seek a peaceful retreat or an adventurous voyage, this yacht opens the door to unforgettable experiences. As part of the esteemed yacht sales in its current location, this is your chance to own a masterpiece of nautical craftsmanship. Seize the opportunity to acquire a yacht that epitomizes luxury, performance,

and style. Reach out to us today to explore this extraordinary yacht for sale and make it yours. Your dream of owning a world-class yacht starts here.

DETAILED DESCRIPTION

General

This yacht exemplifies the pinnacle of engineering and design, featuring a total length of 16.03 meters and a remarkable beam of 4.50 meters. Its streamlined silhouette is enhanced by a maximum draft of 1.15 meters below the propellers when fully loaded, ensuring a smooth and stable voyage. With an estimated displacement of 22,000 kilograms in its standard configuration, it provides a robust and dependable platform for all your nautical adventures. Fuel efficiency and range are standout attributes of this vessel, equipped with two aluminum fuel tanks, each with a capacity of 2,000 liters, enabling extended voyages. The yacht can achieve a top speed of 44 knots under standard test conditions, while a comfortable cruising speed of 33 knots allows for a range of 300 nautical miles. This impressive performance is driven by a maximum power output of 1,700 horsepower, delivered through surface drives and surface-piercing 5-blade propellers, ensuring both speed and agility. Designed to host up to 12 guests, the yacht is ideal for entertaining or family excursions. It complies with CE Design Category A standards, guaranteeing safety and reliability in diverse sea conditions. Onboard features include a fresh water tank with a 400-liter capacity, along with black and grey water tanks, each holding 100 liters and made from GRP for durability.

This vessel is not solely about performance; it also prioritizes comfort and convenience. The yacht is outfitted with safety equipment that meets CE standards, offering peace of mind for everyone on board. Whether you're navigating at high speeds or enjoying a relaxed day on the water, this yacht delivers an unmatched experience, blending technical prowess with luxurious comfort.

Construction material

The yacht's build exemplifies cutting-edge engineering and precise craftsmanship. The hull is formed using a female mould, integrating traditional skin-coat lamination on gelcoat with a vacuum process. This method employs vinyl-ester resin and a PVC-cored sandwich, resulting in a strong and resilient structure. The superstructure follows the same construction approach, ensuring a unified and harmonious design across the vessel.

The bulkheads are crafted with a structural sandwich laminated through the vacuum technique, which enhances the yacht's strength and stability. Complementing the yacht's sleek and contemporary design, the roll bar and hard top are constructed from carbon fibre, utilizing the vacuum technique and PVC-cored sandwich. This selection of materials not only contributes to the yacht's lightweight and aerodynamic form but also guarantees outstanding durability and performance on the water.

Coating

The yacht's coating is carefully crafted to boost both its performance and visual appeal. The hull's underside receives a dual layer of antifouling, specially designed for high-speed travel, along with an anti-osmosis treatment to guarantee enduring protection and efficiency. The topsides and superstructure are completed with a full Axalta/Awlcraft cycle, using epoxy to achieve a durable and sleek finish. This not only gives a glossy appearance but also provides robust resistance to environmental factors.

The deck is constructed with a blend of teak and anti-slip materials, ensuring both elegance and safety underfoot. The topsides and superstructure are adorned with the 'Lucido Diretto' finish, adding a layer of sophistication and shine. Furthermore, the bilges are painted white, enhancing the yacht's clean and polished aesthetic. This thorough coating strategy ensures that the yacht

not only delivers outstanding performance but also captivates with its striking appearance.

General arrangement

The yacht's interior is meticulously crafted to offer both comfort and opulence to its guests. The owner's cabin serves as a private sanctuary, equipped with a generous double bed that ensures peaceful nights on the water. Next to the owner's cabin, the guest cabin features a single bed, creating a welcoming space for additional visitors. This area is seamlessly integrated with a galley, making it easy and convenient to cater to culinary desires.

Additionally, the yacht boasts a well-equipped head, complete with a toilet, washbasin, and shower, providing all the necessary amenities for a pleasant stay on board. The interior is further elevated by lacquered cupboards and bulkheads, which infuse the living areas with elegance and sophistication. This careful attention to detail in the overall layout guarantees that each voyage is as delightful as it is luxurious.

Systems

The yacht boasts cutting-edge systems designed to enhance its functionality and provide a seamless maritime experience. The generator's exhaust system is equipped with a gas/water separation muffler, effectively managing emissions and reducing noise levels. For waste management, the yacht features a pump-out connection on deck and outboard for black water, with an outboard-only option for gray water, ensuring eco-friendly disposal.

The electrical systems are meticulously detailed, with wiring, terminations, electrical panels, and earth leak protection all adhering to Rina CE certification standards, ensuring safety and reliability in all electrical operations. Similarly, the pipework, valves, and manifolds are specified to meet Rina CE certification,

guaranteeing top-tier safety and performance.

Additionally, the yacht is fitted with Boeing ship automation, offering advanced control and monitoring of various onboard systems. Shore power is supported with a voltage range of 215V to 235V and a maximum current of 50 Amp, allowing for easy connection to shore facilities for power requirements. These sophisticated systems collectively ensure that the yacht operates smoothly and efficiently, providing peace of mind and comfort to everyone on board.

Exteriors

The yacht's exterior seamlessly combines elegance with practicality, showcasing dark tempered glass windshields and skylights that offer both aesthetic appeal and protection from the elements. The windshield is constructed from carbon fibre with a striking Super Jet Black finish, imparting a modern and sophisticated look. An exterior wet bar with a Corian countertop provides an ideal spot for entertaining, while the teak decking with black caulking elevates the yacht's luxurious ambiance.

High-quality upholstery options, such as Spradling leatherette or Sunbrella fabric, guarantee comfort and resilience in any weather. Courtesy lighting, adjustable from 2,000K to 3,500K, creates a warm and welcoming atmosphere in the exterior areas. Custom AISI 316 gas springs are integrated throughout, ensuring dependable support and smooth operation of various components. The fore tables boast a teak center finish and are fitted with an electric base, combining style with convenience. Distinctive design features like the CNM dragon on the windshield and the CNM wordmark on the stern give the yacht a unique character, ensuring it stands out in any marina. This meticulous attention to detail in the exterior design ensures the yacht is not only visually captivating but also highly functional and comfortable for everyone on board.

Interiors

The yacht's interiors are a testament to luxury and refinement, highlighted by the exquisite Loro Piana® Passepartout package that infuses elegance throughout. The bulkheads and cupboards are finished in solid RAL lacquer with a satin sheen, offering a sleek and contemporary aesthetic. Enhancing this, the Besana premium carpeting in Silk 18 adds a layer of opulence underfoot.

In the master stateroom, the ceiling is adorned with Dolce leatherette, creating a cozy and inviting atmosphere. The guest stateroom and head feature ceilings finished in solid RAL lacquer with a satin finish, maintaining a cohesive and polished look. The head is a display of premium materials, with floors and tops crafted from Burmese teak, renowned for its durability and beauty. The bespoke fittings and faucets add a unique and personalized touch to the space.

The Tecma ELEGANCE toilet further elevates the sense of luxury, while LED lighting adjustable from 2,000K to 3,500K allows for a customizable ambiance to match any mood. Every aspect of the yacht's interior has been meticulously designed to ensure a seamless blend of style, comfort, and functionality, making every moment on board a truly remarkable experience.

Entertainment

The yacht's entertainment system is crafted to deliver an outstanding audio-visual experience, ensuring every moment on board is filled with pleasure and relaxation. Central to this setup is a 32" LED/LCD TV, providing sharp and clear images for all your favorite shows and films. Enhancing the visual experience is the Fusion Apollo RA770 receiver, acting as the main hub for audio entertainment, delivering premium sound throughout the yacht.

The audio system is further elevated by three JL Audio MMR-20-BE remotes,

allowing easy control of the sound system from various points on the yacht. With ten JL Audio M880 loudspeakers available in black or white, the yacht guarantees a powerful and immersive sound experience. These speakers are driven by four JL Audio MHD600/4-24V amplifiers, ensuring robust and dynamic audio performance.

Moreover, the yacht includes two Bowers & Wilkins® AM-1 loudspeakers, known for their exceptional sound quality and durability, suitable for both indoor and outdoor environments. This comprehensive entertainment system ensures that whether you're hosting a vibrant gathering or enjoying a peaceful evening, the yacht provides the ideal soundtrack for your maritime adventures.

Appliances

The yacht features a carefully crafted exterior refrigerator with a 60-liter capacity. This appliance is ideal for keeping drinks and snacks cool and readily available while you enjoy the yacht's outdoor areas. Whether you're entertaining guests on the deck or lounging in the sun, the exterior fridge ensures that refreshments are always at hand, enhancing the overall comfort and convenience of your onboard experience.

Electronics

The yacht is equipped with a cutting-edge electronics suite, ensuring seamless and reliable navigation and communication. At the heart of this system is the GARMIN multi-function display, offering comprehensive data and control at your fingertips. The GARMIN GPS receiver guarantees precise positioning and navigation, while the GARMIN marine VHF radio telephone ensures clear and reliable communication at sea.

To enhance navigational capabilities, the yacht includes a GARMIN navpilot integrated into the Böning panels, providing intuitive control and monitoring.

The GARMIN transducer and integrated heading sensor further refine the yacht's navigational accuracy, delivering precise depth and directional information.

Moreover, the yacht features a custom helm panels package from Böning, which unifies all these advanced systems into a cohesive and user-friendly interface. This sophisticated electronics package ensures that every voyage is undertaken with the utmost confidence and ease, allowing you to fully enjoy your time on the water.

Technical equipment / machinery

The yacht is driven by two powerful MAN I6 – 850 engines, guaranteeing outstanding performance and reliability on the water. These engines are matched with ZF 400A gears, featuring a trolling valve for precise maneuverability and control. Supporting the propulsion system is the Kohler 7EFKOZD generator, delivering dependable power to all onboard systems.

To ensure a comfortable atmosphere, the yacht is fitted with a Frigomar air conditioning system rated at 18,000 BTU, providing optimal climate control in any condition. Fuel filtration is managed by the RACOR 1000 MA, ensuring clean and efficient engine performance.

The yacht's propulsion is further enhanced by the Arneson by Twin Disc ASD 11 system, paired with Rolla 5 blade surface-piercing propellers, offering superior speed and efficiency. The BCS MAN ASD11 system adds extra control and stability, while the Rule 2000 bilge pump ensures safety by effectively managing water levels.

For navigation and safety, the yacht is equipped with Lopolight LED running lights that comply with COLREG standards, ensuring visibility and adherence to international maritime regulations. This comprehensive array of technical equipment and machinery ensures the yacht operates smoothly and

efficiently, providing peace of mind and an exceptional experience on the water.

Hydraulic systems and pumps

The yacht features an advanced collection of hydraulic systems and pumps, guaranteeing efficient operation and reliability in all functions. Central to this setup is the Gianneschi ECOJET 2B 24V, capable of delivering up to 3.5 bar of pressure, or a comparable model, ensuring strong performance for various hydraulic requirements. Complementing this is the Whale GULPER TOILET PUMP 24V, renowned for its dependability and efficiency, ensuring the yacht's sanitation systems run smoothly.

The Rule A MATIC SWITCH, with its 35-degree activation angle, provides precise control and automation, enhancing the yacht's overall system functionality. Additionally, the Whale UNIVERSAL UF1825 pump is included, offering versatile and reliable service for a variety of applications.

Further boosting the yacht's hydraulic capabilities is the Gianneschi MP/C801779 or a similar model, which guarantees consistent and powerful performance. The Rule 2000 pump is also part of the system, known for its durability and efficiency in managing water levels. This comprehensive array of hydraulic systems and pumps ensures the yacht operates smoothly and efficiently, providing peace of mind and an exceptional experience on the water.

Electrical system

The yacht's electrical system is carefully crafted to ensure dependable power management and distribution throughout all onboard systems. At the core of this setup is the Victron SKYLLA 24V / 100A service battery charger, which effectively charges the service batteries, keeping all essential systems running

smoothly. Complementing this is the Victron BLUE SMART 12V / 15A generator battery charger, dedicated to maintaining the generator's battery at peak performance.

For the engine batteries, the yacht is fitted with a Victron SKYLLA 24V / 30A charger, providing consistent and reliable charging to ensure the engines are always ready for action. The battery array consists of eight Nautik 12V 140 Ah dual terminal service batteries, four Nautik 12V 120 Ah dual terminal engine batteries, and one Nautik 12V 80 Ah dual terminal generator battery. This comprehensive battery configuration ensures that all power requirements are efficiently met, supporting both the yacht's operational and comfort systems. This robust electrical system ensures that the yacht can meet the demands of long journeys, offering peace of mind and allowing you to focus on enjoying your time on the water.

Mooring and anchoring

The yacht's mooring and anchoring systems are meticulously crafted to ensure secure and dependable performance across diverse marine settings. Central to this system is the Trefoil AISI 316L anchor, weighing 30 kilograms, which delivers outstanding holding strength and longevity. This sturdy anchor is paired with a stainless steel chain, 10 mm in caliber and 75 meters long, guaranteeing a robust and reliable connection to the ocean floor.

To keep the chain clean and functional, the yacht is fitted with a chain wash system, which prevents debris buildup and ensures smooth operation. The Lofrans PROJECT 1500 windlass offers powerful and efficient management of the anchor and chain, making anchoring operations both effortless and precise.

Additionally, the yacht is equipped with stainless steel cleats and fairleads, providing strength and corrosion resistance. These components are crucial for

secure mooring, offering reliable attachment points for lines and ensuring the yacht remains safely anchored. This comprehensive mooring and anchoring arrangement provides peace of mind, allowing you to enjoy your time on the water with confidence.

Safety equipment

The yacht is outfitted with an extensive range of safety equipment, ensuring top-tier security and peace of mind for everyone on board. Portable fire extinguishers, adhering to 0029 MED 96/98/EC standards, are strategically positioned throughout the vessel, ready to address any fire emergencies. The Firecom Mare 15 system further bolsters fire safety with its advanced detection and response capabilities.

In case of an emergency at sea, the yacht is equipped with liferafts that comply with ISO96500CE standards, providing reliable and secure evacuation options. Lifebuoys and lifejackets, meeting ISO12401CE standards, are readily accessible to ensure the safety of all passengers and crew. A CE-certified flares kit is also available, offering essential signaling capabilities in distress situations.

The yacht's safety features include a CE-certified first aid kit, ensuring medical supplies are available for any minor injuries or health issues. Additionally, manually activated fuel shutoffs are installed, allowing for swift and effective response in the event of a fuel-related incident. This comprehensive safety equipment setup ensures the yacht is well-prepared for any situation, allowing you to enjoy your time on the water with confidence and security.

Accessories

The yacht is meticulously outfitted with a range of accessories crafted to boost convenience and functionality on board. A boat hook is provided, serving as a

practical aid for docking and maneuvering, ensuring that handling the yacht is both safe and efficient. Additionally, a USB port is strategically placed at the helm, facilitating easy charging of devices and ensuring that essential electronics remain powered throughout your journey. These accessories are thoughtfully selected to complement the yacht's overall design, enhancing the onboard experience and ensuring that every voyage is as enjoyable and seamless as possible.

Awnings

The yacht features premium soft enclosures at the front and sides, made from Sunbrella Plus fabric. These enclosures are crafted to offer superior protection against the elements while maintaining a chic and elegant look. Sunbrella Plus is celebrated for its durability and resistance to severe weather, ensuring that the enclosures stay in immaculate condition over time. This considerate addition not only boosts the comfort and functionality of the yacht's outdoor areas but also enhances its overall aesthetic, making each voyage both pleasurable and visually captivating.

Options

The yacht presents a wide array of options, allowing for a highly customized and luxurious experience tailored to the owner's desires. Regarding general layout, the inclusion of a crew cabin offers additional space and convenience for longer journeys. Coating choices feature special order colors and metallic finishes, along with bespoke color matching, ensuring the yacht's exterior is as distinctive as its owner. Painted loudspeakers and instruments in Super Jet Black further elevate the yacht's sophisticated look.

For the exteriors, a carbon fiber hard top with navigational awnings and a soft helm enclosure combines style with functionality. Automated side balconies

and an engine room hatch enhance the yacht's modern amenities, while the Opacmare transformer platform package in black and teak decking with white caulking add a touch of elegance. The interiors can be personalized with Loro Piana® Summer Interiors in cotton and linen, natural wood veneers with a satin finish, and Loro Piana® Southbury 100% llama wool carpeting, creating a warm and inviting ambiance.

Lighting design options include LED underwater lighting, exterior courtesy lighting, and an interior light design package, ensuring the yacht is beautifully illuminated. Entertainment choices are plentiful, with additional JL Audio M-Series subwoofers, Apple® Apple TV 4th Generation, Bang & Olufsen® BeoVox 2.1 loudspeakers, and a Wi-Fi access point with dual sim 4G technology, offering endless entertainment possibilities.

Appliance options feature an extra refrigerator and cooktop, enhancing the onboard culinary experience. The electronics package includes a Garmin Radar 4 kW 36 nm, Garmin FA50 Class B AIS transponder, additional VHF antenna, Böning backup DPU, redundant steering indicator, and a redundant fuel monitoring system, ensuring cutting-edge navigation and safety.

Technical equipment and machinery options include the powerful MAN i6-850 engines with Twin Disc MGX and QuickShift, Humphree X750 with Automatic List Function, Side-Power SE 120/215 TC stern thruster, and a dynamic positioning module, all contributing to superior performance and handling. The yacht also offers premium awnings with carbon fiber supports, a carbon fiber swim ladder, and a Boffi® hand-held premium shower, enhancing the luxurious experience.

Bespoke options such as metallic or pearl lacquered interiors and an export package with USA-specific features like a Kohler 60Hz auxiliary generator and Dometic Microchiller 30 ensure the yacht meets international standards and personal preferences. Finally, the factory collection service provides a seamless and personalized delivery experience, making acquiring this yacht as enjoyable

as owning it.

Description

Pura Vida marks the latest advancement in CNM's renowned 54 Super-sport series of luxury open yachts. With over 60 hulls delivered since the series began, the builder has perfected the design and performance of this model. The craftsmanship on Pura Vida is unmatched in its class, featuring finishes and interiors by Loro Piana, celebrated for their elegance and sophistication. The yacht boasts significant technological innovations, including joystick controls for easy maneuvering, a new ultra-smooth transmission for seamless cruising, and a carbon fiber hardtop that combines style with functionality. The transformer swim platform enhances the yacht's adaptability, while the latest 850HP MAN engines deliver powerful and efficient performance.

For those interested in acquiring a virtually new yacht without the wait, Pura Vida offers fully transferable warranties, providing peace of mind and a smooth transition into ownership. This yacht is truly a turnkey solution for those seeking the ultimate in luxury and performance on the water.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
