# DETAILED DESCRIPTION

---

## Overview

---

The 17 m (55' 9") Sacs Rebel 55, delivered in 2024, stands as the flagship of the Rebel line, a boat conceived by Christian Grande to marry sporty elegance with genuine versatility. Twin 725 hp Volvo Penta IPS engines propel her to a top speed of 38 knots while the deep V hull provides reassuring longitudinal stability and notable fuel efficiency, making both short day runs and longer passages comfortable and economical. Life aboard is organized around an expansive open air cockpit with a central galley bar, multiple sunpads, broad walk around decks and opening side balconies that transform the hull sides into seamless, secure social terraces at anchor. Below decks, two ensuite double staterooms reveal premium finishes and a thoughtful spatial plan that reads as genuine luxury whether cruising for the day or staying aboard for extended periods. Presented in excellent, turn key condition, this Rebel 55 benefits from upgraded engines for livelier performance and optimized consumption, opening balcony sections that add valuable waterfront real estate when at rest, and reversible air conditioning to ensure comfortable, year round enjoyment.

## Deck / hull features

---

Collision resistant D Shape foam filled tubes encircle the hull to provide reassuring protection against impacts while six mooring cleats—two forward, two midships and two aft—simplify any docking scenario. Ground tackle is handled effortlessly by an electric windlass with dual controls at both the dashboard and the bow, driving a polished stainless steel Ultra Marine anchor of 21 kg on a 100 m stainless steel chain of Ø 12 mm. The bow area is appointed with a retractable shower with hot and cold mixer, a forward

sunpad with handrail and a three seat sofa, and secure side passages with stainless steel handrails that elevate both comfort and safety. Aft, the bathing platform in solid teak supplies a warm, natural footing and a refined finish that complements the yacht's sporty, elegant lines.

## Helm / dashboard

---

Command is intuitive at a helm crowned by a compass and a black, anti reflective plexiglass dashboard, centered on an Isotta steering wheel paired with a Volvo Penta joystick and a Volvo Glass Cockpit 7" engine control display for crisp engine readouts and responsive maneuvering. A digital service management system with anti vandal switches streamlines onboard oversight while Lopolight navigation lights, dedicated red navigation lights for safe night sailing and a pneumatic horn enhance situational awareness. Everyday practicality is integrated with a USB socket, a document holder with integrated cup holder and a protective sunshade over the dashboard, and ergonomics are maximized by four pilot seats arranged two plus two to support helmsman and guests alike.

## Cockpit

---

The cockpit is the yacht's social heart, centered on a bar module with sink, Corian countertop, cabinet and drawer, complemented by a 90 L stainless steel drawer, dedicated cutlery storage and a discreet trash compartment that together make preparing and serving effortless. Overhead spotlights wash the bar in warm, inviting light while a double folding teak table serves twin facing sofas that hide generous stowage and afford access to the technical room below. Aft, a sunpad with integrated headrest invites relaxation, and retractable stainless steel access gates secure the space under way. Practicality continues with a hydraulically opening garage, two retractable stainless steel

showers with hot and cold mixers, and a retractable stainless steel swim ladder with teak steps to facilitate water access and tender handling.

## Dinette / galley

---

At the heart of the lower lounge the main electrical control panel neatly governs all 12 V and 24 V services, providing centralized command for comfort and systems, while a four seat L shaped sofa creates a relaxed dinette opposite a compact bar area with a dedicated recess for a coffee machine and a tray, forming an intimate and functional social space below deck.

## Owner's stateroom

---

The owner's haven centers on a Super Queen double bed fitted with a 15 cm memory foam mattress, flanked by bedside tables with articulated leather trimmed LED reading lights and USB ports for modern convenience. Storage is abundant with two wardrobes equipped with hangers and shelves plus three door wardrobes on each side of the bed, supplemented by a mirrored wall and a vanity unit with shelf and storage pockets. Opening windows with sliding curtains invite natural light and fresh air, composing a private, indulgent retreat that balances refinement with everyday functionality.

## Bathroom with private access

---

The private owner's bathroom serves with an electric WC featuring a waste level indicator, a cabinet with a lacquered countertop and a Vetro Freddo sink with mixer beneath a mirror, while a separate shower box fitted with a teak seat, a height adjustable mixer and a generous rain showerhead provides a spa like experience in a compact footprint.

## Guest stateroom (forward)

---

Forward, the guest stateroom offers a Super Queen double bed with a 15 cm memory foam mattress and padded lining, bedside tables with articulated leather trimmed LED reading lights and USB ports, and a wardrobe with hangers and shelves to keep belongings organized. Additional storage units on each side of the bed with tilt doors and a large front drawer beneath the berth maintain order, while fixed side windows with sliding curtains and a central hatch fill the cabin with daylight and ventilation. The private guest bathroom provides a separate shower area, sink, electric WC and a shower enhanced by chromotherapy for an elevated onboard bathing experience.

## Electrical system

---

The yacht's robust electrical architecture features electronic battery switches and twenty four AGM 104 Ah batteries allocated as eight for engines, eight for services and eight for systems, supported by two 50 Ah electronic/automatic battery chargers to ensure reliable charging and distribution. A 220 V system with Schuko outlets serves all staterooms, USB sockets are distributed throughout the yacht and at the dashboard for device charging, and shore power arrives via a 63 A cable to keep systems fully energized while in port.

## Hydraulic system / water

---

Freshwater needs are supplied by a 400 L stainless steel tank and an 80 L water heater with dual circuit heating, which feed a dual pump autoclave system with a compensation tank to maintain steady pressure and reliable delivery. Waste management is handled by a dedicated system comprising a 200 L holding tank, an electric grinder and a suction cap, complemented by a grey water collection tank with a Y valve that allows direct discharge or

routing to the holding tank as required.

## Fuel system

---

Range and reliability are delivered by two compensated stainless steel fuel tanks with fillers to port and starboard, working through a Volvo dual filter kit with water separator and an integrated alarm system to provide clean fuel feed and protection against contamination.

## Safety

---

Safety is integral to the design with three automatic electric bilge pumps with alarm backed by three high capacity manual bilge pumps for emergencies, all supported by a Pyroff fire fighting system offering both manual and automatic activation to deliver rapid response in the unlikely event of fire.

## Options / packs

---

A comprehensive options program allows the Rebel 55 to be tailored for style, cruising capability, electronics, visibility and power. The Style Pack dresses hull and deck in a grey gelcoat in RAL7035 instead of white, with custom paint on the console and Hard Top, bespoke floats and upholstery in a fabric of your choosing, while the cockpit and platform receive solid grey stained teak and the cabins natural teak flooring for a warm, coordinated aesthetic. The Cruise Pack adds precise low speed control with a bow thruster, an aft sunshade with carbon supports, a 24 V / 220 V converter rated at 2500 Watt and an external Bluetooth stereo system Fusion APOLLO with JL Audio M3 speakers and a subwoofer for onboard entertainment. The Electronics Pack brings triple Raymarine Glass Bridge 16 units, Murphelp Donneonardi integration, the DOMOTICS Yachtsense control package and VHF to keep you fully connected

and in command. The Visibility Pack upgrades LED navigation lights with adjustable intensity across deck, cockpit and cabin, adds an LED light strip on the Hard Top, underwater lights at the stern, dual windshield wipers with washer, a surveillance camera in the anchor locker and a remote control for the windlass with chain counter. The Power Pack comprises an Onan 9.5 kW diesel generator with its battery, reversible air conditioning delivering cold and heat across three independent zones at 26,000 BTU and a four burner induction cooktop. The Volvo Drive Pack includes an interceptor system with automatic trim, Digital DPS anchor and an autopilot for refined handling. Additional bespoke items include a Hard Top structure with tempered glass windshield and an electric sunshade integrated into the Hard Top; a double sun lounger with headrest and handrail at the bow in place of the sofa; tilt opening side windows; 1000 W stern windlasses; a JL Audio M6 RGB upgrade in the cockpit with ten speakers, two subwoofers and three amplifiers; a 50" TV in the salon with a digital antenna; a 32" TV in the owner's stateroom with swivel mount and digital antenna; an electrically adjustable pilot seat for height; a second 90 L refrigerator in the cockpit; a Miele combi oven; an ice maker; a "Cable Master" dock cable retraction system; a hydraulic tender lift platform with integrated swim ladder and optional dinghy towing rails; a retractable hydraulic gangway by Besenzoni; and a full set of protective covers for fore and aft sun pads, the galley and the pilot seat. The yacht is delivered with onboard equipment that includes six fenders with fender covers, four boots and a fifty five piece Beta toolbox, along with survival equipment for voyages up to 50 miles in accordance with Italian standards, and antifouling already applied.

## Tender

---

A Williams tender from 2017 completes the package, providing effortless shore transfers and flexible waterside mobility that matches the Rebel 55's blend of

performance and leisure.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
