# OVERVIEW

---

## CURRENTLY LYING IN TRINIDAD & TOBAGO

The Fairline Squadron 55 is a distinguished Flybridge Motor Yacht, celebrated for its composed seakeeping, generous internal volume and an elegantly sociable deck arrangement. A true luxury cruiser and high end powerboat, she fuses performance, comfort and refined style into a single, compelling vessel.

KAMATS is a one owner example maintained without regard to cost and presents with low engine hours — approximately 700 on the reliable Volvo Penta D12s — and receives ongoing updates as required. Designed for effortless maneuvering, she is fitted with both bow and stern thrusters and a Yacht Controller system for precise, single handed docking. Electrical and hotel systems are supported by an Onan generator showing around 2,100 hours. Professionally managed and routinely serviced, KAMATS embodies the best qualities of a family cruiser and a touring sport yacht.

### Accommodation

Midships master suite with double berth, en suite bathroom and a dedicated television

Forward VIP cabin with double berth and en suite access that also serves as a day head

Starboard guest cabin with twin single berths and day head access

Aft crew cabin with a single berth

Digital safe located in the master cabin

Tropical chilled water air conditioning throughout the yacht

Washer and dryer onboard

Carpet overlays across the interior living spaces

Extendable salon and dinette tables for adaptable entertaining

Dimmable interior lighting for atmospheric control

A full time crew cares for KAMATS under strict service schedules, delivering regular cleaning, detailing, polishing and ceramic coating. Raw water circuits, machinery spaces and bilges are kept in meticulous condition. Turnkey and ready for bluewater cruising, she offers immediate capability for extended passages.

# DETAILED DESCRIPTION

---

## Audio visual equipment

---

Entertainment and clarity envelop the yacht from the moment you step aboard: a Bang & Olufsen music system enriches the salon while a forty-inch LCD TV rises effortlessly on a power lift to create a private cinema, and in the forward and starboard cabins fifteen-inch LCD TVs pair with DVD/CD players and BOSE docking systems to bring personalized content to every retreat. Seamless TV input from the shore supply keeps dockside channels at your fingertips and a network of speakers carries rich, room-filling sound through the salon, cockpit, and flybridge to set the perfect mood throughout. Beyond the soundtrack, daily living is elevated by a comprehensively equipped galley featuring a four ring induction hob and stove, two refrigerators, a microwave/grill combination oven, an extractor fan, twin sinks with a hot and cold mixer tap, a dishwasher, and a central vacuum system that makes upkeep effortless. For confident passage-making, the navigation suite is meticulously specified with high speed magnetic compasses and helm position indicators at both helms, twin Raymarine E120 multi function displays delivering plotter, GPS and radar at each station, Raymarine ST60+ Tridata for precise depth, speed and log, and a Raymarine ST6002 autopilot mirrored at both helms. Manoeuvring is assured with bow and stern thrusters, while a Raymarine 240E VHF with DSC ensures crisp communications; cameras in the engine room and cockpit add situational awareness, trim tabs with indicators refine the ride, a powerful searchlight penetrates the dark, a full set of IMO navigation lights broadcasts your intentions, and a FLIR night vision camera turns night into day.

## Deck equipment

---

On deck, every detail serves both pleasure and purpose: twin new battery chargers keep onboard systems poised while a hot and cold transom shower refreshes after a swim and a freshwater maker delivers independence at anchor, complemented by an upgraded Rocna anchor teamed with a power anchor winch and windlass for steadfast holding and a galvanized anchor and chain built for endurance. Shade and shelter come courtesy of a flybridge bimini, an aft cockpit cover, and a protective helm cover, while teak laid cockpit flooring and side decks add warmth underfoot and teak steps lead gracefully to the flybridge where the table converts into a sunbed for languid afternoons. Practical conveniences include a freshwater deck wash, a flybridge wet bar with sink, griddle, fridge, and icemaker, and chocks and tie down points on the bathing platform for toys and tenders, while blue LED mood lighting washes the exterior and side decks and blue LED underwater lights lend a dramatic glow at night; a side access door to the lower helm simplifies docking and a dedicated dinghy davit streamlines tender launch and retrieval. Thoughtful upgrades further elevate capability and reliability: twin new battery chargers are complemented by both chill water compressors replaced with new units, ten new batteries, and all air handlers renewed, bridge electronics refreshed with all screens replaced by new LED displays, newly fitted teak steps to the bridge and teak side steps, and brand new trim tabs to sharpen running attitude. Redundancy is built in with backup freshwater pumps and robust connectivity via a Wi-Fi extender, engineering resilience continues with dual Racor fuel filters for each engine and dual centrifuge fuel polishers for pristine fuel delivery, and for audiophiles six new JL Audio speakers paired with two subwoofers bring concert grade sound to the open air.
