OVERVIEW

The sole VQ55 offered anywhere in the world

On display at the Palm Beach International Boat Show 2026 (March 25–29)

Named HIGH ENERGY, this 2024 Vanquish VQ55 is a Netherlands-built luxury sport yacht, created with exacting workmanship and bespoke interior and exterior finishes. Conceived for experienced owners who prioritize superior seakeeping and structural integrity, this open motor yacht and express cruiser delivers a firmly planted yet nimble ride, maintaining laser-straight tracking and a composed, confident demeanor as conditions shift. Equally at home as an elite dayboat, a high-performance chase boat, or a refined performance tender, it marries exhilarating capability with understated elegance.

DETAILED DESCRIPTION

Description

The only VQ55 available on the global market, HIGH ENERGY will be displayed at the Palm Beach International Boat Show 2026 (March 25–29), presenting a rare opportunity to acquire a virtually new 2024 Vanquish VQ55 crafted in the Netherlands with uncompromising attention to detail. Conceived for experienced owners who prize ride quality and structural integrity, this pedigree performance yacht delivers a solid, responsive feel with superb tracking and poise across a range of sea states. The vacuum engineered hull and deck strike a finely judged balance between strength and weight, translating into confident handling, efficient cruising, and emphatic top end performance. A purpose built helm with clear sightlines and intuitive controls anchors a deck plan that prioritizes safe, practical flow and secure footing, while seamlessly integrating generous social zones without sacrificing functionality. Below deck, the fit and finish embrace a clean, modern European aesthetic executed in durable, contemporary materials suited to effortless overnights. Turn key and in extraordinary condition, HIGH ENERGY arrives fully dialed: twin 1,200 hp Nanni diesels paired to MJP water jets, a Seakeeper 9 gyro, a Porsche Slate Gray hull complemented by Skylight cushions, FLIR night vision, three 22 inch Garmin multifunction displays, dual Starlink internet, a water mist cooling system, and a professional Hoshizaki icemaker. A full bottom job, compound and wax, and comprehensive jet service have just been completed for peace of mind. Trades are welcomed, and in house financing is available.

Instruments & electrical systems

At the glass bridge helm, 3 flush mounted 22 inch Garmin GPSMap 8419

displays are integrated with a Garmin smart control system, complemented by a Garmin GMR18 radar and an additional Garmin radar for enhanced situational awareness. Power steering teams with a bow thruster for precise low speed maneuvering, while a 24V electrical architecture is supported by a Northern Lights 16 kW generator to keep all onboard systems humming. Climate control is assured by Dometic Cruise Air air conditioning with 2 × 12,000 BTU units. Entertainment arrives via a Fusion stereo system with iPad/iPhone connectivity and a subwoofer, and night into day confidence is boosted by an LED searchlight and a daylight camera. Hot water needs are covered by a 12 US gallon boiler, ensuring comfort at anchor and underway alike.

Hull & deck

A vacuum infused hybrid carbon fiber and fiberglass hull underpins the VQ55's athleticism, crowned by a carbon fiber T top and finished in an AWLGRIP superyacht paint system for enduring gloss and protection. The Flexiteek self draining deck and full walkaround promote secure movement, aided by 8 pop up cleats and 2 side boarding doors for effortless docking and embarkation. Practical touches abound: easy access fender storage, a full complement of fenders, shore lines, and life jackets, 110V cockpit outlets with USB C charging points, and additional USB C charging in both bow and stern lounge areas. Stainless housed LED floor lighting sets the tone after dark, while navigation lights, tables with carbon cup holders, 4 refrigerators, an outdoor galley sink, and a deck shower with fresh and warm water complete a deck plan designed for serious day boating and sophisticated entertaining.

Toilet & bathroom

The private head is appointed for comfort and longevity, featuring an electric

flush toilet and a separate shower cabin with a soothing rain shower. A washbasin with hot and cold water, a designer mirror, efficient ventilation via a dedicated fan, and warm, indirect lighting create a refined, spa-like retreat below.

Saloon & master cabin

The saloon and master cabin center on a generous king-size V-berth, supported by thoughtful amenities: a sink with cold water, a professional refrigerator, and a microwave for easy provisioning. Abundant storage lockers keep the space orderly, while indirect lighting adds ambience. Power is ever at hand with 110V sockets and USB charging points, and a 7-inch Garmin control screen brings systems oversight to your bedside. Air conditioning ensures restorative rest in any climate.

Mid cabin

amidships offers 2 single beds to port and starboard, ideal for guests or family, with dedicated storage lockers and calming indirect lighting. Convenience is assured with 110V sockets and USB charging, and air conditioning maintains a perfect temperature throughout.

Lounge & walkaround

The forward lounge invites relaxed dining with a height-adjustable table that shifts from coffee to cocktail hour with ease, while the full walkaround, with a depth of 85 cm (33 inches), ensures safe, confident movement for all aboard.

Safety

Prepared for the unexpected, the yacht carries 12 life vests and is protected by

an automatic fire extinguishing system in the engine room. A robust 3 compartment automatic bilge pump system stands guard below, providing layered defense against water ingress.

Anchor system

Effortless ground tackle handling comes via an automatic hydraulic arm system paired to an electric anchor winch, feeding a 40 m stainless steel chain to a 20 kg Pool anchor. Remote control operation allows precise deployment and retrieval from the helm or deck.

Optional equipment

This VQ55 is elevated by an extensive suite of options: a Seakeeper 9 gyro stabilizer for remarkable steadiness at rest and underway; an additional LED searchlight; and a premium audio system with subwoofers to soundtrack every passage. Helm intelligence is expanded with extra 22 inch Garmin displays, and night passages are simplified with FLIR night vision. On deck, carbon bow awnings with integrated sunshade deliver cool refuge, while entertainment flows inside with 2 Samsung Frame TVs in the master and mid cabin. An Opacmare transformer swim platform broadens the yacht's beach club appeal, complemented by a garage with teak flooring and a built in toy inflator system for effortless watersports days. Connectivity is next level with 2 Starlink internet systems featuring mesh and a Wi-Fi booster. Comfort flourishes with a water mist cooling system, an electric stern sunshade, and dashboard A/C with a booster fan. A wine cooler and a professional Hoshizaki ice maker with dual inline filters refine the refreshment experience, while an Echotech ultrasonic hull protection system quietly safeguards the underwater body.

Colors

The exterior presents with authority in a Porsche Slate Gray hull, accented by a Skylight boot stripe and matched to cushions in Silverguard Skylight for a cool, coherent palette that looks sensational at speed and at rest.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
