# DETAILED DESCRIPTION

---

## Overview

---

This yacht boasts a curated selection of premium systems crafted to enhance every passage, beginning with a Williams Jet tender 285 discreetly stowed in a dedicated tender garage for swift, secure launch and recovery. Precision maneuvering is effortless via a joystick with Sky hook, while Quick MC2X-16K gyro stabilizers provide substantial roll reduction to maintain calm and comfort both underway and at anchor. Enhanced situational awareness is delivered by Flir sensors, and docking is simplified to a refined routine thanks to a push-button fender system. Reliable onboard power is supplied by a 10 Kw Northern Lights generator, completing a specification built for confident cruising and effortless, luxurious enjoyment.

## Swim platform

---

An elongated swim platform serves as an elegant waterside terrace, its integrated steps rising smoothly to the cockpit, creating a natural flow between sea and deck. A purpose-built tender garage houses the Williams Jet Tender 285, keeping it securely stowed yet primed for rapid launch, preserving the yacht's clean profile while ensuring seamless access to the water. Completing the aft composition, a slim carbon flagpole provides a discreetly refined nautical accent.

## Cockpit

---

The cockpit has been crafted for effortless relaxation and intuitive control, beginning aft with two sun pads whose backrests conceal recessed cup holders, and flowing into an ample U-shaped seating area with generous

storage beneath. A hydraulically operated Lewmar anchor is hidden in the bow and can be both deployed and retrieved from the steering console, while a dedicated video camera gives remote visual confirmation as the anchor drops and rises. Integrated cleats provide straightforward, secure mooring, and practical service spaces are arranged thoughtfully: to starboard a cockpit refrigerator and a trash bin sit alongside fitted storage cabinets, while to port two coolers are paired with additional storage compartments.

## Electronics and helm

---

From beneath a sculpted hardtop topped by an electric sunroof, four captain's chairs with footrests provide elevated comfort and command, while an advanced Garmin multi-function suite presents control across four 12-inch touchscreens located at the helm and on the port side. The electronics backbone includes the GPSMAP 8612XSV multifunction platform, VHF 315 series, Garmin GMR Fantom 18X radar, AIS Transceiver AIS 800 and a forward-facing Garmin Panoptix Livescope (LVS32-TH) sonar to ensure comprehensive navigation and situational awareness. A dedicated multi-function touchscreen terminal to port ties into a stern camera, a FLIR thermal vision camera and a powerful spotlight to extend visibility in all conditions. Steering precision is aided by a Plastimo Offshore 115 compass mounted to starboard on the dashboard, while onboard entertainment flows through a Fusion stereo system (Apollo MS RA770) and a removable 43-inch Loewe LCD TV on the port-side helm deck, with upgraded helm deck air conditioning ensuring comfort for crew and guests.

## Galley

---

Positioned just a few steps from the cockpit, the galley flows through the cabin with Flexiteek beneath and a sophisticated graphite countertop. Culinary tasks

are simplified by a two-burner induction cooktop, an Isotherm BI92 refrigerator and an Electrolux ESL2500RO dishwasher, while a Jura ENA8 espresso machine produces café-quality coffee and an Isotherm icemaker guarantees perfectly chilled beverages. Anchoring the workspace is a premium Grohe sink, complemented by a central vacuum system that keeps every surface immaculate, and deep storage concealed in the galley sole secures provisions and equipment for extended cruising.

## Master cabin

---

At the heart of the suite lies a generous full-size bed, its base concealing practical under-bed storage and a large drawer crafted for effortless organization. Encircling the berth are built-in cabinets, each apportioned into five carefully arranged compartments, while additional storage is integrated along the bulkhead to keep essentials close at hand. The atmosphere is adjustable thanks to dimmable LED lighting recessed in the ceiling and running along the side panels, casting a warm and refined glow. Underfoot, durable Flexiteek flooring with ash interlays completes the space, delivering a timeless, yacht-appropriate finish.

## Cabin aft

---

The aft cabin has been exquisitely arranged around two generously sized twin berths, each offering generous under bed storage, all set upon Flexiteek flooring accented with ash interlays. Function and refinement are united in the fitted cabinetry, every unit providing four individual compartments plus one large storage locker, while dimmable LED fittings in the ceiling and along the sides allow you to sculpt the lighting to suit any occasion.

## Head

---

The head showcases a Tecma toilet equipped with an integrated bidet, paired with a Grohe shower and a Grohe sink, while graphite flooring beneath and a matching graphite panel top create a refined, modern palette that lends the space a crisp, sophisticated finish.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
