OVERVIEW

Introduced in 2026, the Manhattan 56 joins Sunseeker's celebrated line as a polished embodiment of the British builder's heritage and luxury. Its principal strengths lie in balanced proportions, generous internal volume and a handling character that renders the owner-operated flybridge motor yacht experience notably effortless. Carefully proportioned for confident single-handed control, the yacht nevertheless boasts sweeping hullside glazing, an open-plan saloon flowing onto the main deck, sociable lounge areas and three well-appointed cabins. The result is a presence and sense of space that make her feel appreciably larger than many of her peers.

DETAILED DESCRIPTION

Sunseeker Manhattan 56

The 2026 Sunseeker Manhattan 56 represents a refined entry into one of the marque's most celebrated lines, offering an unusually harmonious mix of compact scale, generous interior volume and simple handling. With sweeping glazing, an open-plan main deck and expansive social zones paired with three thoughtfully proportioned cabins, she creates the impression of a yacht larger than her dimensions suggest while remaining accessible for owner operation.

This hull has been specified by seasoned Sunseeker specialists with practical use foremost in mind—comfort while underway, assured handling, family cruising, relaxed anchoring and effortless entertaining. The arrangement also supports attractive resale prospects; smaller Sunseeker models have long benefited from strong broker-market demand, combining the appeal of a powerful brand with a manageable size and broad usability without stepping into the greater complexity of larger yachts.

Propulsion is provided by twin MAN i6 800 engines on shaft drive, a dependable and proven choice for owners who prize predictable performance and classic driving character. Onboard systems enhance control and comfort, including a Seakeeper 6 gyro stabiliser, Sleipner bow and stern thrusters with proportional joystick control, a hydraulic bathing platform and an extended Simrad navigation suite fitted with radar, chartplotters, autopilot, VHF and AIS, making operation straightforward whether helmed by the owner or a professional skipper.

The specification has been curated for genuine life at sea: tropical air conditioning rated at 80,000 BTU, a premium AV package featuring Samsung televisions and Sonos throughout the saloon, cabins and exterior living spaces, a wine cooler, dishwasher, extra fridge and freezer drawers, a Siemens

washer-dryer, a flybridge refrigerator and a fully fitted crew cabin create a turnkey environment for cruising, relaxing and entertaining in comfort.

Exterior appointments are equally considered, with a flybridge hardtop and electric aft canopy, teak decking across the flybridge, a teak cockpit table on an electric pedestal, underwater lights, a platform shower and a comprehensive set of protective covers for the flybridge and main deck, all specified for genuine use—day trips, sundowners, family passages, swimming and al fresco dining in secluded bays.

Inside, the Sand Oak interior finished in satin lacquer establishes a calm, contemporary ambience and showcases the craftsmanship Sunseeker is known for. A luminous saloon, rise-and-fall television, additional seating and cleverly integrated storage ensure the living areas are both impressive and highly practical.

Overall, this Manhattan 56 is a meticulously specified, balanced yacht for an owner who appreciates detail—stylish, technologically advanced, supremely comfortable and confidence-inspiring on the water, equally suited to short outings with friends or a full season afloat with family. She is available at the very beginning of the season, with rapid delivery achievable to any destination within the EU.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
