OVERVIEW

Captain-kept — \$80k in upgrades since May 2018

A refined luxury motor yacht that blends the pace of an express cruiser with the sporty poise of a performance yacht, presented in an elegant 2/2 layout that invites both convivial entertaining and private retreat. The interior is appointed with high-gloss cherry joinery and LED illumination throughout, while upholstery and headliners present like new, reflecting meticulous care. Practical conveniences include a hydraulic swim platform, a Bimini top with enclosure, and a bow thruster for effortless handling, complemented at night by underwater lights that enhance her presence in any harbor.

Fresh hull and bottom paint were completed in 2018, and the vessel has received \$80k in upgrades since May 2018 under captain care, making this a clean, turn-key cabin cruiser ideally suited for weekend getaways and coastal cruising. Meticulously maintained and ready to cruise.

DETAILED DESCRIPTION

\$80K in upgrades 2017-2019

Between 2017 and 2019 this Predator benefited from a comprehensive program of enhancements totaling \$80K that elevated both her finish and mechanical pedigree, with improvements that span the interior, exterior and propulsion systems. Inside, the soles received new carpeting in 2018 and the salon was fitted with new granite countertops in 2018 while the helm gained a crisp new white steering wheel in 2019, and throughout the cockpit and helm all upholstery was renewed in 2017. Below the waterline and topsides she was refreshed with new bottom paint and professionally painted hull sides in 2018. Mechanical care was equally thorough: a MAN one-thousand-hour service was completed, engines were repainted, turbochargers were serviced, generators were serviced and new raw-water pumps installed, while practical refinements include a new hydraulic pump and motor for the swim platform fitted in 2019, a new Glendenning Cable-Master system with a new shore power cord, and replacement of the fresh-water pump and hot-water heater. Attention to detail extends across deck and interior with all cockpit wood replaced, stainless door latches and cup holders renewed, vent covers replaced and new shower heads fitted, and comfort systems received focused service with all air-conditioner AC-volt pumps replaced and new seals installed on the SeaLand Vacu-Flush heads accompanied by a fully serviced waste system. At the helm navigation and entertainment were upgraded with a new Garmin GPS map/plotter and a new forty-inch LCD TV serving the helm/cockpit, complemented by new Pioneer and JL Audio helm/cockpit speakers and new LED lighting at the helm and in the cockpit, while aesthetic touches include a new custom transom name board with LED lighting, a replaced aft cockpit enclosure and a refinished anchor.

Cabin

This lovely 56 Sunseeker Predator 2000 presents a two-stateroom, two-head layout crafted for effortless cruising and privacy, where high-gloss cherry veneer cabinetry and trim lend a warm, contemporary richness while white vinyl headliners with recessed lighting brighten every space and integrated VDC LED illumination provides efficient, reliable light throughout the cabins for comfortable living at sea.

Audio & visual equipment

Entertainment aboard is immersive and beautifully integrated, with a Samsung forty-inch LCD TV in the salon paired with a Bose Lifestyle AM/FM/CD/DVD system and dedicated Bose speakers for rich, cinematic sound while private spaces are equally well-appointed with a Samsung thirty-two-inch LCD TV in the master and a Samsung twenty-four-inch LCD TV in the guest, and at the helm low-end punch is delivered by a Cerwin Vega sub-woofer complemented by a new Insignia forty-inch LCD TV and a Pioneer NEX series stereo with JL Audio speakers in the helm/cockpit area, ensuring vibrant, open-air soundtracks whether underway or at anchor.

Appliances - galley/aft deck

The galley is designed for serious cruising with a stainless-steel sink and elegant granite countertops, a Sub Zero refrigerator and freezer in stacked configuration, a Kenyon two-burner stove and a Whirlpool microwave, while entertaining flows seamlessly to the aft deck where a molded FRP wet bar incorporates a sink, cooktop, freezer, refrigerator, Raritan icemaker and generous storage, and long-stay convenience is further enhanced by a Malber combination washer/dryer.

Electronics

The helm is comprehensively equipped with a VHF set new in 2018 and a Furuno radar complemented by a Garmin GPS/map plotter also new in 2018, while precision data is provided by VDO speedlog/depth instruments and a dedicated VDO depth sounder with a Ritchie compass for instant heading confirmation, and essential control and safety features include a 12 VDC horn, Bennett trim tabs, a VDO rudder angle indicator and an Ocean Technologies spotlight for confident night operations.

Deck and hull

On deck practicality meets style with non-skid decks finished in white gelcoat and a teak sole in the cockpit, where the helm features a double-wide seat with an additional seat to port protected by a helm cover; a Bimini top and enclosure plus a canvas top with full enclosure and stainless Bimini supports forward and aft of the radar arch provide weather protection, guests enjoy a U-shaped settee aft and the aft deck seating slides out to convert into a generous sun pad/lounge trimmed in white vinyl, a cockpit table invites alfresco dining and the hydraulic swim platform—benefiting from a new motor in 2019—pairs with a transom shower for effortless days on the water. Ground tackle is handled by a Simpson Lawrence VDC two-way windlass with controls at both the bow and helm, and after-dark ambiance and visibility are superb thanks to six LED underwater lights, blue LED radar-arch lights and LED helm and cockpit deck lights; notable refinements cited include a hull painted in 2017, helm/cockpit upholstery and teak sole serviced in 2018, anchor refinished in 2018, aft cockpit enclosure replaced in 2018, a new custom transom name board with LED lighting fitted in 2018, new LED lights below the waterline added in 2018, a new hydraulic pump for the swim platform installed in 2018 and a new Glendinning Cable-Master with a new shore power cord

installed in 2018.

Machinery

Mechanical systems inspire confidence with major service completed in 2018 including a one-thousand-hour service on the MAN engines, new raw-water pumps on the engines, serviced engine turbochargers and comprehensive service on the main engines and generators with oil changes, coolant systems serviced and all fuel filters addressed, while block heaters were installed on the main engines in 2018 and the tachometers/hour meters were replaced the same year. Fresh-water pump and hot-water heater were replaced in 2018, new bilge pumps and hoses were added in July 2019, controls are ZF with auto sync paired to ZF Transmission Model IRM350V-LD, shore power is handled by a 50 A/220v, fifty-foot power cord on a cablemaster and ship's power is supported by an 11 Kw Kohler Gen Model 1100FOZ with a sound shield. Sanitary systems include Sea Land Vacu-Flush with new seals installed in 2018 and a waste system sanitation service performed in 2018, domestic hot water is provided by a Kuuma hot-water heater, and climate control is robust with four Marine Air self-contained air conditioners delivering a total of 69,000 BTU, all fitted with digital controls and with AC-volt pumps replaced in 2018.
