## OVERVIEW

---

The 2020 Horizon 56 motor yacht offers a graceful flybridge cruiser designed for bluewater passages, laid out with three staterooms and two heads that speak to both comfort and practicality. Underway she is propelled by trusted Caterpillar diesel engines on traditional straight shafts (no IPS), complemented by bow and stern thrusters and four fully equipped control stations that simplify close-quarters maneuvering. Years of considered design are evident in the expansive interior plan, rich Sapele joinery, upgraded custom countertops and thoughtfully selected designer soft goods. Built on a solid fiberglass bottom (not foam) and fitted with premium hardware more commonly seen on larger pilothouse yachts, she projects a notably robust demeanor. Presented in beautiful condition by meticulous owners, maintained with diligent care and enhanced by tasteful upgrades that distinguish this luxury power yacht.

# DETAILED DESCRIPTION

---

## Loaded options and upgrades

---

A comprehensive suite of premium enhancements elevates this yacht far beyond standard, beginning with upgraded Caterpillar C12 engines rated at 850 HP and a fully updated Garmin navigation suite spanning both upper and lower helms. Precision low-speed control is assured by port and starboard aft engine and thruster control stations paired with Side Power bow and Side Power stern thrusters, while Bennett trim tabs and an oil change system make performance tuning and service refreshingly simple. Shore connectivity arrives via a shore power system with a 75-foot retractable cord, and climate quality is refined by V-Kool applied to all forward and side windows and ultraviolet lights integrated into every air handler to deliver the cleanest air onboard. Above, a customized flybridge cover shelters a space further refined with an upgraded custom flybridge table and two upgraded STIDD chairs, mirrored below by an upgraded custom cockpit table and teak laid in the aft deck for timeless warmth underfoot. Practical luxury continues with a second water heater complete with an added circulating pump, a washer and dryer housed in separate cabinets, and added storage thoughtfully executed throughout, including a customized FRP entry step with storage and custom boarding stair storage within the step, complemented by boarding stairs and a hand rail. Robust hotel-grade comfort comes courtesy of hotel grade mattresses, while the galley gleams with granite in place of Corian and both heads are finished with honeycomb granite floors and countertops. Electrical autonomy and seamless entertainment are delivered by a 21.5 kW generator working with a 3 kW inverter, Italian Vinmar switches throughout, upgraded AV systems throughout, and pre-wire for a water maker alongside an additional standby freshwater pump. Rounding out the specification are an extra boarding gate,

custom interior design throughout, and upgraded fuel capacity for extended cruising confidence.

## Specifications

---

The yacht is finished in a pristine white gel coat and constructed using a 3D VARTM infusion process for improved strength at reduced weight. Above the waterline, high density foam coring provides stiffness and thermal efficiency, while an FRP solid hull bottom, one-piece hull lamination, and longitudinal girders create a rugged backbone. Main engine girders are further reinforced with high density foam coring, and both deck and superstructure receive foam cored reinforcement for exceptional rigidity. Protection below the waterline is secured by international brand anti fouling bottom paint paired with an anti osmosis treatment for enduring performance.

## Forward and aft decks

---

Sophisticated deck architecture begins with an FRP cap rail and a stainless steel rubrail around the hull deck joint, leading to a Maxwell VC12000 windlass on an FRP base handling high tensile 3/8-inch, 200 foot anchor chains secured by a stainless steel roller and chain stopper feeding a stainless steel 50 kg anchor. Practicality abounds with a fresh water anchor chain washdown and a generous sunbathing cushion on the forward deck, while frameless, tinted tempered safety glass treated with V Kool ensures cool, glare free views. Boarding is effortless via two side boarding gates, teak graces the aft deck, swim platform, and exterior steps, and the aft deck table features a teak tabletop with Wenge trim and a smooth sliding mechanism. After a swim, refresh under the built in hot/cold shower above the swim platform, and stow gear neatly in a custom designed FRP box within the first step for boarding ladder storage. A Marquipt manual gangway aids boarding,

an exterior aft deck stairwell leads to the flybridge, and an access hatch with ladder opens to the engine room. Control stations are thoughtfully positioned to port and starboard aft, and an FRP cabinet houses an ice maker and storage as laid out. Tender handling is simplified by a Hurley electric winch, with four custom rod holders ready for action and a new dinghy with motor completing the package.

## Flybridge and deck

---

The flybridge presents a nonskid boat deck beneath a tinted acrylic windshield framed in stainless steel, with generous seating arranged around a teak table detailed in Walnut. A custom designed, larger FRP cabinet integrates a half height fridge/ice maker and electric service beside a BBQ housed in the wet bar cabinet. Command comes from two STIDD helm seats facing a luxury helm console with a full suite of instruments, aided by one Takai Sunshine search light, and a radar arch carrying antennas, a SAT TV dome, and an electric horn. Thoughtful touches include slatted drain panels under seats for dry storage, a custom privacy shade for the back deck, and a portable air conditioner dedicated to the flybridge.

## Engine and propulsion details

---

Power is delivered by twin Caterpillar C12.9 Tier 3 ACERT engines producing 850 hp each, turning high performance four blade propellers. Each engine is protected by dedicated fuel filters/water separators, and the exhaust system features by pass mufflers for refined acoustics. Precision attitude control arrives via Bennett trim tabs, with Side Power electric bow and stern thrusters enhancing close quarters maneuvering. An engine alarm system monitors low oil pressure and high water temperature, while two engine compartment blowers (AC and DC) ensure proper ventilation. Safety and serviceability in the

engine room are paramount, with a Sea Fire fire/smoke alarm system, bright white finishes over a black rubber floor, sound and heat insulation in bulkheads and ceiling, a stainless steel overhead grab rail, and LED ceiling lights throughout.

## Mechanical systems

---

Range and reliability are anchored by aluminum fuel tanks totaling 720 USG with sight gauges, a RACOR 500MA fuel filter on the generator, and an oil change pump system serving engines and gensets. Climate is managed by chilled water Marine Air air conditioning, with fresh water hoses to engine and generator expansion tanks and a 160 gallon FRP water tank feeding a high volume DC freshwater pressure pump through marine grade lines and color coded piping. Domestic hot water is abundant thanks to two 20 gallon water heaters, a hot water recycle pump, and an extra standby freshwater pump. Future proofing includes pre wire for a watermaker, while waste is handled by a 60 gallon holding tank with pump, electric level indicators, and a Y valve for dockside pump out. Comfort and cleanliness are assured by TECMA electric flush toilets in each head, electric RULE bilge pumps, and a two level high water bilge alarm.

## Electrical systems

---

The yacht's electrical backbone features a 3 kW inverter and a 50 A shore power system with a 75 foot cable, distributing power to comprehensive LED ceiling, courtesy, bulwark, and rope lighting throughout. A 24 VDC to 12 VDC step down 40 A transformer and one battery charger serve the entire bank, with four batteries dedicated to engine start up and two batteries for ship's service power. Safety and oversight include GFI protection for required AC outlets, a BEP monitoring system for tanks and batteries, an electrolysis

bonding system, a 24 VDC monitoring system, and a BEP battery switch. Refinement extends to Italian VIMAR switches for lighting and receptacles, AV equipment fitted throughout to the owner's specifications, active Starlink service, and four Lunatic train lighting multi radio units.

## Interior decor and equipment

---

Guests are welcomed by accommodations that include a full beam master suite with its own head, a starboard twin cabin, and a VIP stateroom sharing a head, all unified by rich sapele wood in satin finish, a customized and luxurious interior design for soft goods and finishes, and custom carpet in the salon and staterooms. The lower helm features a black leather riding seat with storage beneath, while daily convenience is enhanced by a stacked washer and dryer and custom Hunter Douglas blinds gracing the main salon and cabins.

## Salon

---

The salon invites conversation with an L shaped sofa and loveseat upholstered in Kravet Designer Chenille, centered around a custom designed hi/lo coffee and dining table. Storage is abundant in multiple cabinets, entertainment sparkles on a Samsung 40-inch LED TV with a BOSE Lifestyle 600 system, and cinematic evenings are easy with a Samsung Blu ray player and Apple TV.

## Galley

---

The galley is a chef's delight with granite countertops and flooring, a stainless steel sink with disposal, and a suite of GE stainless appliances including a refrigerator with ice maker, electric cooktop with exhaust blower, convection oven and microwave oven, and a dishwasher. A built in spice rack

keeps essentials neatly to hand.

## Master stateroom

---

The full beam master stateroom centers on a queen size bed with a hotel grade innerspring mattress, complemented by a full height hanging locker and storage cabinets per layout crowned with a Maitore wood countertop. Entertainment comes via a Samsung 40-inch LED TV with Fusion speakers, while granite nightstand tops add gravitas. The ensuite head offers white quartz countertops and floors, a large bathroom, and a stand up shower with toilet and sink arranged per layout.

## Vip stateroom

---

The VIP features a queen size bed with a hotel grade innerspring mattress, a full height hanging locker, thoughtful storage per layout, and granite nightstand tops. Its ensuite head provides a stand up shower, toilet, and sink per layout, finished with white quartz countertops and floors.

## Guest stateroom

---

The guest stateroom is configured with a single bed fitted with a hotel grade innerspring mattress, a full height hanging locker, and granite nightstand tops, and it shares the head with the VIP stateroom.

## Lower helm

---

Command at the lower helm is crisp and confident with two GARMIN GPSMAP 16 inch screens, GARMIN autopilot and AIS, and an ICOM VHF, all integrated into an instrument panel uniting engine instruments and monitoring equipment. Navigation is refined by a RITCHIE compass, variable speed

windshield wipers, and a comprehensive fuel and water level indicator system.

## Flybridge

---

At the upper station, two GARMIN GPSMAP 17 inch screens anchor an integrated instrument panel with engine instruments and monitoring equipment, joined by an ICOM VHF and a RITCHIE compass. The area is protected by a new top end enclosure for comfort in all conditions.

## Recent upgrades

---

Recent care and investment keep the yacht turnkey: in 2022, an electric winch by Hurley Marine joined four custom rod holders; in 2023, a new top and enclosure with sun screens arrived alongside a portable air conditioner for the bridge and a new dinghy with a 25 HP Yamaha; in 2025, an Electric Strainer Pro was added for the air conditioner together with new Starlink service and Lumitic multicolor underwater transom lights; and in 2026, a Viking eight person life raft received a fresh inspection, the bottom received a complete fresh job, comprehensive CAT service was performed on engines and generator, and exterior and interior cleaning and waxing were set on a monthly schedule. Custom lighting now highlights the boat's name, and privacy curtains enhance the back deck.

## Disclaimer

---

The details of this vessel are offered in good faith but without guarantee or warranty of accuracy or of the vessel's condition.
