OVERVIEW

ON SHOW AT THIS YEAR'S SANCTUARY COVE INTERNATIONAL BOAT SHOW //
MAY 21-24, 2026 // IN THE MARINA, DOCKSIDE EXHIBIT ZONE

The yacht BUZZ is a 2020 Riviera 57 Enclosed Flybridge presented in one of the most comprehensive specifications of this celebrated series. Purpose-built for genuine bluewater cruising and extended stays aboard, she combines Riviera's famously seakindly hull with a three-stateroom interior and the protected comfort of an enclosed flybridge motor yacht layout. The upper helm is climate controlled and reached via an internal staircase, effectively creating a second salon for confident, all-weather navigation, while generous glazing provides exceptional sightlines and a powered sunroof admits fresh air when desired. The helm integrates Garmin and Volvo Penta systems, offering multi-screen navigation, engine data, autopilot and joystick manoeuvring available from multiple stations, equipping this flybridge yacht to perform as both a capable offshore sportfisher and a luxurious long-range cruiser.

DETAILED DESCRIPTION

2020 Riviera 57 enclosed flybridge 'BUZZ'

BUZZ is a 2020 Riviera 57 Enclosed Flybridge presented to a standard rarely seen in the brokerage market; extensively optioned from new and maintained to a professional level, she offers the opportunity to acquire one of the most comprehensively equipped 57s delivered without the lead times or uncertainty of a new build. The enclosed flybridge is the yacht's defining attribute: fully air-conditioned and reached via an internal staircase, it provides genuine all-weather operation with exceptional sightlines, while an electric sunroof allows natural ventilation when desired. The helm is a purpose-built Garmin and Volvo-integrated command station centred on triple 17-inch Garmin MFDs at the main console, with additional Garmin displays extended to the cockpit and aft flybridge, and a full suite of Volvo engine monitoring, integrated autopilot, IPS electric progressive steering with Trim Assist and triple joystick docking stations for precise control. Navigation and systems are comprehensively specified, including radar, transducer, chain counter, SeaKeeper gyro control, C-Zone digital switching and an array of communication equipment tailored for serious cruising. Propulsion is provided by Volvo IPS, delivering economical operation, crisp manoeuvrability and a notably smooth ride, while engineered air intakes with mist eliminators and a forced air extraction system promote longevity of machinery and the SeaKeeper gyro stabiliser dramatically improves comfort both underway and at anchor. The interior unmistakably reflects Riviera refinement with hand-finished timber joinery, premium leather upholstery and discreet, well-considered lighting throughout; climate comfort is thorough, with 30,000 BTU and 36,000 BTU air-conditioning units supplemented by two further 16,000 BTU systems to ensure consistent temperature control across the

saloon, accommodation and flybridge. Accommodation comprises three cabins arranged for comfortable cruising: a full-beam master stateroom with private ensuite, a forward VIP cabin and a starboard twin bunk cabin, supported by a guest/day head, while the saloon and galley are laid out for both long-distance practicality and entertaining, fitted with a Smeg combination oven, Miele three-element induction cooktop, rangehood, dishwasher drawer, four-drawer refrigeration, two-drawer freezers and washer/dryer facilities. Cockpit amenities are equally well resolved, featuring dual electric BBQs, a refrigerated mezzanine cool box, a Vitrofrigo ice maker and additional Isotherm refrigeration serving cockpit and flybridge, and a hydraulic raise/lower swim platform with stainless rails that simplifies tender handling and water access. Ground tackle is robust, with a 45 kg Ultra stainless-steel anchor and 100 metres of 10 mm galvanised chain, and the foredeck is fitted with a davit system rated to 4,500 kg. Entertainment is seamlessly integrated with a 43-inch saloon television, a 32-inch master stateroom home theatre, 28-inch screens in the forward stateroom and on the flybridge, together with Apple TV and Blu-ray capability. A Brig 360 centre console tender, driven by a 30 HP Honda outboard, completes the package and provides effortless access ashore and to secluded anchorages. BUZZ distinguishes herself through the breadth of her specification, the consistency of her presentation and the practical intelligence of her layout, making her ideally suited to extended coastal cruising, offshore passages and confident owner-operator use.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
