OVERVIEW

PRINCESS TECHNICAL ORIENTATION INCLUDED • PHOTOGRAPHY, VIRTUAL TOUR AND WALK-THROUGH VIDEO AVAILABLE

Experience the epitome of luxury with this stunning yacht for sale, currently located in a prime boating destination. Powered by twin Volvo D13-900 diesel engines with just 190 hours, this vessel boasts a sleek white exterior and a sophisticated walnut interior with a satin finish. The flybridge, side decks, foredeck, and coach walkthrough are elegantly adorned with teak.

This yacht is equipped with an Allure pack update, a robust Onan 17.5Kw generator, and a comprehensive navigation package. Maneuver with ease using the Volvo joystick system and third steering station in the cockpit, complemented by bow and stern thrusters. Enjoy comfort with air conditioning and Continental 220V/240V sockets.

The hydraulic platform and foldaway swimming ladder enhance your aquatic adventures, while the saloon dining table and side boarding doors to the cockpit area offer convenience and style. Entertainment is at your fingertips with a 50" UHD TV and Fusion systems with speakers in the saloon, owner's cabin, and flybridge.

DETAILED DESCRIPTION

Section name

The yacht is equipped with a sophisticated Volvo joystick control system, offering dual station operation with low-speed maneuvering in 'docking mode' and seamless steering at any speed in 'driving mode'. This system integrates the engines, steering, and thrusters, including an upgraded 210KgF variable speed bow thruster and a stern thruster when fitted. A third station control is conveniently located in the cockpit, complete with thruster controls and an emergency stop feature. The hold function docking facility further enhances maneuverability, ensuring precise control in tight spaces.

The hull boasts a pristine white gel coat finish, complemented by a radar arch infill panel and engine air intake vent in a striking graphite grey metallic paint. The dark grey waterline and black antifouling add a touch of elegance, while the hull and bathing platform fendering are finished in white with a stainless steel insert. The aft canopy features a chamfer in a standard white GRP finish, adding to the yacht's sleek appearance.

Inside, the yacht features exquisite walnut interior wood with a satin finish, including all galley units. The galley floor is planked walnut as standard, and the helm console is adorned with grey soft touch material and Quartz III Putty leather helm seats. A safe is included for secure storage, and the stateroom is enhanced with two Audrey flexible bunk lights, one on each side of the bed.

The layout includes a saloon with a folding leaf dining table and a sideboard in the master cabin, replacing the traditional sofas. The styling is elevated with elements from the Design Studio Collection, featuring the Allure Collection II. Interior styling includes quilting detail with contrast piping and panelling to the lower helm seats, and a Pininfarina design steering wheel. Exterior styling features similar quilting details on the flybridge helm seats, a Pininfarina

design steering wheel, and an Oyster Grey finish on the flybridge console and wetbar. The foredeck sunbed cushions come with adjustable headrests, and the exterior upholstery is in Comfort Exterior III Met Ice with Macadamia contrast panels and piping.

The galley worktops are crafted from Sylmar White Solid Surface, matching the bar top, with an option for Carrara White. The bathrooms feature Carrara White Solid Surface countertops with a gloss finish and floors, complete with heated floors in both WCs. The color scheme offers a choice between Quartz VIII or Milan IX range of fabrics, with an upgrade option to premium carpets in Elements Symphony Dresden. Fitted bedcovers with square quilting add a touch of luxury.

Deck hardware includes an electro-hydraulic transom platform with a 450Kg SWL and keyway plates, teak laid side decks, foredeck, and coachroof walkthrough, as well as a teak laid flybridge deck. Side boarding doors provide easy access to the cockpit area, and an additional 20m of 10mm anchor chain extends the total to 60 meters. A chain counter is available on the fore windlass at both helm positions, and a Scandinavian drop-down pulpit is fitted at the fore. A teak table on the foredeck and a stainless steel anchor replace the standard 25Kg anchor.

The yacht is powered by an ONAN 17.5kW/50 Hz generator, recommended when gyro stabilizers or air conditioning are specified. The electrical system includes continental 220v/240v sockets, a slimline dishwasher in the galley, a BBQ on the flybridge wetbar, and a heated towel rail in the bathroom. A combination washing machine/dryer is fitted below the companionway stairs. The exterior lighting upgrade package includes low-level accent strip lights below the flybridge wetbar, accent spots on the transom, additional deck lights, and pop-up lanterns on the flybridge forward dinette. A Penta China table lamp in gloss white finish is placed on the aft saloon sideboard, and dimmers are installed in various cabins.

The audio-visual and communications system features a standard setup with a 50" LED TV on a powered lift in the deck saloon, paired with a Fusion Apollo MS-RA770 system. The master stateroom includes a 43" LED TV with a Fusion MS-RA770 system, and the flybridge is equipped with a Fusion SRX-400 system and waterproof speakers. The cockpit audio package includes waterproof Fusion speakers linked to the saloon audio unit with local control.

Navigation is facilitated by Garmin 16" multifunction displays at both control positions, with chartplotter/GPS and dual station autopilot. Volvo engines have a 7" display for engine instrumentation, and MAN engines have a 9" display. A second 16" screen is available, and the Garmin XHD color radar with a 24", 4Kw Radome provides comprehensive navigation support. Additional features include a Garmin AIS Class B transponder, Garmin electronic chart BLUECHART G3 VEU721L for Northern Europe, and a Garmin 315i dual station VHF/DSC with intercom.

The air conditioning system is a reverse cycle unit with 78,000 BTU, suitable for tropical temperatures up to 40°C, with controls in all cabins and outlets in all areas, including bathrooms. A windscreen demist system uses a warm air heater powered from the calorifier. Mosquito screens are fitted for all opening portlights, and the holding tank features an electric discharge system.

Exterior upholstery and canvas covers include seating in Vogue Eucalyptus with Met Macadamia contrast, reticulated foam for foredeck and flybridge cushions, and grey canvas exterior covers. Separate covers are provided for the cockpit sofa, table, and foredeck cushions. Accessories include Princess glasses, with six wine and six tumbler glasses included. Decorative styling scatter cushions and throws are not included but can be purchased from the broker.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
