OVERVIEW

One of the most pristine and fully equipped 57 Predators currently available in the Americas, this yacht is ready for immediate enjoyment. Recent investments exceeding \$100k have been made in enhancements and services over the past few months. Notable upgrades include: New 5-year extended Volvo warranties initiated on the engines as of April 2020, a Yacht Controller system with joystick added in February 2020, a stern thruster complementing the factory-installed bow thruster, and comprehensive servicing of both engines and generator completed in May 2020, along with micron bottom paint, zincs, and prop speed maintenance also performed in May 2020.

The Predator 57 is among the most sought-after models produced by Sunseeker in the last decade, showcasing a sporty and elegant design that harmonizes style with functionality. The saloon door operates on hydraulic rams, allowing it to retract completely into the deck, creating a seamless transition between the expansive entertainment area and the exterior of the yacht. The innovative open-plan layout is further enhanced by a fully retractable hardtop roof and a molded aft cockpit featuring generous L-shaped seating and a wet bar. The exterior design is equally impressive, with sleek, oversized mullion-free hull windows that flood the interiors with natural light. The Predator 57 makes a striking statement on the water, embodying the essence of luxurious cruising.

Jet ski and tender are not included in the purchase price.
