OVERVIEW

The 2019 Princess F55 presents a study in modern refinement and purposeful capability, a flybridge motor yacht from one of the industry's most esteemed builders. Measuring approximately 57 feet overall with a generous 16-foot beam, she marries luxurious living quarters to the seaworthy temperament of a modified V-hull fashioned in resilient fiberglass, yielding a composed, quiet ride whether slipping along the coast or standing up to offshore conditions.

Stepping aboard reveals an interior shaped by light and proportion. The salon, framed by broad windows, is awash in natural illumination and offers an inviting backdrop for conversation and panoramic viewing. Fine joinery and premium finishes attest to Princess Yachts' meticulous craftsmanship, while a thoughtfully arranged galley sits ready to serve both the salon and cockpit, making entertaining effortless. Below deck, private accommodations are laid out for extended cruising with family and guests, and two well-appointed heads provide the comfort and privacy expected aboard a true luxury yacht.

Above, the flybridge combines commanding visibility with the pleasures of open-air living, an ideal setting for casual dining, sun lounging, or evenings beneath the stars—a seamless extension of the vessel's entertainment spaces whether at anchor or underway. Wide side decks, a commodious foredeck lounging area, and an expansive cockpit create safe, easy circulation and enhance the boat's versatility for coastal hopping or longer passages.

Twin Volvo Penta diesel inboard engines propel the F55 with assured, efficient performance; the hull form delivers crisp handling and steady seakeeping. A substantial 605-gallon fuel capacity and 134 gallons of freshwater, together with ample storage throughout, extend the range of weekends into longer voyages without sacrificing onboard comfort. Robust ship systems and carefully considered ergonomics ensure that practical operation and everyday living are both intuitive and refined.

Currently lying in the United States and carrying the timeless Princess profile, this F55 distills the essence of the modern luxury cruiser: elegant in appearance, capable at sea, and warmly inviting aboard. Whether for relaxed coastal exploration, spirited offshore runs, or leisurely days at anchor with friends and family, she delivers a sophisticated yachting experience without compromise.

DETAILED DESCRIPTION

Main description

Meticulously cared for with an open checkbook approach, the 2019 Princess Yachts F55 Flybridge Motor Yacht "Endeavor," located in West Palm Beach, FL, presents as a turnkey example with every service current and no expense spared, inviting immediate and effortless ownership. Recent service and upgrade highlights are comprehensive and recent: dripless shaft seals were replaced in 7/2025 with spare shaft seals installed in 7/2025, rudder bearings were renewed in 7/2025 and a cutlass bearing was replaced in 7/2025, while Garmin flybridge displays were replaced in 8/2025. The yacht benefits from a full flybridge enclosure, a custom interior by Princess specialist Brooks Interior Design, updated carpet, bedspreads and throw pillows embroidered with the boat name, and Posiedon motorized shades with blackout in the salon that are remote controlled. Performance and comfort have been significantly enhanced by an SK9 Seakeeper installed in 2022 with warranty until 7/2026 and extendable coverage, a Dometic watermaker installed in 2022 on a custom fabricated shelf, Starlink connectivity, fresh bottom paint and Prop Speed, custom fabricated removable tender chocks paired with a Walker Bay 11 LTE, a Quickstep Yacht Master for easy boarding, night vision installed on the hardtop, and a Pep Wave Router for reliable onboard networking. On deck the F55 displays refined practicality with a teak laid transom platform, cockpit deck, flybridge stairway and steps to the side deck, a self stowing twenty five kilogram/fifty five pound Delta anchor on forty meters of chain served by a reversible electric windlass with controls at the foredeck and helm, generous foredeck seating and a sunbathing area, stainless steel cleats, fairleads and handrails, a dual station remote control searchlight, a freshwater deck and anchor wash, dedicated lockers for fenders and ropes, and deck level LED

lighting. The cockpit is arranged for effortless entertaining with U shaped seating and a folding teak table, a locker housing a 220/240 V shore support inlet, a lockable gas strut assisted hatch to the engine room, lazarette and optional crew cabin, twin transom gates leading to the bathing platform with an optional electro hydraulic raise/lower mechanism and dinghy chock system, a transom bathing platform with a foldaway swimming ladder and hot and cold shower, a rope storage locker, and a protective cockpit cover. Inside, the deck saloon welcomes guests with a U shaped sofa paired with a folding leaf dining or coffee table, a two seater sofa and a forty nine inch LED TV on an electric lift, complemented by a stereo radio/DVD/MP3 player, a sideboard with bottle and glass storage and a dedicated crockery storage drawer. The owner's stateroom offers a large double bed with drawers below, a wardrobe with shelves, ample lockers and drawers, a vanity with a pull out mirror, an occasional table with fore and aft seating, a radio/iPod/MP3 player, overhead and individual berth lights, a USB connection point and a private en suite bathroom. The forward stateroom mirrors the premium feel with a large double bed with drawers below, a wardrobe with shelves and mirror, a dressing table, storage lockers, a deck hatch, overhead and individual berth lights, a USB connection point and an en suite with convenient day access. The starboard guest cabin provides two single beds with drawers below, with the option of sliding berths, a wardrobe with shelves, storage lockers and drawers, overhead and individual berth lights and a USB connection point. The galley is fully equipped for extended cruising with a four zone ceramic hob, a combination microwave/convection oven with grill, a stainless steel sink with mixer tap, a full height 270 l fridge/freezer, a waste bin, organized storage cupboards and drawers, and stainless steel framed sliding doors to the cockpit with an integrated hinging window aft of the galley to blend indoor and outdoor living. Underway the yacht is efficient and reliable, running on four bladed propellers in nickel aluminum bronze, assisted by both bow thruster and stern thruster, a power assisted electric steering system with

hydraulic back up, electronic engine and gear shift controls, engine room extractor fans with electronic time delay and dripless shaft seals. Electrical systems are comprehensive and well specified: on 24 Volt there are four heavy duty batteries for engine starting and four heavy duty auxiliary batteries, a battery link facility with remote control at the helm, a sixty amp battery charger that charges both banks via an automatic switch charging system, remote battery master switches with a control switch at the main switch panel and LED lighting throughout. On 220/240 Volt ship's power is supported by a 9.5 kW diesel generator in its own sound shield with a water cooled, specially silenced exhaust, a fifty amp shore support inlet, an earth leakage safety trip with polarity check and circuit breakers on all circuits, and power points in all areas. On the flybridge dual station instrumentation, controls and an alarm system include VHF/RT, speed and distance log, an echo sounder with alarm and autopilot, while sociable spaces comprise U shaped seating with a folding teak table and a forward L shaped seating area that converts to a sunbed; entertainment is handled by a radio/MP3 with waterproof speakers and onboard amenities include a top loading coolbox adjacent to the helm and a wet bar with sink, stowage and an optional electric barbecue, plus liferaft stowage and tailored console and seat covers. At the lower helm twin helm seats with fore and aft adjustment for the helmsman face a comprehensive suite: an electric opening window; full engine instrumentation including fuel gauges, exhaust temperature, engine warning system and rudder position indicator; a navigation system comprising VHF/RT, speed and distance log, echo sounder with alarm, autopilot and a high speed magnetic compass; intuitive controls for the joystick, bow thrusters, windscreen wipers, bilge pump and trim tabs with indicators; a 24 V and 240 V electrical control panel; black mesh sunscreens; a USB connection point; and red night lights, all combining to make Endeavor an exceptionally well equipped, comfortable and turnkey F55 ready for immediate cruising.

Mechanical disclaimer

Engine and generator hours are stated as of the original listing date and reflect information provided to the listing broker by the owner and/or the actual readings on the hour meters, and as such the broker cannot guarantee the true hours; it is the responsibility of the purchaser and/or the purchaser's agent to verify engine hours, any warranties whether implied or otherwise, and any major overhauls, as well as all other representations noted in the listing brochure.

Disclaimer

The details of this vessel are offered in good faith but without guarantee or warranty as to the accuracy of the information or the condition of the vessel; prospective buyers should instruct their agents or surveyors to investigate any details they wish to validate, and this vessel is offered subject to prior sale, price change, or withdrawal without notice.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide.
