OVERVIEW

Trades Considered

Immaculately maintained 2021 VQ58 offered as the owner moves into a larger yacht — a rare opportunity to acquire a lightly used, late-model Vanquish. With just 550 hours logged on her twin Volvo IPS 950 propulsion units, this 58-foot sport yacht/express cruiser arrives comprehensively equipped: a VQ11 tender, upgraded premium audio system, bow thruster and numerous other options. The seller is receptive to financing, and U.S. duty has been paid.

Inside, the yacht presents refined, thoughtfully appointed accommodations: two guest cabins plus a salon settee that converts to additional sleeping space, alongside a generous owner's stateroom that emphasizes comfort without sacrificing performance. Driven by twin IPS950s, she comfortably cruises at 28 knots and reaches a top speed of 41 knots. With purposeful upgrades, high-end amenities and elegantly executed interiors, this Vanquish delivers a spirited yet sophisticated yachting experience suited to dayboating or extended weekends.

DETAILED DESCRIPTION

Introduction

The VQ58 welcomes you with expansive open deck spaces and a generous sun platform that set the stage for effortless days at sea, where broad, secure gangways allow guests to move freely and an alfresco dining area on the aft deck seats ten around the table, an exceptional feature for a motoryacht of this length, while the yacht lounges up to 23 people in total comfort. Below, stairs forward of the helm to port lead to the lower deck where the main cabin offers a large lounge and dining area that converts into a master bed, complemented by a private midships cabin with two queen beds and abundant storage. A head with shower sits near the foot of the stairs, ideally placed for easy access from both the staircase and the sleeping areas, creating a yacht that balances sociable outdoor living with intelligently arranged private quarters.

Master stateroom - full beam

Spanning the full beam, the master stateroom arranges two queen beds to port and starboard, enveloped in soft indirect lighting that creates a serene ambiance, while practicality meets poise with a dedicated storage locker for clothes and modern conveniences including 110-volt sockets, a USB charging point, and efficient air conditioning to provide perfect climate control for restful nights and refined living aboard.

Main cabin with convertible sofa

The main cabin's sofa seating converts into a master bed in moments, supported by a coriander sink with wash basin and cold water, a big

refrigerator, and a microwave, with dedicated storage lockers for clothes close at hand; indirect lighting sets a relaxed mood while 110-volt sockets and USB charging points keep devices powered. A seven-inch Raymarine control screen places key systems at your fingertips, complemented by air conditioning and a height-adjustable dining table to tailor the space to every occasion, delivering versatile comfort whether hosting guests or retreating for the night.

Head

A refined head features an electric flush toilet, a separate shower cabin with a soothing rain shower, and a washbasin set into a coriander sink with warm and cold water on demand, while a design mirror, ventilation fan, and indirect lighting complete a bright, fresh environment that balances functionality with tactile luxury.

Instruments and electrical systems

At the helm, two flush-mounted twelve-inch Garmin screens manage navigation and engine control with crisp clarity, guided by a power steering system for fingertip handling, while entertainment flows through a Fusion stereo with iPad and iPhone connections and a subwoofer. The 24V electrical system is backed by a generator set 8000 I, and a bow thruster together with Dometic Cruise Air AC elevate maneuverability and on-board comfort for confident handling and relaxed cruising.

Hull and deck

The hull is constructed entirely from stiff marine 5083 aluminum and finished in the AWL Grip super yacht system with no metallic effect, while the deck and full walkaround are laid in Flexiteek with a self-draining system to assure

dryness; practical fittings abound, including eleven pop-up cleats, a full fender set with shore lines and lifejackets, 110-volt sockets in the cockpit with USB charge points and additional USB charge points in the bow lounge, stainless-housed LED floor lights and navigation lights by Lopo to enhance visibility after dusk. Entertaining is effortless with tables featuring cupholders, two serve refrigerators — one beneath the driver's bench and one under the outdoor kitchen sink — and a fresh-water deck shower, all designed for durable, elegant operation at sea.

Foredeck and walk around

Forward, a lounge area centers on an adjustable-height dining table for relaxed gatherings, while the walkaround inspires confidence underway with a depth of seventy-five cm from floor level to the highest point of the hull to ensure secure movement, combining sociable forward living with practical safety for every passage.

Safety

Safety provisions include twelve life vests, an automatic fire extinguishing system in the engine room, and a three-compartment automatic bilge pump system to safeguard every passage, reflecting a comprehensive approach to onboard protection so owners and guests can enjoy the yacht with peace of mind.

Anchor system

An automatic sub marine anchor operates with an automatic anchor winch, a forty-meter stainless-steel chain, and a twenty-five kilogram Pool anchor, all operable via remote control for effortless deployment and retrieval, combining

robust hardware with simple, reliable handling at anchor.

Garage on stern

At the stern, a tender garage is designed to accommodate a Williams 285 or a Vanquish VQ11, assisted by a remote-controlled automatic winch and completed by a lounging frame for effortless seaside living, providing fast, secure tender deployment and an elegant beaching experience.

Options

Tailor your VQ58 with a suite of options: Volvo DPS / Skyhook and the Volvo trim system by Humphree; a full-beam cabin with two queen beds beneath the cockpit floor on port and starboard; a sun-shade over the forward dining table on carbon awning poles and an extension shade aft on matching carbon poles; a Garmin radar system on a design support spoiler in black; an ice-cube maker delivering twenty kg per 24 hours; a hydraulic passarelle and swim-ladder combination Bezenoni SP607; a custom audio system with a subwoofer integrated into the bench by the table under the T-Top plus four speakers under the T-Top; a Vanquish VQ11 tender; an extra-big wine cooler in the cabin; air conditioning at the dashboard; FLIR Night Vision M232 in black; a Marinco search light in black; an extra subwoofer and ten-inch speakers throughout; hardtop paint in black; glass tinted with gray sun block; underwater lights on the sides of the boat from one-third of the transom; an extra backrest cushion on the sunbed in front of the window; a carbon shower stand at the swim platform; and a table with an isolated support and a hatch to place bottles in ice, each option thoughtfully specified to personalize performance, comfort, and aesthetic presence.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
