## OVERVIEW

---

Delivered in 2019 and currently lying in the United States, this 58-foot aluminum motor yacht artfully balances rapid performance with refined onboard comfort. Her lightweight, all-aluminum hull and deck convert every touch of the throttles into decisive acceleration while maintaining a reassuringly solid feel offshore. Twin Volvo inboard diesels propel her to a comfortable 32-knot cruise and allow bursts up to 40 knots when you want to push the horizon, while a 16-foot beam contributes confident stability. An offshore-capable draft gives peace of mind on bluewater passages without sacrificing access to favorite harbors, and with 400 gallons of fuel and 110 gallons of freshwater aboard, weekend plans easily stretch into extended voyages.

Inside, the salon is airy and contemporary, wrapped in panoramic glazing that fills the interior with natural light and showcases a refined interplay of brushed metal and warm woods. The open-plan arrangement flows from a chef-friendly galley into a lounge-forward conversation area, all protected by climate control for comfort in any season. Down below, a serene owner's suite is complemented by well-appointed guest cabins, thoughtfully designed heads, and generous storage, making this yacht perfectly suited to extended cruising in true luxury cruiser fashion.

On deck, wide walkarounds, a sheltered cockpit and a welcoming foredeck lounging area make entertaining effortless and elegant, while the broad swim platform keeps you close to the water for spontaneous swims at sunset. The helm benefits from precise ergonomics, responsive throttles and excellent sightlines, making this 58-foot cruiser a joy to handle whether threading into a tight marina slip or opening up on the open ocean. Turnkey, striking and ready to depart, this 2019 aluminum yacht delivers a rare combination of speed, strength and sophistication that elevates every passage.

# DETAILED DESCRIPTION

---

## Description

---

The 2019 Vanquish VQ58 IMPULSIVE is an early embodiment of the marque's fifty-eight foot flagship, marrying Dutch hand-crafted aluminum construction with performance-driven design. Presented in the Open layout, she amplifies outdoor living without sacrificing the model's assertive lines and meticulous build quality, creating a vessel that is as purposeful as it is elegant. Her standout feature is a bespoke metallic paint finish—a deliberate departure from conventional yacht palettes—that catches and shifts light as she slips through Miami waters, transforming an already striking silhouette into a unique floating statement.

Beneath that distinctive exterior sit twin Volvo IPS 950 drives, registering only 900 hours since her 2019 delivery, a clear indication of light use and attentive maintenance. The specification is comprehensive and thoughtful: integrated FLIR thermal imaging via the pop-up Nighthawk camera, an advanced refrigeration suite, and a hydraulic tender garage housing a Williams 285 jet tender—an exceptional arrangement that elevates her suitability for refined day trips and relaxed weekend passages. Navigation and helm systems create a glass-cockpit feel with two 18-inch Garmin screens supported by a Volvo Penta control display for full engine oversight, while Volvo IPS pod drives with joystick control ensure intuitive handling in tight quarters.

The interior and deck arrangements are crafted for sociable cruising. Accommodations include a single stateroom sleeping two, complemented by an expansive aft deck configured for alfresco dining for ten and an open plan that prioritizes outdoor entertaining. A custom interior palette of aluminum and warm woodwork, bespoke finishes throughout, and an ingenious convertible lounge that converts seating into an extra berth all contribute to

practical luxury. Climate control is provided by Dometic Marine A/C with a dedicated unit for the cabin, ensuring comfort in every season.

Culinary and entertainment systems are specified to a high standard, with a galley equipped for extended cruising; two slide style fridges with drawer access, a large custom commercial capacity ice maker, a temperature controlled wine fridge, and full galley appliances support effortless provisioning. Audio and ambience are equally considered, with a bespoke Fusion sound system throughout, underwater lighting for dramatic evenings, and LED navigation lighting for safety. Power and systems reliability are supported by a Fischer Panda 5000neo generator with 1,600 hours producing 5 kW, shore power with intelligent battery management, an automatic engine room fire suppression system, and ample tankage—400 gallons of fuel, 110 gallons of fresh water, and a 19 gallon holding tank. Boarding and water access are simplified with a hydraulically deploying passarelle/swim ladder, Bimini shading at both bow and stern, a full mooring cover, and premium stainless steel hardware that completes the yacht's refined exterior. Together, Dutch aluminum craftsmanship and bold customization make IMPULSIVE a distinguished VQ58 Open—its low hours, advanced electronics including thermal imaging, integrated tender garage, convertible interior layout, and expansive refrigeration package creating an ideal platform for cruising between Miami and the Bahamas.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
