## OVERVIEW

---

No Regrets is a commanding 2016 Sea Ray L590—an express motor yacht that marries purposeful performance with refined living and has been attentively maintained. Onboard, three gracious staterooms and two elegant heads provide comfortable private accommodations, while the main-deck salon, adjacent galley, and helm form a fluid, sociable center where guests gather with ease. Al fresco life is equally inviting: expansive aft seating and a tranquil bow lounge invite relaxation, and the hydraulic swim platform carries a like-new Zodiac hard bottom inflatable, ideal for harbor excursions and shoreline exploration, reinforcing this sport yacht's versatile character.

Held in an LLC and thoughtfully enhanced, No Regrets benefits from an upgraded audio system and a FLIR infrared camera to ensure confident night navigation. Propulsion is delivered by triple Cummins QSC 8.3 600 HP engines mated to Zeus pod drives, providing smooth, efficient thrust; aftercoolers, heat exchangers, and pods have recently been serviced to offer turnkey reliability. Joystick control combined with Skyhook GPS positioning makes close-quarters maneuvering intuitive, and the hydraulic platform eases tender handling and water-toy deployment. The included Zodiac tender is powered by a 50 hp Yamaha outboard for spirited shore runs, while an Onan 21.5 kW generator with approximately 665 hours supplies dependable electrical support for extended cruising; comprehensive service records accompany the vessel. Fresh upholstery throughout the salon, cockpit, and bow sunpad—finished with diamond-stitched detailing—elevates the interior and exterior ambiance. Below decks, the full-beam master suite reads as a private sanctuary, featuring an offset queen berth that maximizes usable space, expansive hull windows that flood the stateroom with natural light, and an en-suite head with a separate shower. Forward, the VIP stateroom presents a centerline queen with en-suite access, and the guest cabin offers twin berths that convert to a queen,

giving flexible sleeping arrangements. A dedicated washer and dryer add convenience for longer journeys. The salon itself is bright and airy, framed by panoramic windows and a retractable sunroof, and it flows seamlessly to the cockpit to promote an effortless indoor outdoor lifestyle.

The galley is well-appointed for all manner of dining, equipped with refrigerator, freezer, microwave, and convection oven to accommodate everything from casual breakfasts to elevated evening meals. On deck, the cockpit is designed for conviviality and al fresco dining with newly upholstered seating, a teak table, a wet bar, and a retractable sunshade; forward holds a generous sunpad and additional seating perfect for cruising vistas and sunset watching. The hydraulic swim platform doubles as a teak beach, granting simple water access and making tender operations straightforward.

A refined cruiser with sport coupe lines, No Regrets strikes a poised balance among performance, comfort, and sophistication, offering turnkey systems, thoughtful upgrades, and an inviting layout for both spirited passages and serene days at anchor.

# DETAILED DESCRIPTION

---

## Deck & superstructure

---

The deck and superstructure are crafted in a molded fiberglass composite and finished with a handsome teak overlay across the aft and side decks, all set off by a clean molded white gelcoat that gleams underway. Safe, confident movement is enabled by stainless steel handrails along the house sides and a robust stainless bow rail with a wire mid course, while port and starboard gates integrated into the molded cockpit bulwarks make boarding straightforward. Mooring hardware is plentiful, with stainless steel cleats to port and starboard on the foredeck, aft deck and transom, including two port and two starboard spring cleats to secure alongside berthing. Practical convenience is everywhere: an access deck hatch beneath the sun pad on the cabin trunk serves the VIP stateroom, courtesy lights brighten the side decks, and a recessed sun lounge and bench seat with fitted cushions and cover invite relaxed socializing. Sightlines remain clear thanks to fixed tempered glass windshields and side windows with sunscreen covers, serviced by two pantographic windshield wipers with washers. Overhead, a molded retractable sun roof with a retractable underside shade floods the saloon with sky, while a weathertight hatch in the aft deck opens to the engine room inside the transom seat box. Four panel sliding glass doors connect the aft deck to the saloon, with two panels gliding to starboard for a broad, seamless entry. A molded radar arch supports a welded mast that carries the scanner, masthead and anchor lights, horns, TV antenna, VHF antenna, two KVH HD7 antennas and GPS antennas. Social spaces aft are thoughtfully arranged with molded seating, cushions and cover and a teak tabletop on a lift, complemented by an aft deck wet bar with a Vitrofrigo icemaker and Kenyon grill and a second wet bar with a molded top, stainless steel sink, ample storage, a Kenyon BBQ grill

and a Dometic refrigerator. Close quarters handling is effortless from the aft control station with joystick, and evenings come alive with LED lighting under the canopy that enhances ambiance without overpowering the view.

## Propulsion system & electric

---

Power is delivered by triple Cummins QSC8.3 engines rated at 592 hp, driving pod propulsion with fingertip joystick control and Skyhook station keeping for effortless docking and position holding, while ship's electrical needs are covered by an Onan 21.5 kW Generator Model MDKDR 8123A enclosed in a soundshield for quiet operation.

## Pumps

---

A comprehensive fluid management suite supports safe, comfortable cruising: three Rule automatic bilge pumps in the engine room and one bilge pump beneath the master stateroom are backed by a high water alarm in each compartment. Climate systems are served by a 220V seawater pump with a basket strainer dedicated to the air conditioning system in the engine room, while domestic water is delivered by a 24V freshwater pressure pump mounted atop the heater. A 24V hydraulic pump with reservoir in the engine room powers the hydraulic platform, and a 24V black water discharge pump manages sanitation outflow. Two 24V sump pumps—one in the engine room and one beneath the master stateroom—provide efficient drainage. Laundry and housekeeping conveniences include an Ariston ARWL 129S washer and a TVF 63XS dryer in the guest cabin and two vacuum generator units tucked beneath the cabin sole. Fuel polishing and service are simplified by a fuel transfer pump forward in the engine room with controls run to the helm, plus a Reverso oil change pump with a five valve manifold, and a 24V air compressor with tank in the engine room completes the service package.

## Sanitation system

---

Two freshwater vacuum flush toilets discharge to a black water tank served by an overboard discharge pump, while a deck plate is provided for shoreside pumpout and a tank monitor keeps levels under observation.

## Electronics & navigation equipment at helm station

---

The helm is comprehensively specified with Raymarine communications and sensors, including a Raymarine VHF, Raymarine FLIR and two Raymarine multifunction displays that integrate radar, plotter and sounder, complemented by a Raymarine digital depth sounder to keep depth awareness precise. Steering and course keeping are managed through Precision Pilot autopilot control and a Ritchie compass, while an ACR dual beam searchlight with remote controls and a dedicated control panel enhances night time situational awareness. Ergonomic refinements include windshield wiper controls with washer, trim tab controls offering both automatic and manual modes, and a vinyl rimmed steering wheel paired with electric engine controls. An aft control station mirrors the primary engine controls for intuitive docking, and two pedestal mounted helm seats with hinged footrests offer comfort for captain and companion. Safety and systems oversight are addressed by a Sea Fire audio/visual alarm with override, a main engine start/stop panel and dedicated alarms for high bilge water, bilge heat and fuel filter condition. Ground tackle and power functions are at hand with anchor windlass controls and a centralized DC switch panel, and the horn system provides both electric and air operation for assertive signaling.

## Entertainment equipment

---

Onboard entertainment is curated for every occasion: the saloon features a

Samsung TV served by Direct TV/HD, a Bose sound bar, a DVD player and an Onkyo system to create cinema grade evenings, while guests enjoy Samsung TVs with Direct TV and DVD players in both the VIP stateroom and the guest cabin. The master stateroom is appointed with a Samsung TV, Direct TV, DVD player and a dedicated Bose audio system. Outside, a Rockford Fosgate stereo energizes the foredeck lounge, and global connectivity is supplied by KVH TracVision with a control unit located in the main saloon.

## Air conditioning

---

Comfort in every climate is assured by four direct expansion reverse cycle air conditioning units with intuitive digital controls, all served by a dedicated seawater pump with strainer and a neat manifold in the engine room to ensure reliable, efficient cooling whether underway or at anchor.

## Ground tackle

---

Anchoring systems are robust and thoughtfully laid out, beginning with a stainless steel bow anchor roller fitted with a riding pawl to secure the chain. A Quick vertical windlass with wildcat, convenient foot switches and full helm controls makes deployment and retrieval effortless. The ground tackle package includes a Lewmar stainless steel plow type anchor with chain rode and an anchor gripe for positive holding, a forepeak chain locker with two deck hatches for easy inspection, and an integrated anchor washdown system with a hose bib and hose located in the locker to keep the foredeck and gear pristine.

## Main salon

---

Entry to the main salon is through expansive double sliding glass doors from

the aft deck into a bright, contemporary interior appointed with a simulated wood sole, a crisp vinyl headliner and refined flush mount lighting. Large fixed windows are dressed with wood blinds and drapes across the aft doors allow tailored light and privacy. Forward, a stairway leads to the accommodations below while the helm is positioned to starboard with two pedestal mounted helm seats. An inviting L settee forward to starboard, just behind the helm, pairs with a hinged leaf table for adaptable dining or chart work, and a second L settee aft to starboard with two ottomans expands the lounging area for conversation. To port aft, discrete lockers house the entertainment center and an Isotherm wine cooler, and coordinated blinds and drapes on the side windows and aft doors complete the tailored yachting aesthetic.

## Galley

---

The galley is thoughtfully positioned to port forward in the main saloon and features molded countertops with a matching backsplash that marry durability and clean design. A stainless steel sink is paired with a two burner induction cooktop and a Cuisinart microwave/convection oven to elevate onboard culinary capability, while cold storage is generous with one Vitrofrigo freezer drawer and three refrigerator drawers. Well planned storage for tableware, a concealed trash bin and organized cabinets and drawers keep the galley shipshape, and a Keurig coffee setup ensures mornings start with ease.

## Overview

---

No Regrets is a beautifully kept 2016 Sea Ray L590, meticulously maintained and thoughtfully updated to present a harmonious main deck arrangement with three staterooms and two heads below, while at the same level a comfortable salon, a well equipped galley and a confident helm promote effortless indoor outdoor living. Generous exterior spaces include inviting aft seating and a broad bow lounging area, and on the hydraulic swim platform a like new Zodiac hard bottom inflatable awaits, perfect for harbor cruising and spontaneous adventures. Enhancements and attentive care set her apart: she is LLC owned, fitted with an upgraded sound system and a FLIR infrared camera, and powered by triple Cummins QSC 8.3 600HP Zeus pod drives with recently serviced aftercoolers, heat exchangers and pods. Joystick control and Skyhook GPS positioning make close quarters work intuitive, while the hydraulic swim platform simplifies tender handling; the Zodiac tender is propelled by a 50 hp Yamaha for spirited shore runs. Ship's power comes from an Onan generator rated at 21.5 kW showing 665 hours. Service records are available and fresh upholstery throughout the salon, cockpit and bow sun pad elevates both comfort and style. The interior cabin layout balances elegance with guest friendly function: the full beam master stateroom provides a private retreat with an offset queen berth designed to maximize space, large windows that bathe the suite in natural light and an en suite head with a separate shower. Forward, the VIP features a centerline queen berth with en suite access for privacy and comfort. The guest cabin offers twin side by side berths that convert to a queen for flexible accommodations and is thoughtfully equipped with its own washer and dryer for extended cruising convenience. The salon feels bright and airy thanks to large panoramic windows and a retractable sunroof and flows seamlessly to the cockpit to

create an inviting indoor outdoor experience, with newly upholstered seating in a refined diamond pattern. The galley is well appointed with premium appliances, including refrigerator and freezer capacity and a microwave and convection oven, ensuring culinary ambitions are easily met. On deck, the cockpit invites alfresco living with newly upholstered seating, a teak dining table, a well placed wet bar and a retractable sunshade for instant comfort in any weather, while forward the bow offers an expansive sunpad and additional seating—also newly upholstered—making the ideal vantage for sunbathing or savoring the view. A hydraulic swim platform completes the picture, making light work of launching the tender or water toys and providing effortless access to the sea.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
