# OVERVIEW

---

2024 Valhalla V-55 — Supreme Power, Refined Comfort & Offshore Command

The 2024 Valhalla V-55 redefines center-console capability, marrying brute force with yacht-like refinement. Propelled by four 600 hp Mercury Verado outboards, her propulsion package delivers thrilling pace, extended range and confident handling, while the Michael Peters–designed stepped hull maximizes efficiency and produces a quick, dry ride that remains composed even in heavy seas.

Below deck the V-55 reveals accommodations of true cruiser caliber: a well-appointed cabin finished in high-end materials, a fully equipped galley, a private stateroom and an enclosed head with a separate shower—everything required for comfortable long-distance passages without sacrificing performance.

For anglers the layout is uncompromisingly tournament-minded, featuring expansive fish boxes, dual livewells, mezzanine seating with integrated tackle storage and a comprehensive premium electronics suite. The open plan encourages effortless 360° fishability while still offering plentiful guest seating for social days on the water.

By fusing high performance, progressive naval architecture and meticulous craftsmanship, this 2024 Valhalla V-55 stands as a flagship center-console: an elite bluewater sportfish, offshore powerboat and performance fishing platform in one.

# DETAILED DESCRIPTION

---

## Engines

---

Power is delivered by four Mercury Verado V12 engines, each specified at 600 and showing approximately 215 engine hours, a combination that marries authoritative acceleration with the quiet refinement for which the Verado line is renowned.

## Primary features

---

Stability, precision and control define the experience, with a Seakeeper 9 at the heart of the ride, a Mercury joystick with Skyhook for intuitive low-speed maneuvering, and a bow thruster that makes close-quarters handling effortless; anglers will appreciate twin insulated and pressurized 65 gal live wells that keep bait lively all day, while a triple Garmin MFD suite brings navigation, sonar and systems oversight together with seamless clarity.

## Construction

---

The hull's Stepped-V Ventilated Tunnel (SVVT) running surface from Michael Peters Yacht Design is paired with fiberglass and carbon fiber/E-glass hybrid fabrics to achieve an ideal balance of strength and weight, all consolidated by resin infused construction across the structural stringer grid, deck, lower liner, and hardtop for enduring rigidity and a remarkably quiet ride.

## Deck

---

The cockpit is purpose-built for action and comfort with twin insulated 110 gallon fish boxes flanking the Seakeeper to port and starboard, aft facing

mezzanine seating with elegant double diamond stitching, and thoughtful amenities including two refrigerators plus a grill and sink positioned to port and starboard of the aft facing seating; easy boarding comes courtesy of port and starboard dive doors, while a high gloss oval teak cockpit table elevates open-air dining and entertaining.
