OVERVIEW

A striking 2023 BLUEGAME BGX60 marries contemporary Italian design with refined onboard living and exceptional seakeeping to create a luxury motor yacht that is equally thrilling to pilot and serenely comfortable at anchor. At her heart are twin Volvo Penta D13 IPS 1200 engines (2 × 900 HP) that have recorded just 332 hours, delivering whisper quiet responsiveness, IPS joystick precision and confident performance, while Seakeeper gyroscopic stabilization minimizes motion both underway and on station. Measuring 18.21 m overall with a 5.30 m beam, this meticulously specified BGX60 exemplifies a modern crossover between sport cruiser and family cruising yacht, ideally suited to owner operators and professional crews alike.

The interior is bright, airy and thoughtfully composed, with high end finishes and subtle detailing that reflect the marque's craftsmanship. Large sliding glass doors dissolve the line between cockpit and salon and the lower deck lounge, framed by expansive hull windows, is bathed in natural light to create a convivial retreat. A convertible sofa bed and a retractable television allow for cinema style evenings, while a capacious, well appointed galley supports gourmet provisioning and service to the open plan living and dining area. Accommodation comprises a full beam owner's stateroom with a superyacht inspired en suite bathroom, a forward VIP with private en suite, a guest cabin with L shaped twin berths for adaptable sleeping arrangements and a forward crew cabin with a single berth and dedicated toilet to ensure discreet, professional service.

Comfort and convenience are specified for extended cruising: tropical spec air conditioning with reverse cycle heating, an Idromar watermaker, and household appliances including a dishwasher, washing machine and dryer enhance autonomy. Entertaining is effortless with a BBQ/grill, wine cooler and multiple refrigerators in both galley and cockpit, while a comprehensive

entertainment package—LCD TVs, DVD, Fusion stereo, satellite TV and distributed speakers—caters from dawn to late night. Outside, full cushion sets adorn the bow, stern, flybridge/sportbridge and cockpit, while teak decks elevate the side decks, cockpit and superstructure; a cockpit sink and refrigerator, sociable dining table, swim ladder and outdoor shower add practical luxury. Nighttime ambience and safety are enhanced by underwater lighting and courtesy deck lights, boarding is streamlined via a hydraulic gangway, and an electric engine room hatch eases technical access. A concealed tender garage with tender and supports preserves the yacht's sleek profile, and a bow sunshade/canopy integrates stylishly with the distinctive T top.

The helm and electronics are arranged for confidence and control, featuring twin Garmin GPS chartplotters, dual Garmin radars, AIS, autopilot and dual Garmin GHS 11i VHF units with DSC for reliable communication. Navigation is supported by depth sounder, log and compass, with a radar antenna for extended coverage and an additional Garmin MAP 1223 XSV chartplotter providing valuable redundancy. Docking and close quarters handling are intuitive with the IPS joystick, bow thruster and electronic engine controls, while dual helm stations increase flexibility, an anchor chain counter aids precise anchoring and cameras in the cockpit and engine room monitor critical areas. Altogether, this BLUEGAME BGX60 presents as an elegant, performance oriented motor yacht where considered design, advanced systems and luxurious amenities converge for the discerning yachtsman.
