OVERVIEW

Arcadia Yachts was founded on a simple conviction: the sea is for living, not for distant admiration. Aboard the Arcadia Sherpa 60, the award-winning GODDESS OF THE MOON—recipient of the World Yachts Trophies' Most Innovative Yacht at her debut—this philosophy is realised through engineering and design that erase the divide between interior and ocean. Fully opening side windows and a panoramic skylounge deliver uninterrupted 360-degree views, while the interior finishes are conceived to blur the line between salon and horizon.

Nowhere is that intent more apparent than on the aft sea-terrace, a generous 50 square metre outdoor living area that transforms the yacht's stern into an alfresco salon ideal for long lunches, play and quiet anchorage afternoons that larger superyachts cannot reach. A jetski and jet surf are stowed neatly in the aft garage and a Seakeeper gyro maintains calm stability underway and at anchor. Sustainable systems complement the aesthetic, with over 25 metres of solar panels producing around 1.5 kW to run essential systems while on station. For an owner who desires the presence and comforts of a compact superyacht from an 18 metre power yacht without the larger footprint, crew requirements or operating overhead, GODDESS OF THE MOON presents a compelling proposition. Single private owner from new, maintained in pristine condition. VAT paid.
