## OVERVIEW

---

The De Antonio D60 is an 18.5 m premium motor yacht that elegantly melds adrenaline-fueled performance with expansive living quarters. Propelled by four Mercury outboards of 600 hp each, she surges to 50 knots while sustaining a comfortable cruising radius of roughly 300 NM. A sculpted hardtop arches over the open deck, punctuated by broad skylights, generous sunpads, and a fully appointed social area designed for effortless entertaining. Belowdecks, three polished cabins are accompanied by a crew berth, a contemporary galley, and immersive high end AV for relaxed evenings. Advanced navigation systems, precise trim control, and optional Seakeeper gyro-stabilization ensure a secure, silky ride for up to 12 guests, framing the D60 as a luxury motor yacht, sport yacht, performance cruiser, express cruiser, and dayboat powerboat that makes every voyage a memorable escape.

# DETAILED DESCRIPTION

---

## Mechanical & performance

---

Effortless control meets assured performance with automatic trim tabs (flaps) and the Dynamic Trim Control System Zipwake®, working in concert to optimize running attitude, responsiveness, and efficiency across changing sea states. A powerful bow thruster delivers precise low speed maneuvering, while winches for stern cleats simplify tight quarters handling and docking. The automatic stern lifting platform with integrated ladder transforms boarding and water access, and the shore power connection with cable paired to a dedicated battery charger keeps onboard systems topped up at the dock. A Scantrust ATMOS air compressor expands utility for tender toys and maintenance tasks, and thoughtful preparation for the future installation of a Seakeeper preserves the option of next level stabilization without structural rework.

## Navigation & Electronics

---

Prepared for confident passagemaking, the helm centers on a dual 19" navigation system by Simrad that brings charting, sonar, and networked vessel data vividly to life. Clear communication comes via the Simrad RS20 VHF radio with antenna, while a radar maintains vigilant situational awareness. A radar communication dome is already in place as a pre installation (empty) ready for final fit, and a chain counter delivers precise anchor management right from the helm. Underwater LED lights enrich evenings at anchor with an evocative glow, and dedicated air conditioning in the skipper cabin (6,000 BTU) keeps the watch cool and alert in every climate.

## Audio & Entertainment

---

Ambience on board comes alive with a JL Audio interior sound system delivering rich, detailed playback through four saloon speakers, perfectly complemented outdoors by a JL Audio exterior array with six speakers and a subwoofer for immersive deckside listening. When it is time to unwind in privacy, a TV in the owner's cabin awaits for cinematic evenings at sea.

## Climate & comfort systems

---

Year round serenity is assured by a comprehensive air conditioning system, while a robust 20 kW generator supplies abundant, reliable power to support hotel loads and keep every luxury online whether underway or quietly at anchor.

## Accommodation & interior layout

---

Beneath the sleek hardtop, accommodations are thoughtfully arranged for extended cruising. An aft owner's cabin anchors the private quarters, complemented by a forward suite with a double bed, while a separate crew cabin provides two single beds and its own full bathroom for discreet service. A full bathroom with an electric WC serves the main accommodation. Flexible planning also allows a triple cabin layout pairing the owner's cabin with two forward cabins, each appointed with two single beds, tailoring sleeping capacity to mission and crew. Choose the Hard Top version with a double panoramic roof, intentionally configured without a solarium area to maximize interior volume and light. Culinary ambitions are met by a comprehensively equipped interior galley featuring an 85 L refrigerator, sink, cooktop, microwave/oven, dishwasher, and washing machine, while a dedicated saloon bar unit adds a 49 L refrigerator and a convenient sink to keep refreshments

perfectly chilled and close at hand.

## Exterior & deck equipment

---

On deck, a sculpted hardtop integrates a sunbathing area and a smooth gliding sliding roof, while an integrated electric sun awning for the aft solarium, built into the hardtop, deploys shade at the touch of a button. Electric side windows in the saloon welcome sea breezes, and a sturdy swim ladder invites spontaneous dips. The synthetic teak deck in Flexiteek Scrubbed with black caulking lines evokes the warmth of teak with modern durability. Entertaining is effortless with a 30 L electric refrigerator concealed within the aft sofa and a second 49 L electric refrigerator in the saloon bar; note that the latter is not compatible with an ice maker. Protective covers shield both bow and stern areas at rest, and a sun awning for the forward solarium with removable supports creates a private oasis under the sun.

## Mooring & anchoring

---

Shoreline duties are handled with poise by an anchor support, anchor, and chain driven by an electric windlass for fingertip deployment and retrieval. A central bow cleat with winch simplifies bow handling, while retractable stern cleats secure lines without disturbing the yacht's clean aesthetics. The mooring package includes 10 fenders with the embroidered De Antonio Yachts logo and 6 mooring lines (22 mm diameter, 10 m), each bearing the De Antonio Yachts insignia, presenting the yacht impeccably in every marina.

## Lighting

---

Safety and style shine through with Lopolight LED navigation lights for crisp visibility and decorative LED lighting on deck that sets a refined evening mood.

Finishes and materials underscore the yacht's modern character, with a white hull, cushions and upholstery in Morbern Sundance KHAKE, and fresh antifouling safeguarding performance below the waterline.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
