# OVERVIEW

---

EL MAR V captures the hallmarks of Riviera's flagship temperament—sophistication, balance and a stirring sense of performance—reimagined as a Luxury Motor Yacht of unmistakable character. Clad in a refined trio of silvery graphite, jet black and crisp white, she presents a commanding silhouette on the water, expansive and lithe, combining grace with presence. Platinum Edition upgrades refine every surface and interaction, a testament to the painstaking attention to detail expected of a premium Sports Yacht.

The Riviera 6000 SY layout choreographs a fluid progression from cockpit to salon, where hand-finished timber grains, high-gloss highlights and sumptuous textiles cultivate an ambience of subdued luxury and casual comfort. Panoramic electric sunroofs open with the lightest touch, inviting daylight and salt-touched air to enhance the immersive yachting experience true to the finest Express Cruiser lineage.

Practical design converges with contemporary innovation in the triple joystick docking arrangement—two ergonomically placed in the cockpit and a third at the helm—allowing assured manoeuvring in any marina. A dramatic black-and-silver command center houses a glass-bridge navigation suite with the latest instrumentation, while Alcantara- and leather-trimmed Recaro helm chairs provide precision ergonomics and lasting comfort, hallmarks of a refined Performance Yacht.

Propelled by advanced Volvo Penta IPS950 units, EL MAR V delivers hushed, efficient passage-making backed by modern engineering. Below decks, accommodation is generous and thoughtfully appointed: three serene staterooms and three designer ensuites, each fitted with its own shower, alongside a versatile utility room. The result is a Sport Yacht of impeccable lineage—elegant, contemporary and crafted for effortless cruising.

# DETAILED DESCRIPTION

---

## Technical details

---

Built in 2022 by Riviera Australia, this 6000SY presents a refined blend of contemporary styling and proven build quality, its modified V-hull in fiberglass paired with a GRP superstructure and composite fiberglass decks that lend the silver hull a distinctly modern profile. Measuring sixty feet overall with a beam of seventeen feet eight inches, a minimum draft of five feet and approximately eighteen feet of air clearance, the yacht displaces 59,445 lbs and feels impeccably balanced underway. Twin Volvo Penta D11 IPS 950 inboard diesels, each rated at seven hundred twenty-five horsepower, deliver confident performance with a comfortable cruising speed around twenty-three knots and a maximum of twenty-nine knots. Tankage is generous for extended cruising, with eight hundred seventy-two gallons of fuel, two hundred eleven gallons of fresh water and a 132-gallon holding tank, while accommodation is arranged across three beautifully appointed cabins that combine privacy with elegant living spaces.

## Stern & swim platform

---

The experience begins at the hydraulic swim platform, a broad and thoughtfully engineered waterside terrace that invites swimming, watersports and effortless launching of the jet tender from the integrated tender garage. With a single touch the platform lowers into the sea to simplify boarding, while a concealed swim ladder deploys smoothly when required. Twin aft docking stations complemented by stern-facing cameras place precise control at your fingertips, making tight marina berths far easier to negotiate and enhancing confidence when manoeuvring in close quarters.

## Cockpit

---

Step into the cockpit lounge where refined comfort and open air entertaining converge in seamless harmony. A plush wraparound settee traces the aft perimeter and embraces a high-low electric table that rises for elegant dining and lowers to create an expansive sun pad for languid afternoons. Just steps away, the fully equipped wet bar invites alfresco feasts with dual electric grills, a sink, an ice maker and a refrigerator, while above a sleek hardtop with a retractable sunroof lets you dial in shade or sunshine exactly as the moment demands, delivering a versatile entertaining area that performs equally well for intimate gatherings or lively social occasions.

## Main deck interior

---

Slide open the wide stainless steel framed glass doors and discover an open plan saloon that flows effortlessly from the cockpit, creating a single generous living space. Aft, the galley is a chef's domain, appointed with Miele appliances including an oven and induction cooktop, abundant refrigeration, sleek cabinetry with deep stowage and stone countertops that blend durability with refined good looks. Moving forward, the saloon is bathed in natural light from expansive side windows and an electric sunroof, with rich high gloss timber detailing and inviting lounges to port and starboard. At the fore, the helm station is arranged for confident command, featuring twin Recaro leather seats, full digital displays with Volvo Penta IPS joystick controls and a soft touch, glare reducing dashboard that keeps focus and comfort at the helm in all conditions.

## Master stateroom (midship)

---

Descending below, the full beam midship master is a sanctuary of space and

serenity, anchored by a king sized berth, a generous walk in wardrobe and a graceful chaise lounge that together create a residential ambience at sea. Soft ambient lighting, premium textiles and considered designer finishes cultivate a tranquil retreat, while the ensuite is impressively scaled with dual his and hers sinks, a separate rainfall shower and high end fixtures that elevate everyday rituals into moments of luxury.

## VIP stateroom (forward)

---

Forward, the VIP suite offers a bright and comfortable retreat with a queen berth, excellent headroom, generous storage and private access to the ensuite—an ideal haven for second owners or discerning charter guests who value privacy and a well appointed sleeping area. The layout balances openness with seclusion, ensuring guests enjoy both light and tranquillity.

## Additional guest cabins

---

To starboard, a twin bunk cabin is perfectly suited to children or additional guests and shares a convenient day head to ensure flexibility on longer passages, while adjacent to the master a useful utility room can be configured as a dedicated crew cabin with separate access, tailoring the yacht to your preferred service model and extending practical functionality below decks.

## Engine room & performance

---

Accessed via a cockpit hatch, the immaculate engine room reveals twin Volvo Penta D11 IPS950 engines that deliver spirited performance and reliable power. According to the equipment layout, this installation achieves a top speed of twenty eight knots with an effortless cruise around twenty knots, while ride quality remains notably smooth, quiet and supremely maneuverable

thanks to IPS drive technology, intuitive joystick controls and an advanced hull design that rewards the helmsman with precision and poise in a variety of sea conditions.

## Foredeck

---

The sporty hardtop with retractable sections evokes the freedom of an open air flybridge, inviting you to open the yacht to the sky when the mood suits. On the foredeck, adjustable sun pads, integrated cupholders and discreet speakers compose a secluded lounge where guests can soak up sun-drenched afternoons or enjoy intimate evening cocktails with the best view on board.

## Disclaimer

---

The details of this yacht are offered in good faith, but no guarantee is made regarding the accuracy of the information or the vessel's condition. This offering is subject to prior sale, price change or withdrawal without notice. The information is provided as a convenience to prospective buyers and does not constitute a substitute for inspection or independent verification; interested parties should undertake their own enquiries and sea trials to satisfy themselves as to the vessel's condition and specifications.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
