## OVERVIEW

---

Powerful yet refined, the new S60 carries forward the S Class tradition with an exterior that is both sleek and purposeful. Its clean lines and gracefully sculpted hull windows give the yacht a dynamic, agile silhouette, while an optimized hull design enhances fuel efficiency and allows for top speeds of up to 32 knots.

At anchor, generous deck expanses invite leisure and conviviality: a foredeck seating and sunbathing area offer panoramic repose, and a capacious stern garage provides easy launch and secure storage for a tender or jet ski. The main deck welcomes with a galley positioned aft that flows seamlessly into an open-plan dining space; sliding doors and a fully retractable window dissolve the boundary to the cockpit and amplify the social atmosphere.

Below decks, accommodation for six guests includes an en suite full-beam master stateroom and two further guest cabins, each appointed for comfort and privacy. Combining iconic styling, exceptional engineering, and meticulous craftsmanship, the S60 promises an unforgettable cruising experience. Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that defines luxury and elegance.

# DETAILED DESCRIPTION

---

## Section name

---

This yacht is equipped with a range of premium features designed to enhance your maritime experience; at the heart of its stability system sits the Seakeeper NG9 stabilizer, which delivers exceptional roll reduction and a notably smoother passage even in choppy seas. The twin diesel propulsion has been meticulously maintained and shows only 630 hours of operation, promising dependable performance and longevity for many voyages ahead. For entertainment and connectivity the yacht is fitted with SAT TV so you remain connected and entertained wherever your travels lead, while underwater lights create a captivating evening ambiance, casting the water around the hull in a soft, alluring glow. For close-quarters maneuvering two docking cameras provide enhanced visibility and confidence when approaching berths, making docking both safer and more effortless. Together, these features combine to offer a luxurious, seamless yachting experience that marries comfort, safety and refined technology.

## Galley

---

The galley of this yacht is designed with both style and functionality in mind, featuring a stunning Avonite countertop in Carrera White that lends a sleek, modern aesthetic perfectly in tune with the vessel's refined interior. Practicality is addressed with an integrated garbage disposal system that makes cleanup effortless during extended cruises, allowing the galley to remain immaculate and efficient under all conditions. This thoughtful combination of elegant surfaces and useful appliances ensures the galley serves as both a beautiful and highly functional heart of onboard culinary life.

## Heads

---

The heads on this yacht are a testament to refined design and practicality, with bathroom worktops fashioned from Koko White accented by Carrera White details to create a sophisticated and harmonious look that uplifts the space. Durable tile floors add both style and ease of maintenance, ensuring the heads remain fresh and resilient through regular use. These premium materials and considered design come together to make the heads a luxurious yet practical sanctuary that enhances comfort and elegance for everyone on board.

## Layout

---

The layout of this yacht is thoughtfully arranged to maximize comfort and convenience, with particular attention paid to the starboard cabin where an inboard berth incorporates an electrically powered sliding mechanism for effortless adjustment. This intelligent feature allows guests to tailor the sleeping area to their needs with a touch of sophistication, enhancing usability and flexibility within the cabin. The integration of such advanced, user-friendly technology ensures that the living spaces are adaptable and luxurious, elevating the overall onboard experience.

## Color scheme

---

The color scheme of this yacht exudes elegance and sophistication, with interiors upholstered in quartz leather that brings a contemporary yet durable finish to seating and surfaces. Quilted bedding and upgraded pillows introduce additional texture and comfort, creating an inviting atmosphere that encourages relaxation and indulgence. Every element of the palette has been curated to harmonize and elevate the onboard environment, resulting in a cohesive and stylish interior that complements the yacht's premium character.

## Hull color

---

The hull color of this yacht is a pristine classic white that conveys elegance and purity as the vessel moves through the water, while tasteful Oyster Grey accents are applied in strategic areas — the cockpit wetbar, the GRP section forward of the flybridge steps, and the sportbridge helm — adding depth and contrast to the overall silhouette. These subtle grey touches enrich the visual composition and reinforce the yacht's refined, contemporary aesthetic, ensuring it presents a harmonious and distinctive profile at sea.

## Interior furniture

---

The interior furniture of this yacht is fashioned from luxurious walnut wood finished in a satin sheen, offering warm natural tones that imbue the cabins and common areas with an inviting sense of refinement. The satin finish gently highlights the wood grain, providing subtle luster and an enduring elegance that complements the yacht's overall design. Such carefully selected materials and craftsmanship create an ambiance of timeless luxury, inviting occupants to linger in comfort and style throughout their voyage.

## Bilge system

---

The bilge system of this yacht is engineered for efficiency and reliability, featuring six automatic electric bilge pumps positioned to provide optimal water removal and to maintain a dry bilge area under varying conditions. Complementing the automatic arrangement is a high-capacity manual bilge pump with a valve system and dedicated bilge suction points located in the same region, ensuring a robust manual backup when needed. This dual approach to bilge management underscores the vessel's commitment to safety and operational readiness, delivering peace of mind during extended

passages.

## Deck fitting

---

The deck fitting of this yacht has been crafted to blend practicality with luxury, featuring teak laid on the transom platform, cockpit deck, sportbridge stairs and side-deck stairs to provide both sophistication and durable underfoot comfort. A reversible electric anchor winch operable from the foredeck and helm simplifies anchoring operations, while a self-stowing Delta anchor of thirty-two kilograms with forty meters of chain delivers secure holding in a variety of seabeds. The foredeck is thoughtfully arranged with seating and a sunbathing area for relaxation, and sturdy stainless-steel cleats, fairleads and handrails contribute to the yacht's robust construction. A remote-control searchlight enhances visibility, and a freshwater deck and anchor wash system keeps the exterior clean, with dedicated lockers for ropes, fenders and foredeck sunbed cushions ensuring tidy storage. LED deck-level lighting softly illuminates the deck for evening gatherings, making every outdoor moment both safe and atmospheric.

## Deck hardware

---

The deck hardware is specified to enhance convenience and comfort on every outing, with third station controls in the cockpit that include engine controls, thruster controls and emergency stops to provide comprehensive local command. An additional twenty meters of ten-millimeter anchor chain extends anchoring flexibility, and the forward salon benefits from an electrically operated sliding roof with standard skylights and blinds to invite natural light and ventilation on demand. For shade and comfort an electrically operated sun awning extends over the aft end of the cockpit, while side boarding gates ensure easy access. A teak coffee table with a deck-mounted fixing point

elevates the foredeck's social space, creating an elegant focal point for relaxation and entertaining in any conditions.

## Audio and video communications

---

The audio and video communications package on this yacht is curated to deliver premium entertainment across all guest areas: the salon features a forty-eight inch LED TV paired with a Harman Kardon five point one Blu-ray system to provide an immersive cinematic experience, while the sportbridge is equipped with a weatherproof radio/iPod/MP3 player and waterproof speakers so music can accompany every outing. The master suite offers a forty inch LED TV with a Harman Kardon two point one Blu-ray system for intimate high-quality entertainment, the VIP stateroom includes a thirty-two inch LED TV with a radio/DVD player, and the starboard stateroom is fitted with a twenty-eight inch LED TV and radio/DVD player, ensuring every guest enjoys accessible, refined audio-visual comfort throughout the vessel.

## Navigation equipment

---

The navigation equipment aboard this yacht represents a premium Garmin Electronics Package that supersedes the standard suite, delivering advanced situational awareness and control. At the lower helm a Garmin GPSMAP 7616xsv chartplotter/GPS provides precise charting and route planning, while each helm is outfitted with two Garmin GPSMAP 7616 displays so critical navigational information is always clearly visible. A Garmin GMR 624 xHD2 six kilowatt high-definition radar with a four-foot open array offers exceptional radar imaging and target tracking, and the Garmin GHP20 marine autopilot ensures smooth, reliable course keeping. Garmin GMI20 marine instruments supply essential performance data, communication is enhanced via the Garmin VH300, and an external Garmin GPS antenna linked to the Garmin

backbone secures accurate positioning for confident seamanship.

## Electrical

---

The electrical fit-out on this yacht is focused on comfort, convenience and safe operation, replacing standard electric horns with powerful air horns for a commanding presence. A central vacuum system streamlines cleaning, while an icemaker in the saloon keeps refreshments ready on demand. Electrical safety and efficiency are enhanced by a galvanic isolator fitted to the secondary shore support isolation transformers, and a Glendinning Cablemaster simplifies shore power connections and cable management. Practical onboard amenities include a separate washer and dryer in the master stateroom lobby and an electric Kenyon BBQ at the sportbridge wetbar for alfresco cooking. An exterior lighting upgrade adds deck-level lights to the side decks, transom and sportbridge deck, includes an illuminated Crown logo on the transom face and additional stern docking lights, all contributing to both striking visuals and improved safety during night operations.

## Power and drive systems

---

The power and drive systems of this yacht are engineered to deliver responsive handling and reliable performance, featuring five-bladed propellers made from nickel aluminum bronze that offer exceptional strength, efficiency and reduced vibration. Maneuverability is enhanced by a powerful bow thruster rated at 130kgf/287lbf, while the power-assisted electro-hydraulic steering with a hydraulic backup ensures precise helm response and redundancy. Electronic engine and gear shift controls provide smooth, intuitive operation, dripless shaft seals minimize maintenance and the risk of leaks, and the engine room ventilation is managed by an extractor fan with an electronic time delay to maintain optimal environmental conditions for machinery.

Together these systems form a robust, well-considered propulsion package designed for confident and refined performance on the water.

## Fuel system

---

The fuel system on this yacht is built for long-range cruising with safety and robustness in mind; twin fuel tanks manufactured from NS8 marine grade alloy are interconnected to provide a total capacity of 705 gallons, which is equivalent to 845 US gallons or 3,200 liters, allowing for extended passages without frequent refueling. Fuel fillers are located on both the port and starboard side decks for convenient access, and the system includes high-capacity fuel filters and water traps to ensure the fuel supply remains clean and free from contaminants. For fire safety the engine room is fitted with automatic fire extinguishers that can also be manually overridden, supplemented by hand-operated fire extinguishers to provide comprehensive protection. This well-conceived fuel arrangement supports confident long-distance cruising with operational security.

## Engines and drives

---

The engines and drives of this yacht are outfitted to prioritize performance, ease of service and dependable operation; an integrated oil change system covers engines, transmissions and the generator, simplifying routine maintenance and reducing downtime by enabling quick, efficient oil changes. Variable speed bow and stern thrusters provide exceptional low-speed control and maneuvering precision in berthing situations, making close-quarters handling intuitive and effortless. These features combine to deliver a propulsion and maneuvering package that balances power with serviceability, ensuring the yacht remains responsive, reliable and straightforward to maintain.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
