OVERVIEW

The 2022 Riviera 6000 Sport Yacht, EL MAR V, is a distinguished reimagining of Riviera's flagship sport yacht, where sculpted profiles, carefully curated luxury and dynamic performance come together. Cloaked in a dramatic mix of silver grey, black and white, her Platinum Edition upgrades intensify both visual appeal and onboard serenity. The open-plan interior champions seamless indoor-outdoor living, with superb joinery and expansive opening sunroofs that bathe the saloon in light, while handling is made effortless by three joystick docking stations and a remote yacht controller, enabling command from virtually anywhere aboard. A Seakeeper gyrostabilizer provides steadiness both underway and at anchor, and at the helm advanced instrumentation is paired with Alcantara and leather Recaro seating for precise control and exceptional support. Twin Volvo Penta IPS 950s drive this luxury express cruiser for smooth, quiet and efficient cruising. Below decks, EL MAR V accommodates three refined staterooms, each with its own en-suite, plus a versatile utility space that can be converted into a crew cabin, blending superyacht-level comfort with everyday practicality.

DETAILED DESCRIPTION

Technical details

Built by Riviera Australia in 2022, this 6000 Sport Yacht pairs refined styling with purposeful engineering, featuring a modified V-hull constructed in fiberglass, a GRP superstructure and composite fiberglass decks, all presented in a lustrous silver hull. Measuring 60 ft overall with a generous 17 ft 8 in beam, she draws a minimum of 5 ft and offers 18 ft of air clearance while displacing 59,445 lbs. Twin Volvo Penta D11 IPS 950 inboard units, each rated at 725 hp, provide propulsion that yields a comfortable cruising speed of 23 knots and a maximum of 29 knots. Long-range capability is supported by an 872-gallon fuel capacity, 211 gallons of freshwater and a 132-gallon holding tank. Thoughtfully configured living spaces are arranged across three cabins, delivering a blend of luxury appointments and robust seagoing performance.

Recent services April-June 2026

During April through June 2026 the yacht underwent an extensive program of professional maintenance and aesthetic refinement. Both Volvo engines received full scheduled servicing, and the Onan generator was comprehensively serviced to ensure dependable onboard power. The IPS pod assembly was meticulously attended to and the Seakeeper gyro stabilizer was given dedicated maintenance to preserve exceptional comfort and stability both underway and at anchor. Below the waterline the hull was refreshed with new antifouling paint, PropSpeed was applied to the IPS drives and new zinc anodes were installed to protect critical components. Topsides received a durable ceramic coating to maintain deep gloss and long-term protection, while the teak decks were expertly sanded and sealed to restore their refined appearance. Finally, new propellers were fitted and a set of spare props

supplied to ensure peak performance and added peace of mind.

Stern & swim platform

The hydraulic swim platform unfolds into a generous, carefully conceived area dedicated to swimming and watersports and serves as the launch point for the jet tender stowed in the integrated tender garage. The platform lowers into the water to allow effortless boarding and incorporates a concealed swim ladder for discreet, secure access. For precise close-quarters maneuvering, two rear docking stations and dedicated cameras deliver full control and clear situational awareness when handling the yacht in tight marinas.

Cockpit

Ascend into the cockpit lounge and experience an outdoor living space crafted for refined entertaining. A plush wraparound lounge aft envelops an electric high-low convertible table that glides down to form a generous sun pad. Nearby, the wet bar is fully equipped with two electric grills, a sink, an ice maker and a fridge, enabling effortless alfresco dining. Overhead, a sleek hardtop fitted with a retractable sunroof delivers shade or sun on demand, refining the open-air ambience with precise control.

Main deck interior

The broad stainless steel-framed glass doors glide open to reveal an open-plan saloon that flows seamlessly into the cockpit. Aft, the galley is a chef's sanctuary, fitted with Miele appliances — including an oven and an induction cooktop — and backed by ample refrigeration. Streamlined cabinetry conceals deep storage, while stone countertops bring refined style and everyday resilience.

Forward, the saloon is defined by expansive windows, sumptuous high-gloss timber finishes and plush lounges to port and starboard, with an electric sunroof that bathes the interior in natural light. The helm, positioned ahead, is equipped with twin Recaro leather seats, full digital displays and Volvo Penta IPS joystick controls, all integrated behind a soft-touch dashboard engineered to reduce glare.

Master stateroom (midship)

Descending below decks, the full-beam master suite greets you with a palpable sense of elegance, anchored by a king-sized berth, an inviting chaise lounge and a generous walk-in wardrobe. Soft, atmospheric lighting is sculpted across premium fabrics and bespoke designer finishes to create a serene retreat, while the generous ensuite—equipped with his-and-hers sinks, a separate rainfall shower and high-end fixtures—provides a refined, spa-like experience.

VIP stateroom (forward)

Nestled in the bow, the VIP stateroom boasts a queen bed, generous headroom and plentiful storage, complemented by a private ensuite that enhances both comfort and privacy—an elegant sanctuary perfectly suited to a second owner or to charter guests who appreciate refined accommodation.

Additional guest cabins

A twin-bunk cabin positioned on the starboard side, perfectly suited for children or additional guests, shares a conveniently placed day head, while the utility room adjacent to the master can be converted into a crew cabin with its own separate access.

Engine room & performance

A hatch in the cockpit provides direct access to the engine room, where twin Volvo Penta D11 IPS950 powerplants propel the yacht to a confident top speed of 28 knots while settling into an effortless cruise of around 20 knots. The IPS drive technology, intuitive joystick controls and a finely honed hull form work together to deliver a passage that is smooth, whisper-quiet and exceptionally maneuverable.

Foredeck

The sporty hardtop, fitted with retractable sections, recreates the sensation of an open-air flybridge, while the foredeck amplifies the lounging possibilities with adjustable sun pads, strategically placed cup holders and seamlessly integrated speakers, crafting a peaceful oasis for sunbathing by day and leisurely cocktails as evening descends.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
