OVERVIEW

Absolute 62 Fly (2019) | EU VAT Paid (Italy)

Flag: San Marino | Location: Croatia | Engine Hours: 697

An immaculately kept Absolute 62 Fly presented in exceptional condition, with just 697 hours on twin Volvo Penta D11 IPS950 pods and freshly serviced to be turn key for the season. Thoughtful 2022 upgrades — including a Seakeeper gyro stabilizer, professional radar, Starlink connectivity, a washing machine and a 100 l/h watermaker — elevate both comfort and autonomy, marrying luxurious appointments with practical long range capability.

All exterior walking surfaces are laid in teak and the yacht is outfitted with a hydraulic bathing platform, passerelle and generous aft sunbed to enhance effortless alfresco living, while the flybridge invites sociable cruising and panoramic views. Power management and manoeuvrability are comprehensive: twin generators (19 kW + 17.5 kW), inverter and bow thruster support onboard systems and marina work, and full boat air conditioning ensures cool, quiet interiors even in warm climates; a dishwasher and separate washing machine complete the domestic fit out.

Privately owned, EU VAT paid in Italy and never chartered, this owner run yacht offers four cabins all ensuite, with the aft “crew” cabin finished to the same standard as the others so the layout functions as four generous cabins plus four bathrooms — a full beam master, an angled VIP stateroom and a convertible twin provide flexible accommodation. The bright salon, framed by panoramic glazing, creates a seamless indoor–outdoor flow and the galley is comprehensively equipped and well placed for a smooth galley–cockpit connection.

On passage the 62 Fly lifts onto the plane early — around 12 knots without trim tabs — and settles to an efficient cruise of 20 knots consuming approximately 160 L/h, remaining remarkably hushed thanks to robust

insulation. The engine room affords excellent access for maintenance and the IPS joystick with position hold makes close quarters handling and docking stress free. Clever engineering details such as concealed flybridge drainage and cabling reduce corrosion risk, and a modest 1.52 m draft lets you approach shores that deeper yachts cannot. An elegant synthesis of Italian design, comfort and performance, this planing flybridge cruiser with IPS pod drive offers a refined platform for Mediterranean passages and beyond.
