## OVERVIEW

---

Not for Sale to U.S. Residents while in U.S. waters!

The new Pearl 63 is a refined, family-oriented luxury motor yacht, designed to be straightforward to handle, a pleasure to own and carefully detailed for everyone aboard. At 63 feet, this performance motoryacht introduces thoughtful refinements, most notably a reconfigured aft cockpit that brings you closer to the water. Two convertible high / low coffee and dining tables increase adaptability, while fold / out side balconies enlarge the cockpit footprint, producing a more expansive, breezy outdoor lounge perfect for relaxed entertaining and family cruising.

Inside, the Indulgence interior by Kelly Hoppen marries elegant styling with intelligent innovation, creating a serene, contemporary ambience. Propulsion is provided by twin Volvo Penta IPS 1350s rated at 1,000 hp each, offering sharp performance, joystick control for intuitive handling, and effortless maneuvering. Interceptor trim correction and a 130 kgf Side / Power bow thruster further hone the ride for confident, smooth control. Backed by Pearl's class / leading five / year warranty, this modern IPS / driven motor yacht is destined for coastal adventures and luxurious escapes.

# DETAILED DESCRIPTION

---

## Hull & deck

---

Pure lines and purposeful detailing define the exterior, beginning with a white hull accented by coloured gelcoat elements on the flybridge, hardtop, foredeck and cockpit, while continuous teak decking flows through the cockpit, up onto the flybridge and across the bathing platform where a refreshing swimming shower awaits after a dip. Forward, a generous sunpad with adjustable headrest is paired with a foredeck seating area and a fold away teak table sheltered beneath a Bedouin style foredeck bimini, creating a serene haven for daylight lounging. Aft, the cockpit presents a sociable seating arrangement with a teak table mounted on two powered aft deck table legs, and the flybridge mirrors that convivial atmosphere with its own expansive seating and teak table beneath a hardtop with electric sunroof. Practicality is woven into every detail: a searchlight with flybridge controls, a 2000 W Lewmar anchor winch matched to a stainless steel Delta anchor, and a garage with a hydraulically operated door that conceals a jet ski trolley on a slide out track system. Fold down cockpit wings expand your waterside terrace, side boarding access gates on both sides of the aft cockpit simplify embarkation, and a convenient side door from the lower helm speeds movement on board. An aft flybridge sunpad arrangement conceals capacious storage beneath, and a full set of external covers in charcoal grey protects every surface when you step ashore.

## Interior & accommodation

---

Inside, the “Indulgence” interior design scheme by Kelly Hoppen sets a refined tone, complemented throughout by Kelly Hoppen Collection accessories and continuous wood flooring in the saloon and galley, creating an atmosphere of

understated luxury. Overhead windscreen blinds, forward saloon side window blinds and a neatly tailored patio door curtain allow precise control of light and privacy, while tinted hull glass with opening portlights brings in fresh sea air. Climate is comprehensively controlled by tropical air conditioning rated at 108,000 BTU for ambient temperatures up to 40°C, with air conditioning vents fitted to all heads to ensure comfort everywhere aboard. Guests are indulged with four guest cabins and three guest heads, each appointed with sprung mattresses, illuminated wardrobe hanging rails and a discreet security safe. The bi-fold stainless steel framed patio door opens wide to blur boundaries between deck and saloon, where LED TVs in the saloon and master cabin pair with a Fusion audio system for effortless entertainment.

## Galley & wet bar

---

The galley is comprehensively fitted with a space saving combination micro/oven/grill and a 277 L Dometic style fridge freezer, all arranged to serve gatherings large or intimate with effortless efficiency. Up on the flybridge, a perfectly positioned wet bar with sink and cool box complements alfresco living, while a Kenyon electric barbecue elevates open air dining to restaurant standards. Finishing touches include a Pearl crockery, cutlery and towel suite prepared and presented for your first service.

## Engines & drives

---

Confident performance comes from 2 x Volvo Penta IPS 1350 rated at 1000 hp, delivering responsive, efficient propulsion tailored for both coastal cruising and extended passages. Power generation is provided by a Kohler diesel generator delivering 24 kW at 60 Hz, while the Volvo Dynamic Positioning system keeps station with fingertip ease, supported by a 130 kgf Side Power bow thruster and interceptor trim tabs for precision attitude control. A third

control station in the cockpit, including engine and thruster controls, makes docking intuitive, and the Seakeeper SK10.5 gyro stabilizer calms the ride both underway and at anchor. Ground tackle is bolstered by an Ultramarine 45 kg stainless steel anchor upgrade, and routine servicing is simplified by an oil change system for engines and generator together with an in port water connection.

## Electric/hydraulic

---

Engineered for global cruising, the yacht is specified at 110 V 60 Hz to match US requirements and features an Opacmare telescopic passerelle for elegant boarding. The H&B Technics hi/lo bathing platform handles your tender with ease, accommodating a maximum tender size Williams 345, while a Trend Marine stainless steel bifold patio door works in concert with an electrically operated high/low galley aft window to open the saloon seamlessly to the cockpit. Handling is enhanced by a proportional E Series bow thruster in lieu of standard and Lewmar C3 stern winches, and the yacht is pre plumbed and pre wired for a watermaker. Two Glendinning Cable Master units at 50 amps 60 Hz simplify shorepower management, and the yacht carries two pairs of underwater lights—four in total—for dramatic night scenes. Low level LED lights illuminate the side decks, a Lewmar anchor chain counter tracks scope, and entertaining benefits from an icemaker and a Vitrofrigio C51iX flybridge fridge. Domestic convenience includes a Miele washer dryer and a 45 cm Slim Line dishwasher, while security and situational awareness are enhanced by three CCTV cameras. Forward, four pop up foredeck lights create evening ambience. A boost transformer package safeguards shorepower quality, silent flush Tecma electric toilets discharge into a holding tank with pump out system, and pantograph windscreen wipers with wash keep visibility clear, while the hull is protected with antifouling and a precisely defined waterline.

## Navigation

---

At the lower helm a Volvo Garmin 8616 MFD display links intuitively to the saloon's Fusion head unit, mirrored by a Volvo Garmin 8616 MFD display at the flybridge helm to provide consistent situational awareness from both control positions. A fully integrated Garmin navigation system anchors the suite, complemented by a Garmin GMI 20 marine instrument display and a Garmin autopilot Reactor pack visualized directly on the helm screens.

Communications are crisp through a VHF aerial (Pacific LR pro series 2.5 m), a Garmin VHF 315i with GHS 11i active speaker at the lower helm, and a Garmin GHS 11i VHF remote handset with active speaker at the upper helm.

Awareness below the surface is provided by a Garmin DST 800 plastic thru hull transducer for speed, depth and temperature, while a Garmin GMR Fantom 54 open radar scanner watches the horizon. Upgrade: as per the standard package above, the enhanced suite adds two additional Volvo Garmin 8616 MFD displays at the lower helm and two at the flybridge helm, together with AIS 800 and a Garmin GPS GA38 antenna for extended monitoring and safety.

## Audio visual premium AV upgrade

---

Turn up the atmosphere with a deck saloon upgrade that adds an extra pair of flush mount speakers, a soundbar, a subwoofer and a Fusion four channel amplifier for rich, room filling sound that elevates onboard entertainment. In the guest cabin an AV upgrade installs a 24 inch HD TV linked to a Fusion Apollo MS RA670 head unit with two pairs of flush fit speakers, while both the forward and master cabins benefit from Fusion Apollo head units, a subwoofer and a TV soundbar for enhanced private listening. Outside, an exterior AV upgrade brings an additional pair of flybridge speakers, a dedicated Fusion flybridge amplifier and foredeck speakers complete with a Fusion remote

control for effortless zone management. Connectivity on the move is assured by an onboard Pepwave MAX PRO BR1 5G Wi-Fi router; simply insert your own SIM card.

## **Additional equipment**

---

Performance and longevity are enhanced with Prop Speed applied to the IPS drives, reducing fouling and preserving efficiency, while open-cell foamed external upholstery delivers breathable comfort that dries quickly and retains immaculate appearance season after season.

## **The Pearl 5-year warranty**

---

Every Pearl now carries an industry-leading, comprehensive five-year warranty, thoughtfully crafted to safeguard your investment and deliver complete peace of mind for many seasons to come.

## **Disclaimer**

---

The company presents the details of this vessel in good faith, yet cannot guarantee or warrant the accuracy of this information, nor the vessel's condition. Buyers should instruct their agents or surveyors to investigate details they wish to validate. This vessel is offered subject to prior sale, price change, or withdrawal without notice.

## **Pearl 63 mooring package**

---

Ready for the berth from day one, the package includes six inflatable fenders measuring 9 inches by 30 inches (standard), Pearl logo rope with shorepower and fender covers, four 15 m black mooring lines (standard) and two 20 m black mooring lines, plus an electric fender inflator pump to keep everything

under perfect control.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
