# OVERVIEW

---

MAXELINA, 2019 Prestige 590S

Unique Flybridge + Sunroof Configuration

Twin Cummins QSC 8.3 + Joystick

Please be aware: Fenders are visible in the exterior photos due to a staging oversight—they were intended to be removed to emphasize the yacht's graceful lines. Make a statement with this exclusive and highly sought-after 2019 Prestige 590S, a stunning sporty flybridge that effortlessly merges the sleek design of a coupe. Unlike typical S-Line models, this yacht is uniquely equipped with both a flybridge and an electric retractable sunroof—providing a rare combination of open-air thrill and sweeping views. Ideal for those interested in purchasing a yacht at the current boat location, this vessel is a standout in yacht sales.

# DETAILED DESCRIPTION

---

## Section name

---

This yacht is a pinnacle of engineering excellence and opulence, powered by twin Cummins QSC 8.3 engines, each delivering 600 horsepower. Enhanced with a joystick and bow thruster, it offers an exceptionally responsive and intuitive docking experience, especially beneficial in confined and demanding environments. The flybridge is a remarkable highlight, featuring a full second helm station with lounge seating and an electric sunroof in the salon. This unique feature provides sweeping views and the pleasure of open skies and sea, both on the flybridge and within the salon.

The accommodations are exquisitely designed, comprising three staterooms and two heads, ensuring luxurious and spacious comfort. Crafted for long voyages, the yacht offers privacy for both guests and the owner, with a dedicated aft staircase leading directly to the expansive master suite that spans the full beam. The aft-positioned galley, with its retractable window and sliding doors, seamlessly merges indoor living with the aft cockpit. This layout is ideal for entertaining and effortless alfresco dining, allowing natural light and fresh air to permeate the interior, enhancing the sense of openness and connection to the sea.

The exterior is enhanced with magnificent teak decking, stretching from the bow to the hydraulic swim platform and up to the flybridge. An electric tender garage with a smart air compressor is included, though the tender itself is not. The teak hydraulic swim platform with steps facilitates easy water access and tender launching. The yacht is fitted with an upgraded Titanium AC system, providing efficient cooling with superior corrosion resistance, perfect for tropical and saltwater cruising.

Additional features include twin Cummins QSC8.3 engines with Zeus and three

joysticks, refined interior finishes, and a sophisticated A/V package. The Raymarine electronics package is also upgraded, ensuring state-of-the-art navigation and communication capabilities. For added comfort and convenience, the yacht includes an electric shade on the aft deck, a sunshade on the foredeck, and a deployable bimini top on the flybridge. The salon boasts a sunroof opening, and the interior is elegantly designed with expansive windows, an aft galley-up layout, and a spacious three-stateroom, two-head configuration with a separate private full-beam master suite.

Practical features such as a washer/dryer combo, an 85GPH water maker, and a 21.5kW Cummins Onan generator are included. The electrical system is upgraded to meet both US and EU standards. Underwater lights add a touch of sophistication and visibility to the yacht's exterior, making this vessel a perfect fusion of luxury, performance, and practicality.

## Services

---

The yacht has been diligently cared for, with all maintenance current as of May 2025. The Raymarine software has been upgraded, providing the latest advancements in navigation technology. The air conditioning system has been thoroughly descaled and treated with glycol, boosting its efficiency and lifespan. The grey tank pump has been replaced, and new shower pumps have been fitted, ensuring smooth and effective operation. The engine room has been meticulously detailed, showcasing the high standards of upkeep. Furthermore, the yacht has undergone a complete compound, wax, and teak cleaning, maintaining its visual allure and structural soundness.

In November and December of 2024, comprehensive servicing was performed on the yacht's engines, after coolers, heat exchangers, pods, generator, and water-maker, ensuring peak performance and reliability. New batteries were installed for both the engines and the generator, ensuring consistent power supply. The yacht was treated with fresh bottom paint and prop speed, along

with new zincs, enhancing its performance and protection in the water.

In 2023, the mesh of the flybridge deployable bimini top was replaced, ensuring its continued functionality and protection against the elements. This meticulous attention to detail and dedication to maintenance ensures that the yacht remains in prime condition, ready for its next voyage.

## Transom

---

The transom of this yacht seamlessly blends practicality with opulence. It includes a transom door that grants easy access to the teak steps, leading down to a hydraulic teak swim platform. This platform is ideal for water enjoyment and is complemented by underwater lights that enhance elegance and visibility during the evening. The transom is outfitted with tender chocks and a tender garage with an electric door, though the tender itself is not part of the package. For added ease, there is an electric winch and launch ramp, along with an upgraded electric air pump, ensuring smooth handling of watercraft.

The yacht is equipped with two 50AMP shore power cords, ensuring dependable electrical connectivity. A hydraulic passerelle and an integrated telescopic hydraulic teak walkway facilitate seamless boarding and disembarking. The transom also features a dock water intake and a fresh water washdown system, simplifying the maintenance of cleanliness and comfort on board. This array of features ensures that the transom is not only a functional area but also a luxurious extension of the yacht's overall design.

## Aft deck

---

The aft deck of this yacht seamlessly combines practicality with comfort, crafted to elevate your onboard experience. It includes an aft cockpit docking station, ensuring smooth control and maneuverability. The teak cockpit

features a folding table with a cover, providing a flexible area for dining or relaxation. The comfortable cockpit seating is equipped with folding backrests that can be effortlessly transformed into a sun pad for sunbathing. A cover for the aft cockpit seating is provided to protect the area when not in use.

For extra seating, two side chairs are available, and the entire space is adorned with a stunning teak deck. Access to the engine room is conveniently situated on the aft deck, facilitating easy maintenance and inspections. An electric sunshade offers adjustable sun protection, while an electric capstan on the starboard side assists with mooring. The deck is fitted with a freshwater washdown system, simplifying the task of keeping the area clean.

Courtesy lighting is thoughtfully integrated throughout the aft deck, creating a warm and inviting atmosphere during the evening. A cockpit ice maker ensures that refreshments are always within reach, and four cup holders are strategically positioned for convenience. Ample storage is available for all your necessities, and overhead lights provide additional illumination. Boarding doors on both the port and starboard sides allow for easy access to and from the yacht, making the aft deck a truly functional and welcoming space.

## Flybridge

---

The flybridge of this yacht exemplifies luxury and cutting-edge technology, providing an exceptional experience for any mariner. Ascend the elegant teak steps to find helm bench seating with a folding backrest that easily transforms into a sun pad, ideal for sunbathing. Six strategically positioned cup holders ensure that refreshments are always at hand. The foldable sport fly bimini in a sophisticated oyster hue offers adjustable shade and protection from the elements.

Outfitted with state-of-the-art Raymarine technology, the flybridge boasts HD SAT TV satellite antennas and Quantum radar, delivering superior navigation and entertainment capabilities. Searchlight controls and a horn are

conveniently located for safety and communication. Twin Raymarine Axiom multifunction displays (MFDs) provide extensive control and monitoring of the yacht's systems, while joystick controls and a bow thruster ensure precise handling.

Seamless communication is facilitated by the VHF radio, and a phone holder/charger keeps your devices powered and ready. For enhanced security and navigation, a thermal camera is included, offering visibility in low-light conditions. The flybridge is crafted to serve as both a command center and a sanctuary for relaxation, blending advanced technology with comfort and elegance.

## Bow

---

The bow of this yacht is a masterfully crafted area that seamlessly blends luxury with functionality, creating an inviting space for relaxation and enjoyment. The teak side decks and foredeck add a touch of sophistication and resilience, ensuring a safe and stylish journey. At the center of the bow is a sun pad lounge area, featuring forward adjustable backrests that allow for upright seating at the bow table, making it a versatile spot for both lounging and dining.

The teak hi-lo table on the bow enhances functionality, allowing for easy adjustments to meet your needs. Integrated waterproof speakers deliver high-quality sound for entertainment as you enjoy the open sea. A foredeck sail shade with carbon fiber poles provides sun protection, ensuring comfort during the hottest parts of the day.

The bow is equipped with a stainless steel anchor and a Lewmar windlass, ensuring secure anchoring. A bow thruster with a double propeller, delivering 240kgf/529lbf of thrust, enhances maneuverability, making docking and navigation effortless. Protective covers for the bow sun pad and teak table keep these areas in pristine condition. Additionally, four cup holders are

strategically placed for easy access to refreshments, making the bow a perfect blend of luxury, comfort, and practicality.

## Accommodation

---

The accommodation on this yacht is crafted to deliver both opulence and comfort, featuring a layout with three staterooms and two heads, all elegantly adorned in gray oak. The expansive private master stateroom includes an en-suite bathroom, offering a tranquil retreat with plenty of privacy. The entrance to the salon is highlighted by a stunning sliding glass door, which, together with a fold-up window in the galley, creates a seamless flow that connects the interior spaces, enhancing the feeling of openness and light. To ensure comfort in any climate, the yacht is fitted with a robust tropical air conditioning system rated at 87,000 BTU, maintaining a pleasant atmosphere throughout the vessel. This thoughtful design and meticulous attention to detail make the accommodation not only practical but also a luxurious sanctuary for relaxation and enjoyment.

## Galley

---

The galley of this yacht is a triumph of design and utility, providing a space that is both chic and functional for culinary pursuits on the water. The eye-catching countertops in Laminan Greco Black offer a refined and resilient surface for meal preparation. Enhancing the countertops are high-gloss lacquered cabinet doors, which bring a touch of sophistication and modern flair to the area. The stainless steel sink basin is both practical and easy to maintain, ensuring durability and convenience.

Outfitted with top-tier appliances, the galley includes a Miele microwave, celebrated for its dependability and performance. The Villeroy & Bosch dinnerware set for eight is both elegant and sturdy, perfect for hosting guests

on board. A spacious refrigerator/freezer provides ample storage for fresh and frozen items, while the fully functional three-burner cooktop offers a range of cooking possibilities.

Storage is plentiful, with generous overhead compartments to keep the galley tidy and free of clutter. The dishwasher, operating at 110V with a capacity for six place settings, makes clean-up as effortless as the cooking itself. Blinds offer privacy and control over natural light, enhancing the galley's atmosphere. This well-equipped space is crafted to fulfill all your culinary desires while at sea, merging luxury with practicality.

## Salon

---

The salon of this yacht is an opulent and welcoming area, crafted to enhance comfort and pleasure while offering stunning views of the surrounding ocean. A large electric sunroof invites the sea breeze and magnificent skies to fill the room, creating a spacious and airy environment. Expansive wraparound windows provide sweeping views, ensuring the ocean's beauty is always within sight.

On the port side, a folding table is paired with a U-shaped settee, creating an ideal spot for dining or unwinding. The starboard sliding door improves ventilation and aids in docking and line handling, while also granting easy access to the side deck. Additional seating on the starboard side allows for a step-up to the side deck through the sliding door, enhancing the salon's functionality.

Entertainment is seamlessly integrated with a sleek, retractable 45-inch TV and a Bose soundbar, which discreetly tucks away when not in use. A port-side sliding window welcomes the sea breeze, adding fresh air to the salon, while blinds provide privacy and control over natural light. This elegantly appointed salon merges sophistication with practicality, making it an ideal space for relaxation and entertainment on the water.

## Lower helm

---

The lower helm of this yacht is crafted with both practicality and comfort in mind, serving as the perfect command center for ocean navigation. The spacious helm bench accommodates two, allowing the captain and a companion to enjoy the voyage together. At the core of the helm's sophisticated navigation capabilities are the twin Raymarine Axiom multifunction displays (MFDs), offering comprehensive control and monitoring of the yacht's systems.

Communication is effortless with the Raymarine VHF radio, ensuring clear and dependable contact with other vessels and maritime services. The helm features a joystick for intuitive maneuvering, complemented by a bow thruster that enhances precision during docking or navigating confined spaces. The Cummins engine display provides real-time insights into engine performance, enabling efficient and informed operation.

Spotlight controls are conveniently positioned, enhancing visibility during nighttime navigation. This well-equipped lower helm merges cutting-edge technology with ergonomic design, making it an ideal combination of luxury and functionality for any maritime adventure.

## Master stateroom aft w/ private staircase entrance

---

The master stateroom aft, accessed through a private staircase, is a haven of luxury and comfort. At its center is a queen island berth, complete with storage drawers, combining elegance with practicality. Modern wall sconces with integrated reading lights offer ambient illumination, while floating side tables add a contemporary flair. A built-in dresser and a walk-in closet provide ample storage for personal items.

Entertainment is well-provided with a 40-inch LED TV and a Bose soundbar,

creating an immersive audio-visual experience. A slimline credenza enhances the room's sleek design, while spacious U-shaped booth seating surrounds the salon dinette, offering built-in storage for added convenience. Large hull-side windows with portholes and blinds let natural light flood the space, creating a bright and welcoming atmosphere.

The en-suite bathroom exemplifies modern luxury, featuring a separate glass walk-in shower and a contemporary vessel sink. A mirrored vanity provides ample storage, and the electric head ensures convenience. Portholes and blinds in the bathroom maintain privacy while allowing for ventilation. This master stateroom perfectly blends sophistication and functionality, offering a private retreat on the water.

## Companionway forward leading to VIP/guest staterooms

---

The forward companionway, which leads to the VIP and guest staterooms, is carefully crafted to boost convenience and functionality on board. A standout feature in this area is the Miele washer, running at 220v and 60 Hz, ensuring that laundry needs are efficiently addressed during long journeys. This inclusion highlights the yacht's dedication to offering all the comforts of home while at sea, making it an excellent choice for extended cruising and ensuring guests have a seamless and comfortable experience.

## Vip

---

The VIP stateroom on this yacht serves as a luxurious haven, crafted to provide guests with supreme comfort and sophistication. At its heart lies a queen island berth, equipped with storage drawers, offering both a serene sleeping area and practical storage options. The room is bathed in light from lamps and reading lights, creating a cozy and welcoming ambiance.

Expansive hull side windows with portholes let natural light pour in, while blinds ensure privacy and control over the atmosphere. A generous hanging closet offers ample space for clothing and personal belongings, maintaining a tidy environment. Entertainment is well-provided with a 32-inch TV and a Bose soundbar, delivering an outstanding audio-visual experience.

The stateroom also includes an en-suite bathroom, providing guests with convenience and privacy. This elegantly appointed VIP stateroom merges luxury with practicality, making it an ideal retreat for relaxation and enjoyment on the water.

## Guest head

---

The guest head on this yacht is crafted with both practicality and sophistication in mind, offering a comfortable and convenient space for guests. It features dual entry access from the VIP stateroom and the companionway, ensuring ease of use and privacy. The mirrored storage cabinet provides ample space for toiletries and personal items, while the vanity with sink offers a practical area for daily routines.

Under-cabinet storage further enhances the room's functionality, keeping essentials neatly organized. A window with a porthole allows natural light to illuminate the space, complemented by blinds for added privacy. The separate glass shower is equipped with a bench and shelf, providing a luxurious bathing experience. An electric head adds to the convenience, making this guest head a well-appointed and essential part of the yacht's accommodations.

## Guest stateroom

---

The guest stateroom on this yacht is meticulously crafted to ensure comfort and convenience for its occupants. It features twin berths, providing a cozy and restful sleeping arrangement for guests. Natural light floods the room through

a window with a porthole, as well as an additional hull side window with a porthole, creating a bright and inviting atmosphere.

A hanging closet offers ample storage space for clothing and personal items, ensuring the room remains tidy and organized. The stateroom is equipped with lamps and reading lights, allowing guests to enjoy a good book or simply relax in a well-lit environment. Blinds are included to provide privacy and control over the amount of natural light entering the room. This guest stateroom combines functionality with a welcoming ambiance, making it an ideal retreat for guests on board.

## Electronics and A/V package

---

The electronics and A/V package on this yacht is crafted to deliver cutting-edge navigation and entertainment features, ensuring a smooth and enjoyable journey on the water. At the helm station in the salon, you'll find two Raymarine Axiom 12" multifunction GPS displays, offering extensive control and monitoring of the yacht's systems. Similarly, the helm station on the flybridge is outfitted with two Raymarine Axiom 12" screens, providing the same level of advanced navigation and system management.

To enhance safety and situational awareness, the yacht is equipped with a Raymarine day/night backup camera, ensuring clear visibility in various lighting conditions. Communication is facilitated by the Raymarine Ray91 VHF radio, ensuring reliable contact with other vessels and maritime services. The Cummins interface integrates seamlessly with the yacht's systems, providing real-time data and diagnostics for efficient operation.

Additionally, the Quantum radar enhances navigational precision, offering accurate and reliable information about the surrounding environment. This comprehensive electronics and A/V package combines state-of-the-art technology with user-friendly interfaces, making it an essential component of the yacht's overall functionality and luxury.

## Audio

---

The audio system on this yacht is crafted to provide an extraordinary auditory experience, ensuring that every moment on board is accompanied by premium sound quality. At the core of this setup is the Bowers & Wilkins 220V Audio Pack, celebrated for its outstanding sound clarity and performance. In the cockpit, two B&W Marine 6 speakers deliver powerful audio output, creating an immersive atmosphere for relaxation or entertainment.

The flybridge is similarly outfitted with two B&W Marine 6 speakers, ensuring the upper deck resonates with rich and dynamic sound. In the salon, the audio experience is further enhanced with two B&W Marine 6 speakers paired with subwoofers, delivering deep bass and a full spectrum of sound that enriches any gathering or quiet evening.

At the heart of this advanced audio system is the Atoll multizone receiver and amplifier, featuring touch control and 220V power. This allows for customizable, high-end audio throughout the cockpit, flybridge, and salon, ensuring that every area of the yacht enjoys superior sound quality. This comprehensive audio setup transforms the yacht into a floating concert hall, offering an unmatched auditory experience for everyone on board.

## Entertainment pack includes

---

The entertainment package on this yacht is crafted to deliver a complete and contemporary multimedia experience, ensuring that all guests have access to the latest entertainment technology. At the heart of this package is a 3TB hard disk, providing ample storage for an extensive collection of movies, music, and other media. Connectivity is seamless with the inclusion of a Wi-Fi router, allowing guests to stay connected and stream content with ease.

The yacht is pre-wired for televisions in the salon, master stateroom, and VIP

stateroom, complete with electrical support, ensuring straightforward installation and integration of entertainment systems. An amplified TV antenna boosts signal reception, offering clear and reliable television viewing. Additionally, the yacht is pre-wired for a satellite antenna, providing the potential for expanded viewing options.

For state-of-the-art connectivity, the entertainment package includes Wi-Fi 5G/LTE last generation with PEP Wave, ensuring fast and reliable internet access throughout the vessel. This comprehensive entertainment package is designed to meet the needs of modern seafarers, offering a luxurious and connected experience on the water.

## Engine room

---

The engine room of this yacht exemplifies cutting-edge engineering and meticulous design, ensuring both high performance and convenience. Custom shelving has been installed to boost storage capacity, providing ample room for tools and equipment. The upgraded electric converter system, with thicker gauge wiring, is crafted to meet both US and EU standards, ensuring seamless electrical compatibility wherever your travels take you.

At the core of the engine room are the robust Cummins QSC 8.3 Zeus engines, each delivering 600 horsepower and equipped with joystick control for precise maneuverability. Complementing these engines is a 21kW Cummins Onan generator with underwater exhaust, ensuring reliable power generation with minimal noise and vibration. A 2000W converter further supports the yacht's electrical demands, ensuring efficient energy use.

For enhanced safety and monitoring, thermal cameras are installed, providing real-time visibility and security. The engine room also includes an 85GPH water maker, ensuring a continuous supply of fresh water during long voyages. A galvanized isolator is included to protect the yacht's electrical systems from corrosion, enhancing longevity and reliability. This well-equipped engine room

combines state-of-the-art technology with practical features, making it an essential component of the yacht's overall functionality and performance.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
