## OVERVIEW

---

AY60 Adventure One – Hull 1 is an 18.3 metre expedition catamaran conceived for owners who demand genuine autonomy at sea without compromising on comfort, efficiency or aesthetic refinement. Her sweeping 8.47 metre beam, clever interior layout and a lightweight carbon fibre structural spine deliver outstanding stability, torsional stiffness and generous interior volume, creating a luxurious, seaworthy platform tailored for long range cruising, island exploration, watersports and relaxed family life afloat.

Constructed in Thailand to international superyacht standards, each AY60 reflects over 40,000 hours of expert craftsmanship. The shipyard's experienced craftsmen combine exacting standards, dedication and fine finishing to produce a yacht that is both rugged and elegantly appointed. Hull 1 embodies the Adventure Yachts philosophy: a modern, efficient explorer built around practical passagemaking, outdoor living and an effortless relationship with the sea.

Guest accommodation comprises four well appointed suites sleeping up to eight, complemented by two crew cabins configured to accommodate a captain, steward and cook, ensuring guests enjoy privacy alongside professional service. A voluminous saloon, a seagoing galley with a central island, a sheltered helm station and expansive open decks create a highly functional and comfortable environment for extended bluewater passages.

Designed for quiet, efficient operation, Adventure One is fitted with an integrated solar array producing 8 kW of generation linked to a substantial 164 kWh battery bank. This arrangement enables near silent nights at anchor and reduces reliance on the generator, yielding a more peaceful and environmentally considerate cruising experience.

Adventure and watersports are integral to the design. A streamlined storage

rack integrated into the bimini keeps surfboards and exploration gear secure and protected, preserving uncluttered deck space. Technical systems are equally thoughtful: twin 48 V windlasses and multiple anchoring options give confidence across diverse seabeds and reef conditions, while three drum winches support the tender davit system and forward access ladder. A retractable foredeck ladder provides safe, simple water access for swimming, snorkelling, beach landings or boarding from a tender.

Environmental responsibility is central to Adventure One. Advanced black and grey water management prevents untreated discharge to the sea via six black water tanks totalling 320 litres, high efficiency fresh water toilets and controlled grey water release systems meeting CE certification standards. As a signatory to the Global Tourism Plastics Initiative, Adventure Yachts is committed to eliminating, innovating and circulating its use of plastics by 2030. With carbon reinforced construction, expansive living areas, near silent energy systems, abundant toy stowage and genuine long range capability, AY60 Adventure One – Hull 1 is a versatile cruising catamaran for owners who wish to travel further, linger longer and savour the sea in complete comfort.
