OVERVIEW

The BC60 is a purpose-built expedition power catamaran that draws directly from Bering's explorer yacht pedigree, engineered to take owners farther with confidence. Its hardy aluminum displacement hull provides exceptional stability and uncompromised safety when the seas harden, making it an ideal platform for true bluewater passagemaking.

With a fuel capacity of 13,500 liters, the BC60 comfortably covers in excess of 3,500 nautical miles on extended passages, and generous, thoughtfully integrated storage is distributed throughout the vessel so every necessary supply for long-range cruising can be stowed aboard. Voluminous headroom unifies the interiors — generous high ceilings run through the living areas, salons and staterooms, creating an open, airy atmosphere. The main salon is luminous and spacious, centered around a forward helm station and composed to include a formal dining area and a relaxed lounge. The well-appointed galley is fully equipped with premium appliances to satisfy demanding culinary expectations. An enclosed flybridge functions as a second salon, offering panoramic views and its own dedicated helm for comfortable operation in any condition. The owner's stateroom is appointed with a private head complete with a steam generator, while guest cabins mirror the same sense of comfort and generous volume.

On deck, a hydraulic swim platform raises flush with the cockpit to extend the outdoor living area into a larger terrace, perfect for entertaining or quiet enjoyment of the horizon. For swift transfers ashore, a 5.2m Highfield tender powered by a 70HP Yamaha is carried ready to deploy, and navigation is managed by a comprehensive Furuno suite to ensure precision and reliability on every voyage.

DETAILED DESCRIPTION

BC60 expedition catamaran

The BC60 is an expedition catamaran conceived from Bering's lineage of proven explorer designs, built on a sturdy aluminum displacement hull that offers exceptional stability and a reassuring sense of safety even when the weather turns harsh. With a fuel capacity of 13,500 liters, she is equipped for truly long-range voyaging, capable of cruising in excess of 3,500 nautical miles, while generous, intelligently distributed storage throughout the yacht ensures comprehensive provisioning for extended passages.

Interior volumes are defined by lofty ceiling heights across all living areas, salons, and staterooms, creating an airy, refined environment. The luminous main salon is thoughtfully arranged around a forward helm station and includes a formal dining area and a comfortable lounge, complemented by a fully equipped galley fitted with premium-class appliances. An enclosed flybridge provides an additional living salon with sweeping sightlines and its own dedicated helm station, perfect for relaxed navigation or entertaining with panoramic views.

The accommodation plan centers on a master stateroom that benefits from a private head complete with a steam generator, while guest cabins are generously proportioned and sumptuously comfortable. Outside, a hydraulic swim platform lifts to cockpit level, extending the open deck for seamless access to the water and effortless entertaining. Tender and systems support are robust: a 5.2 m Highfield tender powered by a 70HP Yamaha outboard handles shore transfers, and navigation is managed by a comprehensive Furuno electronics suite.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
