## OVERVIEW

---

On schedule to debut at FLIBS 2026.

Designed for adventurous owners who refuse to sacrifice comfort for capability, this arresting power catamaran marries ocean-crossing endurance with timeless elegance. Expansive social arenas invite both quiet retreat and spirited entertaining—from the commanding flybridge and a deep, hospitable cockpit to sumptuous forward lounges that capture the romance of open water. The main deck is configurable to suit each owner's lifestyle, where a gourmet-ready galley and an expansive salon create a convivial heart at sea. A pantograph door allows seamless passage from salon to foredeck, enhancing circulation while bathing interiors in natural light and framing sweeping panoramic views.

Below decks, serene staterooms evoke restrained sophistication, each appointed with a private ensuite, abundant daylight, and flexible layouts for bespoke arrangements. The owner's suite is a sanctuary of refined luxury, centered on a king-size island berth and finished to superyacht-level standards throughout. As a multihull motor yacht conceived for bluewater cruising and expedition ambitions, this luxury vessel delivers long-range performance with effortless poise—an elegant, category-defining power catamaran.

# DETAILED DESCRIPTION

---

## Key features

---

Engineered for true bluewater ambition, this ILIAD 60 boasts a range exceeding 3,500 nautical miles, marrying transoceanic capability with remarkable fuel efficiency. Choose twin 600HP propulsion from Volvo or Cummins to match your cruising style, then revel in the serene hush of premium construction, panoramic windows, and handcrafted finishes that elevate every passage. A flexible three–four cabin configuration includes a full-beam master suite, while an expansive flybridge—offered open or enclosed—invites long, unhurried days at the bar, dining table, and lounge. Life flows effortlessly from salon to foredeck via direct access, and the hydraulic swim platform/tender lift with 450 kg capacity simplifies tender handling and water play. Twin generators, a tropical A/C system, and advanced navigation suites underpin reliable, climate-controlled comfort, with the optional e-Motion hybrid propulsion system adding whisper-quiet running and enhanced efficiency. From private ownership to commercial charter operations, this yacht is meticulously designed to deliver versatility, endurance, and unforgettable onboard experiences.

## Accommodations

---

The ILIAD 60 welcomes you with a refined, highly adaptable interior conceived for both private luxury and charter versatility. Expansive living spaces unfold beneath sweeping panes of glass, bathing the salon in natural light while premium finishes and thoughtful detailing create an atmosphere of contemporary calm. Owners can tailor the layout to their needs with flexible three–four cabin options, crowned by a full-beam master suite with a king-sized island bed and ensuite, complemented by VIP and guest cabins,

each with its own private ensuite. Optional crew quarters with separate bow access preserve privacy, and the spacious salon—featuring generous U-shaped seating and dining for up to 10—becomes the social heart of the yacht. The fully equipped galley, complete with induction cooktop, dishwasher, and a full-size fridge/freezer, supports effortless entertaining, while Ultraleather upholstery, memory foam mattresses, and custom cabinetry speak to quiet luxury. A pantograph door leads directly to foredeck lounges for sunrise coffee or sunset aperitifs, and the concealed TV lift, motorized blinds, and ambient lighting deliver a seamless blend of technology and mood. For ultimate practicality, an optional utility room, office, or dedicated laundry space can be specified to suit extended cruising or charter operations.

## Electrical and mechanical

---

Purpose-built for serious offshore cruising, the ILIAD 60 unites efficient long-range performance with robust, redundant systems. Select twin Volvo D8 600HP or Cummins QSC 8.3 600HP engines, driving through ZF gearboxes to duplex stainless steel shafts for assured reliability and thrust. Electrical resilience is anchored by 2 x 12 kW Kohler generators with an auto parallel module, while a tropical A/C configuration with dual chilled water units delivering 100,000 BTU keeps every deck comfortable in demanding climates. Maneuvering is effortless with two Side-Power bow thrusters, SeaStar electric power steering, and the Hydrotab interceptor trim system for optimal running attitude. The optional e-Motion hybrid propulsion system adds ultra-quiet capability and further efficiency gains for sensitive anchorages. Fluid capacities and durability are enhanced by stainless steel freshwater tanks and aluminum fuel tanks, with a Sea Recovery Aqua Whisper watermaker producing 221 L/H to sustain extended passages. Navigation can be tailored with advanced Raymarine or Garmin packages, ensuring confident command whether crossing oceans or threading narrow channels.

## Deck features

---

Crafted for effortless outdoor living, the ILIAD 60 presents multiple zones for entertaining and relaxation spanning the cockpit, flybridge, and foredeck, all connected by wide side decks and elevated bulwarks for secure movement underway. The flybridge—available open or enclosed—sets the stage with a carbon fiber hardtop and integrated lighting, complemented by a bar, generous dining, and expansive lounge seating. A large cockpit with servery/bar can be specified with a grill, fridge, and icemaker, while direct salon-to-foredeck access via a pantograph door encourages a free-flowing social rhythm. Forward, spacious lounges with companionway access invite lazy afternoons at anchor; aft, a hydraulic swim platform and tender lift with 450 kg capacity make water sports effortless. Practical touches abound: Flexiteek decking across cockpit, stairs, swim platforms, and flybridge; wide side decks with high bulwarks and stainless steel handrails; abundant storage including stern lockers and dedicated space for SUPs and kayaks. At dusk, six underwater lights, a powerful searchlight, and an electric windlass underscore capable seamanship, while Sunbrella exterior cushions and secure cockpit gates add enduring comfort and safety for families and pets.

## Engine room

---

The ILIAD 60's twin, well-insulated engine rooms are conceived for reliability, accessibility, and long-distance passagemaking, with premium components and built-in redundancy at every turn. Accessed via main deck hatches, each space is lined with Pyrotek sound insulation with perforated aluminum finishes to keep the living areas hushed. Safety is paramount with automatic Novec 1230 fire suppression and integrated alarms, a Racor fuel filtration system serving engines and generators, and twelve high-capacity bilge pumps with high-water alarms. Forced ventilation with air blowers and moisture

eliminators preserves machinery health, while duplex stainless steel shafts, propellers in a nickel-bronze-aluminum alloy, stainless steel rudders, and rope cutters deliver steadfast propulsion confidence. Freshwater pumps feed an 80 L Quick Spa hot water system, and dedicated grey and black water systems with macerator pumps ensure hygienic operation. Engine room cameras and monitoring systems keep watch over critical functions, and a comprehensive bonding system with a copper strip safeguards against corrosion on extended voyages.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
