# DETAILED DESCRIPTION

---

## Introduction

---

Artful Dodger offers a rare chance to own one of the most coveted models from Marlow Yachts' Explorer lineup. Since the debut of the Marlow Explorer 62/66 series, examples seldom appear for resale as owners typically retain them for their superior construction, long-range seakeeping and enduring aesthetic. This 2014 Marlow Explorer 62E marries refined onboard luxury with efficient performance and true offshore capability, designed for the seasoned yachtsman who seeks the space and comforts of a larger yacht while maintaining the confidence and practicality of owner operation. She is propelled by upgraded Caterpillar C18 diesel engines with approximately 800 original hours, and she benefits from Naiad fin stabilization, hydraulic bow and stern thrusters, and a full Garmin navigation suite complemented by FLIR night vision — a package that equips her for serious voyaging. The open flybridge configuration enhances alfresco living and sightlines, making Artful Dodger particularly well suited to Bahamas, Caribbean and other warm-weather cruising, where superb visibility, ample entertaining areas and a close connection to the sea are prized. Unlike some 62E examples fitted with just two staterooms, this Artful Dodger boasts the preferred three-stateroom arrangement plus dedicated crew quarters, providing exceptional versatility for family and guests.

## Accommodations

---

ARTFUL DODGER presents a coveted three-stateroom configuration complemented by dedicated crew accommodations. The interior reflects Marlow's signature traditional craftsmanship, with sumptuous teak joinery, classic teak-and-holly flooring, abundant storage and a steadfast attention to

finish and detail throughout.

## Notable features

---

Powered by twin Caterpillar C18 diesel engines with 800 hours and supported by two Onan 21.5 kW generators (hours to be verified), this yacht delivers solid performance with dependable onboard electrical power. Naiad fin stabilization together with hydraulic bow and stern thrusters provides composed handling and enhanced comfort underway. A comprehensive Garmin electronics suite, featuring Garmin multifunction displays and Garmin radar/navigation systems, is complemented by a FLIR night vision thermal camera to ensure confident situational awareness in all conditions. The open flybridge configuration is elegantly paired with a raised pilothouse, while a Portuguese bridge and a large covered aft deck emphasize both offshore capability and inviting social spaces. Below decks a three-stateroom layout plus crew presents a full-beam master suite, a forward VIP stateroom and a third guest stateroom with upper and lower berths, all served by a guest head with a separate shower. Rich teak interior craftsmanship and teak and holly flooring extend throughout the living areas, reflecting refined attention to detail. On deck a hydraulic tender davit and a complete tender package expand cruising options, and the shallow draft Explorer hull design combined with long-range cruising fuel capacity broadens the vessel's blue-water potential. Exceptional engine room access simplifies maintenance and instills confidence on every passage.

## Construction

---

Renowned around the globe, the Marlow Explorer Series exemplifies advanced build methodology, marrying efficient performance with formidable offshore capability. Each hull is fashioned from state-of-the-art composite materials reinforced with Kevlar and supported by carbon fiber structural members,

producing an exceptional strength to weight ratio that ensures both responsive handling and lasting durability at sea. Complementing this engineered integrity is the efficient Velocijet hull, which delivers superior fuel economy while permitting a shallow draft for access to skinny waters, all without sacrificing seakeeping or range.

## Aft deck

---

The expansive, covered aft deck presents a generous entertaining salon that encourages unhurried socializing and effortless circulation around the yacht, while broad side decks provide secure passage forward to an authentic Portuguese bridge and polished stainless steel fittings throughout highlight the vessel's superior craftsmanship; from this convivial enclave, direct access to the swim platform makes waterplay and boarding straightforward, and tender handling is made simple by a heavy duty hydraulic tender davit supported by a complete tender package.

## Salon

---

Stepping through the aft double doors, the salon opens into a refined and comfortable living space defined by exquisite teak craftsmanship. Handcrafted teak cabinetry complements a gleaming teak and holly sole, while expansive panoramic windows flood the room with abundant natural light. Plush seating is arranged to promote effortless relaxation beside the entertainment center, and ample, thoughtfully integrated storage ensures the salon remains impeccably organized and inviting.

## Galley

---

A refined galley features polished granite countertops and a complete

complement of premium appliances, including ample refrigerator and freezer capacity, a highly responsive electric cooktop and a versatile microwave/convection oven, all paired with a discreetly integrated dishwasher. Meticulously designed cabinetry and lockers provide abundant storage, ensuring every cooking implement and provision is neatly stowed and immediately accessible while underway.

## Pilothouse

---

The elevated pilothouse grants expansive sightlines and establishes a sophisticated, ergonomically laid out helm ideal for extended passages, appointed with luxurious Stidd helm seating and a full Garmin navigation suite paired with a FLIR night vision camera to ensure confident operation after dusk. Controls are intuitive and integrated, with autopilot and VHF communications for seamless passage-making while CAT electronic engine displays present accurate performance information at a glance; Naiad stabilizer controls together with bow and stern thruster controls provide reassuringly precise manoeuvrability. Thoughtful access is provided by port and starboard pilothouse doors, allowing swift and secure entry onto the side decks.

## Master stateroom

---

Occupying the full beam, the master stateroom is designed to deliver indulgent comfort and plentiful storage, centered on a king berth framed by custom teak cabinetry. Cedar-lined hanging lockers maintain wardrobe freshness while expansive drawers accommodate supplies and personal effects for extended cruises. A discreet integrated entertainment system invites effortless relaxation, and the private en suite head, complete with a separate shower, offers a refined, residential-quality level of finish and convenience.

## VIP stateroom

---

Situated at the bow, the VIP stateroom provides guests with a graceful, private sanctuary centered on a comfortable centerline berth and enhanced by finely finished teak cabinetry. Generous storage lockers offer ample room for personal belongings, while a seamlessly integrated entertainment system caters to in-cabin leisure. A private ensuite head completes the suite, delivering effortless comfort and discreet privacy.

## Guest stateroom

---

ARTFUL DODGER's additional guest stateroom provides a refined and welcoming retreat for extended cruising with family, grandchildren or extra guests. Configured with an upper and lower berth arrangement, the cabin is graced with beautiful teak cabinetry and classic teak and holly flooring, and is equipped with a hanging locker plus ample drawer storage. An adjacent guest head with a separate shower completes the accommodation, combining practical convenience with the timeless elegance of traditional maritime craftsmanship.

## Open flybridge

---

ARTFUL DODGER embraces an open flybridge arrangement prized by warm weather cruising enthusiasts, presenting an Open Bridge layout perfectly suited to the Bahamas, the Caribbean and effortless island hopping. From the elevated helm, equipped with Garmin navigation electronics, the captain enjoys unobstructed 360 degree visibility, while guests relax in comfortable seating that flows seamlessly into an inviting outdoor entertaining area. Practicality is matched with dedicated tender storage and a robust hydraulic davit that makes launch and retrieval straightforward.

---

## Engine room and mechanical equipment

---

Beneath decks the Marlow Explorer presents an engine room crafted for superior accessibility and ease of maintenance, where twin Caterpillar C18 diesel engines sit with approximately 800 engine hours on the clock and are backed by twin Onan 21.5 kW generators to ensure reliable electrical power. A Naiad fin stabilization system delivers a notably smoother ride underway, while hydraulic bow and stern thrusters provide precise low-speed control and effortless maneuvering. Routine operation is made straightforward by an integrated fuel management system and a centralized oil change facility, and a sea chest arrangement simplifies raw-water intake for the yacht's essential systems. Climate control is handled by a reverse-cycle air conditioning system for comfortable conditions in any season, and the overall layout emphasizes excellent service access, reflecting meticulous engineering and a considered machinery arrangement.

---

## Broker's remarks

---

ARTFUL DODGER represents a rare chance to own a low-hour Marlow Explorer 62E equipped with the preferred Caterpillar C18 power package, an open flybridge layout, Naiad stabilizers, a full Garmin electronics suite and FLIR night-vision, complemented by a versatile three-stateroom accommodation plan. Showing approximately 800 hours on her Caterpillar engines, she pairs unusually light use with the meticulous construction and seakeeping capabilities that have cemented Marlow's reputation among premier long-range cruising yacht builders. Whether your ambitions include the Bahamas, the Caribbean, the Great Loop or extended coastal passages, ARTFUL DODGER offers the range, efficiency, comfort and confidence expected from a genuine Marlow Explorer.

## Exclusions

---

The vessel's registered name, Artful Dodger, is retained by the owner and will not transfer with the sale. Excluded from the transaction are, but are not limited to, the owner's personal effects and other items of personal property. A comprehensive schedule detailing all exclusions will be supplied at the time of sale upon written request.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
