OVERVIEW

This yacht is a game-changer in the industry. With the advantages of electric propulsion well-established in the automotive world, Silent Yachts is revolutionizing the marine sector. What sets a Silent Yacht apart is its onboard charging station, powered entirely by solar energy.

Following in the footsteps of the Silent 64—the first solar-powered production yacht to cross the Atlantic in January 2018—the 60/62 Series boasts some of the most advanced, efficient, and innovative technology available today. As a multi-award-winning vessel, including the esteemed "Best of Boats Award" for 'Best for Travel,' and a nominee for the 2025 Multihull of the Year, it represents the essence of solar electric yachting. Buyers have the exclusive opportunity to tailor their own custom yacht, selecting the layout, equipment, and features that best suit their needs. This pioneering, self-sustaining yacht is leading the charge in transforming the yachting industry.
