OVERVIEW

The exquisite Princess F62 embodies our commitment to exceptional design and the advantages of cutting-edge infusion technology, allowing for features typically reserved for larger vessels. The flybridge is a sanctuary for relaxation, featuring a spacious dining area, a sunpad at the rear, and a distinctive circular seating arrangement that can transform into an additional sunpad. With a walkthrough foredeck designed for entertaining and a hydraulic bathing platform included as standard, this yacht is a remarkable addition to our F Class collection.

The expansive main deck saloon seamlessly connects to the outside world through full-length side windows, while the inviting galley is situated at the rear, opening directly to the cockpit. The helm is conveniently located to starboard, complemented by additional forward-facing guest seating. Below deck, six guests can indulge in three elegantly appointed en suite cabins, all illuminated by natural light from stylish hull glazing, with the option of an extra twin cabin at the rear for occasional guests or crew.
