OVERVIEW

FNN is a 2013 Marquis 63 Sport Yacht that marries distinguished American boatbuilding with streamlined contemporary lines and confident performance on a sought-after 63 foot luxury motor yacht platform. An expressive and unmistakable Express Cruiser, she projects presence while marrying elegance and practicality with effortless poise.

Designed for owners who prefer a modern sport yacht profile without surrendering creature comforts, she cultivates a refined onboard ambiance through intelligent space planning and a layout conceived for entertaining and extended passages. Boarding reveals an upscale, minimalist sensibility where high grade materials, clean geometry and a fluid relationship between living areas establish an inviting tone. The salon encourages conversation and repose, featuring abundant seating and broad glazing that floods the interior with daylight for an airy, open feeling.

The galley and dinette are arranged for authentic live aboard use—ideal for welcoming guests, swift weekend escapes or lengthier cruising. Sleeping accommodations are laid out to provide both privacy and adaptability, making FNN an excellent platform for family cruising or sophisticated entertaining. Staterooms offer thoughtful storage, contemporary finishes and design solutions that optimize usable volume. Consistent with the Marquis pedigree, ergonomic arrangements, unified styling and exacting fit and finish are evident throughout.

Underway, FNN produces an athletic, responsive ride, augmented by European spec power and owner friendly systems. Her performance yacht manners are matched by exceptional low speed control for docking and tight quarters handling, instilling confidence whether slipping into a busy marina or setting the hook in a confined anchorage. She is built to thrill at speed while remaining composed and comfortable during relaxed coastal

cruising.

For those seeking a standout 63 foot luxury sport yacht with modern character, proven reputation and the versatility of a refined cruising yacht, FNN presents a compelling, category defining choice.

DETAILED DESCRIPTION

2013 Marquis 63 sport yacht "FNN"

FNN is a 2013 Marquis 63 Sport Yacht that distills luxury, performance, and sophisticated design into a singularly desirable offering, and it stands out as the only 63-foot 2013 Marquis Sport Yacht currently on the market with a European power specification. Marquis Yachts, the celebrated American builder, has long been recognized for high-speed, luxury motor yachts that are as comfortable as they are exquisitely crafted, earning World Yacht Trophy accolades and honors at international shows in Monaco, Dubai, and Miami. Every Marquis is hand-assembled by in-house specialists who steward each detail—from interior and exterior design to the creation of ergonomic, inviting living spaces—so that exacting quality standards are met and the experience aboard is unmistakably premium. FNN presents a four-cabin layout for up to seven guests, with a master suite, a VIP stateroom, and two guest cabins blending indulgence with practical liveability for family cruising and effortless entertaining. Twin Volvo Penta IPS engines deliver spirited performance, impressive fuel efficiency, and fingertip ease thanks to integrated joystick docking. In sum, FNN offers a rare opportunity to acquire a 63-foot luxury sport yacht that unites American craftsmanship, contemporary elegance, and a truly elevated onboard lifestyle.

Propulsion and joystick handling

Power comes from twin Volvo IPS D13 diesel engines, each delivering 900 Hp (662 kW) at 2300 rpm for seamless acceleration and assured cruising poise. Counter-rotational, matched 4-blade NiBral propellers, 30 inches in diameter, translate that output into a refined, efficient drive, while four electric stainless-steel trim tabs, each 36 x 9, let the helmsman fine-tune running

attitude for comfort and economy. An underwater exhaust discharge with automatic bypass keeps operation hushed and reduces fumes. For effortless docking and confident close-quarters control, the Volvo Penta IPS joystick system places intuitive, fingertip precision at the helm.

Electrical system and power management

FNN's electrical architecture is engineered for seamless autonomy and intelligent, interruption-free source selection via an Automatic Shore/Generator Switch Gear. Battery reserves are substantial: eight Douglas 8D series marine 12V batteries deliver a 1375-amp cold-cranking rating, 430 minutes of reserve capacity at a 25-amp draw, and a 200 amp/hour rating, apportioned as four for engine starting and four for ship service. They are complemented by two 8D AGM accessory batteries, four 31 Series AGM engine-starting batteries, and one 31 Series AGM generator-starting battery. Charging capacity is equally robust, with an 80-amp accessory charger, a 60-amp accessory charger integrated into the inverter, an 80-amp engine charger, and a 25-amp generator charger. A shore power combiner switch bridging shore power 1 and shore power 2 adds dockside flexibility, while dual Glendinning Cablemasters make handling shore cords effortless. LED courtesy lighting keeps illumination crisp and efficient. A dockside cable television inlet is supplied with a 50 ft (15.2 m) white cord. Quiet, dependable onboard generation comes from a 20 kW 50 Hz Kohler generator with sound shield, a dedicated 31 Series AGM battery, a premium electrical system, and automatic power source control.

Water and waste systems

Life aboard is simplified by a practical, compliant water and waste suite that includes an overboard discharge system for legal disposal where permitted,

fresh-water washdown only to keep decks and gear spotless, and a convenient cockpit shower that makes returning from the swim platform effortless and comfortable.

Safety and navigation

FNN is equipped with a comprehensive Bridge and Lower Helm Navigation Package with radar, complemented by a Bridge and Lower Helm Monitor System that keeps critical data clearly visible at both stations. Autopilot support eases long passages with steady, fatigue-reducing course-keeping, while a Ritchie Navigator 4.5-inch (11.4 cm) illuminated, flush-mount compass provides steadfast analog reference whenever desired.

Exterior amenities and deck equipment

The exterior balances style and purpose with Aston Brown Metallic Paint above a protected black hull bottom, underwater lights that transform evenings at anchor, and effortless water access via a hydraulic lifting platform, swimming ladder, and passerelle. The bridge invites open-air living with lounge seating and a sunpad beneath a hardtop with an opening sunroof, while an Exterior Upgrade Package elevates key details and a bridge stereo sets the mood for entertaining. Teak decking on the swim platform adds warmth and secure footing. Helm and seat covers preserve finishes between voyages, a cockpit table anchors relaxed alfresco dining, and a foredeck sunpad creates a serene forward retreat. Entertaining is further supported by a bridge wet bar with a single grill, ice maker, and refrigerator. Ground tackle is resolute: a windlass with capstan and a complete package centered on a Quick Antares 1500, paired to a 75 lb (34 kg) stainless-steel plow anchor and 300 ft (91.4 m) of 3/8" (9.5 mm) Grade 40 chain. Dual stern capstan winches and robust mooring cleats underpin confident docking and anchoring, while exterior décor pillows

and a dedicated bridge TV mechanism provide the finishing touches for refined outdoor living.

Interior design and finish

Inside, the Valentina Designer Contemporary Interior is paired with rich walnut that introduces warmth, depth, and sophistication throughout, while the layout prioritizes ergonomic flow and everyday practicality so extended cruising feels modern, elevated, and effortlessly comfortable.

Galley and culinary setup

Purpose-built for serious onboard living, the galley features granite countertops with matching granite flooring for enduring elegance, alongside plentiful electrical outlets to support modern appliances and effortless entertaining. A built-in Sharp microwave, convection oven, and broiler in brushed stainless steel pair with an electric three-burner range with Ceran top and a brushed stainless backsplash. A brushed stainless range hood with integrated lights, exhaust fan, and outside vent keeps the space fresh. Cold storage is generous courtesy of a Jenn-Air full-size French door refrigerator/freezer with bottom freezer in brushed stainless steel. A two-basin, under-mounted stainless-steel sink simplifies prep and cleanup, and abundant storage—nine cabinets and eight drawers—keeps provisions and cookware impeccably organized.

Accommodations and guest comfort

Configured in the four-guest-cabin arrangement, FNN welcomes family and friends with impressive flexibility. The master stateroom features a 32-inch TV and DVD plus a stereo with Apple iPod dock, while its ensuite brings spa-like

indulgence with a teak shower and teak seat. The VIP stateroom adds a 19-inch TV and DVD with its own stereo and Apple iPod dock. The third stateroom mirrors that setup with a 19-inch TV and DVD and a dedicated stereo with Apple iPod dock. A fourth stateroom expands guest capacity and offers a 15-inch TV for private downtime. For extended cruising convenience, an onboard washer and dryer ensure self-sufficiency.

Crew quarters

Professional support is accommodated in double crew quarters fitted with a 15-inch TV and DVD/radio, along with a crew refrigerator and microwave, keeping the team comfortable and effective on longer itineraries.

European standards and cruising readiness

Certified to meet European standards, FNN expands your cruising horizon across international waters with confidence, pairing premium comfort with the performance, engineering, and systems expected of a true luxury sport yacht.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
