OVERVIEW

The 2006 Ferretti Altura 690 is presented as an exceptional flybridge motor yacht, a luxurious cruiser and bluewater-capable vessel that stands out among offerings today. Kept in superb order year-round by a devoted full time captain, she has benefited from a tasteful cosmetic refresh completed in early 2025: the aft lounge on the flybridge has been newly laid in teak decking, the flybridge seating fitted with new cushions and complemented by an elegant coffee table, and the saloon refitted with two new L-shaped settees (large and compact) each featuring integrated under seat storage. This beautifully maintained example is highly recommended for inspection and is offered in immaculate condition.

DETAILED DESCRIPTION

General description

The Altura name within the Ferretti range stands for true live aboard comfort, with generous volumes and thoughtful design that make extended cruising effortless and inviting—the perfect choice for spending the entire summer at sea with family and friends. Generous for its class, this yacht combines a flybridge, multiple cabins, and substantial onboard amenities to elevate every passage. The Altura 690 is typically configured with three guest cabins: a full beam master aft cabin, a VIP forward cabin, and a starboard twin cabin. The aft master suite is bathed in natural light thanks to wide aft windows that frame the sea and amplify the yacht's serene ambiance.

Specification - standard and optional extras

In the galley, everyday life at sea is effortless, with a dishwasher, fridge, freezer, a 4 unit induction hob, and an oven delivering domestic level functionality in a seagoing setting. On the flybridge, a dual helm station anchors an inviting social deck featuring a long dinner table with a seating area, forward sunbed cushions for unhurried lounging, and an aft teak deck with a coffee table and a comfortable seating group; a liferaft and a bimini top add safety and shade, while a wetbar with a BBQ grill, sink, and mini fridge keeps refreshments close at hand, and a searchlight stands ready for precise night operations.

At the water's edge, the swimming platform is fully equipped with a hydraulic swimming platform, a swimming ladder, and a rainforest shower pole for rinsing off after a dip, complemented by a shore power inlet and a hydraulic passerella for smooth boarding in port. The crew is accommodated with intent and privacy in one cabin with 2 berth and one

bathroom with toilet and shower, supported by a washing machine and a dryer to keep life aboard orderly on extended cruises.

From the cockpit,

control and conviviality meet at a third helm station and a dinner table with 4 foldable tables, expanding seamlessly for larger gatherings. Technical prowess underpins the experience with a bow thruster and stern thruster for fingertip maneuvering, an Idromar water maker for autonomy, air conditioning for climate comfort, a Fisher Panda generator and an inverter for reliable power, an electric windlass for effortless anchoring, and underwater lights to transform evenings at anchor. At the helm station, navigation and awareness are enhanced by a Raymarine chartplotter, Radar GPS, a compass, a depth sounder, a speed log, and a satellite antenna. Essential systems include an engine alarm, a bilge alarm, an anchor, a water pressure pump, and robust batteries, while a special colour finish, twin steering, a directional spotlight, hydraulic flaps with flaps indicators, a fire extinguishing system, and courtesy lights round out a specification that balances safety, performance, and style.

Entertainment flows throughout with marine speakers across both exterior and interior areas, TVs in the cabins, and an LCD TV in the saloon with an elegant electric rise and fall system, complemented by a refined hi fi and a DVD player to set the tone for every moment onboard.
