DETAILED DESCRIPTION

Description

The Lagoon 630 MY, Sona 1, redefines life at sea with the generous footprint of a waterfront villa and the freedom of long range cruising, its wide beam catamaran platform delivering an exceptionally smooth, stable ride while expansive indoor-outdoor living areas create a sophisticated stage for entertaining, relaxing, and effortlessly extending your time aboard. A commanding flybridge with panoramic views, multiple lounging zones, and a seamless flow to the aft cockpit and foredeck provides versatile spaces for every moment of the day, from sunrise coffee to golden hour gatherings, while inside a bright, open salon invites conversation and connection, its lofty volume framed by large windows that keep you immersed in the scenery. Thoughtfully conceived for life aboard, the interior offers five staterooms and five heads anchored by a panoramic salon with 360° glazing and true residential scale living spaces afforded by the 32 ft beam, and an interior navigation helm station enhances flexibility in all conditions while the owner's suite enjoys a private ensuite bath; four guest cabins each feature their own private head and separate crew quarters preserve privacy for all. The open concept galley is integrated with the salon for a social, seamless flow and is fully equipped for extended cruising and entertaining with a full size refrigerator and freezer, an electric cooktop and oven, generous countertop prep space, and abundant cabinetry storage. Aft, the expansive cockpit blends lounge and dining with direct salon access through sliding glass doors beneath a protective hardtop for cool, effortless living at anchor or underway, and wide access to the swim platform keeps the water within easy reach while the inherently stable catamaran platform remains exceptionally steady at anchor. Electronics, communication, and navigation are comprehensively specified,

with dual Simrad multifunction displays at the interior helm mirrored by dual Simrad screens at the flybridge, integrated GPS chartplotters, an autopilot system, digital depth, speed, and wind instrumentation, a VHF marine radio, AIS capability, and a full navigation helm on the flybridge. The electrical system is engineered for dependable autonomy, featuring a Cummins Onan marine generator, a Victron Energy inverter/charger with integrated monitoring, shore power capability, AC and DC distribution panels, and dedicated engine and service battery banks. Climate comfort is assured by a Dometic chilled water air conditioning control system with multi zone regulation, carefully designed for tropical cruising. Entertainment flows naturally through the yacht with a salon media system, an interior sound system, cockpit speakers, and integrated display connections that keep content and ambiance perfectly in tune with the moment. Underway, twin Volvo Penta D4 300 diesel engines deliver a combined 600 HP to straight shaft inboard drives with electronic throttle controls, providing an efficient cruising speed of approximately 15 knots and a confident top speed around 18–19 knots. For adventures ashore and on the water, the tender package includes a Bénéteau Flyer eight center console ideal for guest transport and watersports, complemented by a Highfield rigid inflatable tender with a Mercury SeaPro outboard engine. Essential onboard pumps and systems are specified for reliability and safety, including port and starboard freshwater pressure pumps, a deck wash pump, a multi zone bilge pump monitoring system with automatic bilge alarms, and battery isolation switches.
