OVERVIEW

The 2026 Galeon 620 FLY is a flybridge motor yacht powered by twin Volvo Penta D13-1000s, marrying spirited performance with elegant onboard living. Inside, three spacious staterooms offer secluded comfort while expansive social zones create an inviting atmosphere for entertaining and relaxation; when you want to blur the line between salon and sea, the Beach Mode fold-out balconies extend the living space directly over the water. A Seakeeper 9 stabiliser delivers calm underway, and navigation is entrusted to premium Raymarine systems, ensuring confidence on every passage. Underfoot, warm teak soles complement the yacht's carefully chosen Ocean Eucalyptus décor, resulting in an interior that feels both refined and welcoming. Crafted for memorable escapes, the 620 FLY presents a seamless blend of comfort, innovation, and poised sophistication.

DETAILED DESCRIPTION

2026 Galeon 620 fly

Step aboard the 2026 Galeon 620 FLY and experience a motor yacht that pairs commanding performance with inventive design and exquisitely finished living spaces. Propulsion is provided by twin Volvo Penta D13-1000 diesel engines producing a combined 2,000 horsepower, ensuring confident handling and exhilarating passage-making. Galeon's distinctive Beach Mode expands the cockpit by lowering both side balconies to form an extraordinary waterside entertaining platform, while openable side rails further improve sea access. A private side entrance links the port balcony directly to the full beam master stateroom, and the inclusion of the Lounge Mode Package, abundant aft cockpit seating, and a dining table sized for eight guests highlights this yacht's innate talent for hosting family and friends in comfort and style.

The flybridge is designed for memorable gatherings under a fixed roof hardtop fitted with an electric aft sunshade, offering a full helm station, a well appointed wet bar complete with an electric grill and an ice maker, an upgraded audio package, and generous lounge seating. Teak decking extends across the flybridge, cockpit, balconies, steps, and the hydraulic swim platform, the latter rated with a 700 kg lifting capacity to simplify stowage of a tender and water toys. Electrically operated pantograph doors open to the forward deck, a comprehensive exterior cover package protects the yacht when moored, and twelve underwater LED lights cast a captivating glow as dusk falls. Inside, the Mediterranean Design Package introduces an Ocean Eucalyptus Pearl matte finish complemented by artificial wood flooring, bespoke window treatments, and refined ambient lighting. Panoramic glazing fills the salon with natural light, where comfortable seating is paired with a large refrigerator, a wine cooler, and advanced entertainment systems to encourage relaxed

conversation and refined living. Laid out for extended cruising, the interior features three staterooms including a full beam master with ambient LED lighting, a 43 inch television, and direct access to the port side balcony, accompanied by a tastefully appointed forward cabin, a guest cabin, and a separate aft skipper's cabin. At-sea comfort is enhanced by a Seakeeper 9 gyroscopic stabilizer and a chilled water air conditioning system augmented by an additional unit dedicated to the forward galley. Practical systems include an Onan 29 kW generator, a washer and dryer combination unit, a dishwasher, Cablemasters, and comprehensive shore power capabilities.

Navigation and situational awareness are provided by a sophisticated Raymarine suite that comprises two Axiom XL 16 displays and an Axiom2 12+ display with integrated high CHIRP sonar, a Cyclone 4 foot open array radar, CP370 and B744V transducers, and full NMEA 2000 integration. Camera coverage includes a rear view camera and two engine compartment cameras, while a bow searchlight adds reassurance during night maneuvers; dual helm stations—upper and lower—ensure full command from either the main deck or the flybridge.

Everyday living and entertainment are thoughtfully catered for with electric sliding 43 inch televisions in the salon and the aft salon facing the cockpit, additional 43 inch televisions in the master and forward staterooms, a large refrigerator in the aft salon, a galley dishwasher, and a salon wine cooler. Comfort and convenience are further enhanced by a washer and dryer combination unit, the choice of wooden shutters or Roman blinds in the cabins, heat protection window tint, mosquito screens, and a fitted sheet set for the guest staterooms. The sound system has been significantly upgraded with Fusion and JL Audio components, G3 Acoustics surface sound technology integrated into the salon and galley headliner, Fusion RA770 subwoofers, a dedicated flybridge remote, JL Audio speakers in the cockpit and flybridge, and a separate Fusion system at the bow to ensure a rich audio experience throughout the yacht.

Ownership of this 2026 Galeon 620 FLY delivers more than prestige; it opens access to a full boating lifestyle with options for expert guidance, boating classes, curated customer events, prominent boat shows, and exclusive Getaways trips. Additional owner benefits may include a full tank of fuel, a Go Boating Gear kit, competitive trade evaluations, and attractive financing solutions. For further information or to arrange a private viewing, please contact us.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
