OVERVIEW

A 2017 VPLP-designed 64-foot luxury catamaran, evolved through the refined sensibility of Nauta Design, she embodies a rare synthesis of speed, comfort, and aesthetic restraint. Lying in Indonesia—the perfect launching point for the region’s most seductive archipelagos—this yacht is conceived for effortless island-hopping and true bluewater passages, her generous stability and living volume defined by a 32-foot beam that gives both space and serenity underway.

Built in hand-finished fiberglass composite, her construction combines meticulous craftsmanship with durability, and a low, shallow draft of just under four feet invites exploration of lagoons and hidden coves that deeper keel vessels can only admire from a distance. Propelled by twin Volvo inboard diesels, she cruises confidently at 12 knots and will respond when called upon with a top speed of up to 16 knots, supplying quiet, efficient power for passage-making and rapid repositioning between islands.

Step aboard and the atmosphere is one of relaxed refinement. Nauta’s signature panoramic salon suffuses the interior with light, while an open-plan layout creates a seamless flow between indoor ease and alfresco living. Inviting lounging areas forward and aft offer perfect settings for sunrise coffee, shaded midday meals, and intimate dinners beneath the stars over calm waters. Broad transom steps give safe, straightforward access to the sea, ideal for snorkeling, paddleboarding, or boarding a tender for shore excursions.

Accommodations favor unhurried comfort and privacy. Up to eight guests are welcomed across four beautifully appointed cabins, each served by its own head, while a dedicated crew cabin with two berths ensures discreet professional service when required. Thoughtful storage, climate control, and practical detailing throughout support extended cruising, and substantial fuel and water capacities make adventurous itineraries far from the beaten track

both realistic and relaxing.

On deck, wide, secure walkarounds and elevated helm stations afford excellent visibility and easy handling whether making a lively passage between atolls or easing into a tranquil anchorage at dusk. The hulls' efficient lines from VPLP reward owners with composed performance and a reassuring motion, and the straightforward deck plan makes shorthanded operation intuitive and enjoyable.

Versatile as she is elegant, this 64-foot catamaran is equally at home on private family voyages, in premium charter service, or as a graceful liveaboard in tropical waters. Cruising Indonesian seas, she is an ideal platform from which to discover coral gardens, remote beaches, and vibrant local cultures with understated style and genuine capability.
