OVERVIEW

The Golden Mile stands as a finely preserved example of the distinguished Bering 65, presented in superb condition thanks to discerning ownership and a disciplined program of care that speaks to the lineage of this long-range explorer motor yacht. Largely owner-operated, she bears the marks of meticulous attention and responsible stewardship throughout her life, each system and surface reflecting considered maintenance. Equally at home in angling pursuits and on extended coastal passages, she consistently demonstrates the practical functionality and steadfast reliability demanded of a bluewater, full-displacement trawler yacht, delivering the comfort and confidence expected of a true passagemaker. Her seasonal lay-ups have been conducted in Busan, South Korea, where the vessel is professionally winterized and attentively maintained to preserve operational readiness. Having spent much of her time cruising throughout Southeast Asia and having ventured into more testing northern waters, her service history validates real expedition capability, seaworthiness, and versatility across a wide range of conditions. As a solid and dependable explorer yacht and long-range cruiser, she offers a compelling opportunity for an owner seeking a world-ready vessel with a strong service record and the elegance to travel far in comfort.
